Reluctant Regulators Leo F. Goodstadt, 2011-04-01 The 2007 2009 global financial crisis was predictable and avoidable but American and British regulators chose not to intervene They failed to implement their own policies because of an Anglo American regulatory culture of non intervention that dominated financial regulation worldwide Hong Kong the international financial center of an increasingly prosperous China defied world opinion and made stability its priority This policy ensured Hong Kong s robust performance during the last 15 years and it made possible Hong Kong s impressive contributions to financing China s economic take off and to the modernization of its financial institutions Reluctant Regulators is a scathing indictment of regulatory inertia in the West It provides original insights into the causes of financial crises and pays special attention to China s attempts at reform and Hong Kong s place in China s financial modernization Leo F Goodstadt was chief policy adviser to the Hong Kong Government as head of its Central Policy Unit 1989 1997 and has had an extensive consultancy practice in Asian banking He has written widely on the global financial crisis and on China s economic development

Redesigning Asian Business Frank-Jürgen Richter, 2002-03-30 With much of the Asian Miracle destroyed and much of the Western world s awe for Asian ways of management dissipated organizations there are changing with such speed that most of our knowledge about them is quickly outdated Richter takes stock of East Asian management practices as they are perceived so far and he discusses the strategies that others propose to help Asian management redesign itself for the future including a long term agenda for change based on the cultural heritage of Confucianism He analyzes the cultural underpinnings of Asian management practices evaluates the influence of the Asian economic crisis on them and discusses their potential for guiding Asian firms to a sustainable competitive advantage He then provides examples of how Asian firms shape up their organizations and describes a short term agenda to fix the weaknesses in Asian management at least temporarily Throughout Richter avoids talk about strategic management as merely a theory he adopts a broader definition that includes a value system to guide East Asian firms as they re emerge and redevelop The result is a challenging intensely pragmatic analysis for decision makers at all levels in all countries and cultures and it is a new stone in the foundation of academic research and thought Richter opens with a discussion of the legacy of Confucianism and its impact on Asian management practices He then proposes three intrinsic characteristics of Asian management networks trust and collectivism He gives a history of the Asian economic crisis highlighting the failures of Asia s economic development and the flaws that appeared in its management practices The third section of the book evaluates management

practices that have emerged since then and how they are perceived so far Then in the concluding section he presents a new perspective on Asian management short term goals fixing current management weaknesses and long term goals incorporating its long abiding strengths Throughout Richter draws on the management theory enunciated by Hofstede and includes examples and case studies of recent developments across the region and he also includes his own theories as well as those of others Mr Richter's book will be a welcome addition to the literature on business and the culture of Asia

Risk and Public Policy in East Asia Mutsuko Takahashi, 2016-04-08 Contemporary Asian society is marked by social processes associated with the loss of stable economic growth and high employment family structures capable of caring for family members in need and governmental economic and political competence Post financial crisis job uncertainty and income and labor market polarization have become important issue in Asian societies Family structures are viewed as have been weakened with a corresponding rise in divorce and domestic violence Trust in the government is in decline Against this backdrop it is timely to review three critical issues 1 policies addressing work related risks and socio economic security 2 changes regarding the structure and stability of families and 3 issues concerning governance in times of weakened state capacity declining trust and the emergence of new politics Containing chapters written by international scholars this book introduces the concepts and theoretical approaches of risk and risk and governance and places them within the context of Asian societies
