Public Policy And Industrial Development The Case Of The Mexican Auto Parts Industry:

Public Policy And Industrial Development Mark Bennett, 1986-03-25 Research paper on the relationship between industrial policy and industrial development based on a case study of the motor vehicle industry auto parts manufacturing in Mexico investigates business organization of joint ventures Mexican and foreign owned industrial enterprises discusses industrial production pricing competitiveness etc finds that the government claims it has an export promotion policy but in fact tends to inhibit industrial growth Bibliography graphs statistical tables

Mexican Banking and Investment in Transition John A. Adams, 1997-04-22 Banking and investment in Mexico have changed radically over the past decade and the economic events that prompted these changes will have a significant impact on Mexico's role in regional and world financial markets Adams traces the evolution of Mexico's banking and investment activities reviews current conditions and their implications for future investment opportunities in Mexico and makes clear that what happens to Mexico's economy and political stability will have major implications for what happens elsewhere in the world One of the first books to look at banking and investment in Mexico after the peso crash of 1994-1995 with a highly detailed bibliography and notes Adams's study will be important reading for international business finance and investment professionals and for their colleagues with similar interests throughout the academic community The fate of both Mexico and the United States is that the two countries are forever tied by geography The historical evolution of the dual interaction between the peoples of these two nations is and will be significant for the future of both countries With this in mind the book is divided into chapters reviewing such themes as the interaction and historical financial events that transpired during the advent of the North American Free Trade Agreement NAFTA and the expansion of cross border financial and investment services as well as a framework and background review of the events leading up to and resulting from the devaluations of the 1970s and 1980s and more recently the evolution of the peso crisis of 1994-1995 The imperceptible yet gradual economic integration of the two economies has required time in developing while not always being seamless in its implementation and transition American macroeconomic policy has long had a direct impact on the economy of Mexico as is evidenced by the impact of U.S. interest rates on the financial underpinnings of the Mexican treasury and the banking system to assist with the overall economic growth of the nation An appreciation for the historically sensitive issues and perspectives be they nationalization of the oil industry immigration or market access for foreign financial services is paramount to a fuller understanding of doing business on both sides of the border

Ford and the Global Strategies of Multinationals Maria Isabel Studer Noguez, 2003-08-27 Today the Multinational Enterprise MNE is seen as a leading agent in the process of globalization As they adopt global strategies MNEs are seen to be creating stronger deeper and more lasting links amongst countries thus shifting the balance of power inexorably in their favour to the detriment of the state This book interrogates this idea by undertaking a historical analysis of the global strategies of Ford

Driving Continentally Maureen Molot, 1993-05-15 The papers in this collection provide

important new material on this industry in crisis which is critical to the economies of the U S Canada and Mexico The authors examine major changes in the industry and how government policies in the three countries have promoted protected and shaped it Commodity Chains and Global Capitalism Gary Gereffi,Miguel Korzeniewicz,1993-11-30 The current restructuring of the world economy under global capitalism has further integrated international trade and production It thus has brought to the fore the key role of commodity chains in the relationships of capital labor and states Commodity chains are most simply defined as the link between successive processes of manufacturing that result in a final product available for individual consumption Each production site in the chain involves organizing the acquisition of necessary raw materials plus semifinished inputs the recruitment of labor power and its provisioning arranging transportation to the next site and the construction of modes of distribution via markets and transfers and consumption The contributors to this volume explore and elaborate the global commodity chains GCCs approach which reformulates the basic conceptual categories for analyzing varied patterns of global organization and change The GCC framework allows the authors to pose questions about development issues past and present that are not easily handled by previous paradigms and to more adequately forge the macro micro links between processes that are generally assumed to be discretely contained within global national and local units of analysis The paradigm that GCCs embody is a network centered historical approach that probes above and below the level of the nation state to better analyze structure and change in the contemporary world **Brief Tests of Collection**

Strength Howard D. White,1995-09-26 For purposes of accreditation resource sharing and institutional mission librarians need to assess the strengths of their collections in particular subject areas This book describes and illustrates a brief test for determining a library s collection strength Though such tests are most often employed in academic libraries the methodology outlined by the author should be useful to all types of libraries in assessing the strength of their holdings In a time of increasing material and limited resources libraries need to be particularly judicious in deciding which works to acquire Oftentimes a library seeks to develop strong holdings in one or more subject areas Such an approach is especially useful for libraries that share their resources with other institutions To plan their acquisitions carefully and to be of greatest use to other consortia members a library needs to gauge the strength of its holdings accurately This volume describes and illustrates a relatively brief test to assign libraries a score for existing collection strength in a subject area Drawing upon expert human judgment and holdings data available from OCLC the test can assist librarians in setting and verifying collection levels on the RLG or WLN Conspectus scales Collection strength is often verified in a labor intensive fashion The brief test presented by the author is an economical alternative to the more typical labor intensive approach to collection analysis Industrial Restructuring in Mexico Francisco Zapata,1990 *Industrialization and Private Enterprises in Mexico* □□□□,2001-03 Examines the formation and development of indigenous private enterprises in Mexico from the late 19th century to the 1980s Highlights the role of import substitution in this development Analyses developments in five

industries with large scale indigenous enterprises beer brewing steel baking nonferrous metal mining and autoparts manufacturing Discusses the mutual effects that the growth of these enterprises and the industrialization process have exerted on each other *Driving a Bargain* Richard F. Doner,2023-11-15 *Driving a Bargain* Automobile Industrialization and Japanese Firms in Southeast Asia explores the dynamics between developing nations and foreign investors in the context of automobile manufacturing Focused on Southeast Asia the book analyzes the national efforts of the Philippines Malaysia Indonesia and Thailand to establish domestic automobile industries These countries have pursued policies aimed at reducing dependency on foreign imports and building local manufacturing capacities By examining the interactions between ASEAN countries and largely Japanese auto firms the study highlights the challenges and opportunities these nations face in negotiating technology transfer market access and industrial autonomy The book presents a critical examination of the bargaining processes that shape these countries industrialization strategies Through comparative case studies the book challenges prevailing theories of foreign investment and dependency It critiques the structuralist approach to bargaining arguing for a more nuanced understanding of local leverage in manufacturing industries The study highlights the significance of local firms the role of the state and the political and economic conditions that determine bargaining success By exploring the interplay between the private sector and government in ASEAN nations *Driving a Bargain* offers new insights into the potential for developing countries to increase their manufacturing capacity and achieve economic growth through strategic partnerships with foreign firms This work also contributes to the broader development literature by emphasizing the importance of public private coalitions in fostering sustainable industrial development This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1991
