Pitman,2012-12-06 The previous edition of this directory extended its coverage of the Far East Australasia and Latin America areas previously under represented For this new edition emphasis has been given to increasing the number of entries for organizations from Britain the United States and Australia and particular attention has been paid to new political organizations in Central and Eastern Europe and the former Soviet Union The number of entries included has gone up to over 68 000 of which over 9 000 are new or amended Cross references from defunct organizations in the previous edition have been deleted and references indicated by ex and now added for organizations which have changed their name since the previous edition As before the range of organizations included is broad and only purely local organizations have been excluded This directory therefore lists official and unofficial organizations national and international on all SUbjects political economic and social Acronyms of parent bodies of subsidiary organizations are given where appropriate and equivalencies are used to link acronyms in different languages for the same organization Further information about the organizations listed can be found in the sources listed in the bibliography I would like to thank Henry Heaney and Graeme Mackintosh for their advice and David Grinyer for his technical support L M Pitman Bibliography Adams R ed 1993 Centres Bureaux A Directory of UK Concentrations of Effort Information and Expertise 2nd edn CBD Research Beckenham Barrett IK 1993 Encyclopedia of Women s Associations Worldwide Gale London      *The First Presidential Communications Agency* Mordecai Lee,2006-01-01 The history of FDR s Office of Government Reports      **A History of Government Public Relations in the United States** Mordecai Lee,2025-07-09 This book presents a history of public relations in the modern American administrative state Because government agencies have a democratic obligation to be open and transparent the practice of public relations by government is qualitatively different from that in business administration and nonprofit management The duty of government agencies to engage in public relations largely emerged during the Progressive era 1890 1920 It evolved significantly under President Franklin Roosevelt He wanted citizens to know about New Deal programs they qualified for During World War II federal PR encouraged civic participation in the war effort By the 1990s the media s traditional coverage of government faded requiring agencies to communicate in new ways Government PR continued evolving in the 21st century to take advantage of advances in technology This book relates to political science American history public administration and communication PR It is intended as a textbook by researchers and for academic libraries      Public Relations and Communication Management in Europe Betteke van Ruler,Dejan Vercic,2008-08-22 The book challenges the notion that public relations in Europe is no more than a copy of the Anglo American approach It presents a nation by nation introduction to historical public relations developments and current topics in European countries written by noted national experts in public relations research and well known professionals who are able to oversee the situation in

encomendation with acronyms took place when I was ten years old and growing up in an occupied country during the Second World War My father proudly announced one day that despite the ban imposed by the occupying administration he had managed to get a radio installed and could receive the BBC All acronyms used in this introduction are listed in this dictionary To me the meaning of BBC was that we would receive different information about the war than we got from the usual censored broadcasts There was of course the well known acronym associated with the post but at that time I did not realize that it meant more than the postal service in those years a deteriorated service Gradually the daily use of acronyms grew Most of the newly acquired three and four letter abbreviations referred to organizations such as the broadcasting corporations in The Netherlands and Belgium and references to countries such as the USA USSR and UK When attending high school the HBS after the war my knowledge of acronyms grew slowly Even during the ten years I spent in the Dutch Merchant Marine the GHV the number of acronyms was limited to advanced equipment that eventually became known as RADAR LORAN and DECCA **Excellent Public Relations and Effective Organizations** James E. Reassessing the Relationship between Marketing and Public Relations Lisa Dühring, 2017-04-24 Lisa Dühring reconstructs the relationship between public relations and marketing research on a metatheoretical level She presents a concise systematization of the theoretical discourse in both disciplines since the beginning of the twentieth century by differentiating key phases of development and evaluating current research approaches This study argues for a stronger connection of both disciplines and a better profiling within the mother disciplines of communication and business studies by fostering critical and interpretative approaches This book is strongly recommended to everybody interested in the history and epistemology of marketing and public relations theory and the relationship between both fields
