Public Lives Of Rural Older Americans:

The Public Lives of Rural Older Americans Steven A. Peterson, Robert J. Maiden, 1993 Along with national data this book uses two detailed questionnaires which were administered to older Americans in Allegany County New York in 1983 and 1987 as the basis for exploring the public lives of rural older Americans The authors discuss the factors that shape the political views and behavior of the rural elderly consulting social economic health and nutritional variables Curious as to older Americans awareness of the nutrition social housing and mental health programs designed to help them Peterson and Maiden address the unique set of factors that face the elderly s access to these services while they stress the importance of aggressive community outreach Their examination of such issues leads to several policy suggestions *American Hometown Renewal* Gary Mattson, 2016-09-13 Before the interstates Main Street America was the small town s commercial spine and served as the linchpin for community social solidarity Yet during the past three decades a series of economic downturns has left many of the great small cities barely viable *American Hometown Renewal* is the first book to combine administrative budgetary and economic analysis to examine the economic and fiscal plight currently facing America s small towns Featuring a blend of theory applications and case studies it provides a comprehensive single source textbook covering the key issues facing small town officials in today s uncertain economy Written by a former public manager university professor and consultant to numerous small towns in the Heartland this book demonstrates the ways in which contemporary small towns throughout the nation are facing economic challenges brought about by the financial shocks that began in 2008 Each chapter explores a theme related to small town revival and provides a related tool or technique to enable small town officials to meet the challenges of the 21st Century Encouraging local small town officials to look at the economic orbit of communities in a similar manner as a town s budget or a family s personal wealth examining its specific competitive advantages in terms of relative assets to those of competing communities this book provides the reader with step by step instructions on how to conduct an asset inventory and apply key asset tools to devise a strategy for overcoming the challenges and constraints imposed upon spatially fixed communities *American Hometown Renewal* is an essential primer for students studying city management economic community development and city planning and will be a trusted handbook for city managers geographers city planners urban or rural sociologists political scientists and regional microeconomists **Active and Healthy Aging and Quality of Life: Interventions and Outlook for the Future, volume II** Shekhar Chauhan, Petra Heidler, David Jean Simon, 2024-09-10 The continuous growth of older populations as a consequence of demographic changes is a huge global challenge The growing proportion of older adults not only burdens the healthcare system specifically in developing countries but also posits a challenge at the household level specifically in nuclear and one person households For societies as a whole to avoid costly and negative effects it is crucial to increase their knowledge of how to promote good health among older adults so that they can live longer and enjoy a better quality of life Active aging is the process of

optimizing opportunities for health participation and security in order to enhance quality of life as people age An active and healthy life has remained one of the most important aspirations for all people both young and older adults alike This ambition has become a genuine possibility for many due to a rising life expectancy among people of diverse attributes across the world While celebrating longer life and more financial security in later life than ever before we need to challenge how these aspirations can be sustained through our own behavioral responses and through public policy institutional reforms and innovations The challenge is to identify recommend and promote strategies and interventions that stimulate and sustain the activity independence and health of people of all ages especially older adults and in the process promote the well being and quality of life of people and make public welfare systems more sustainable Policy Issues for the Elderly Poor ,1981
