Public Opinion And Political Change In Poland 1980 1982

Peter J. Perry

Public Opinion And Political Change In Poland 1980 1982:

Public Opinion and Political Change in Poland, 1980-1982 David Stewart Mason, 2009-12-03 This book draws on public opinion surveys conducted in Poland during the Solidarity era to examine popular attitudes on fundamental issues of political power and on the dramatic political events of 1980 1982 These surveys unprecedented for a communist regime offer a unique portrait of the values and attitudes of a population in a society undergoing profound social economic and political change The study focuses on the citizens who are often overlooked in studies of communist systems As such it provides a fresh look at the Solidarity experience from the public s point of view It details the sources of support and opposition for the regime the Solidarity leadership and the policies of each For example support for Solidarity declined during 1981 but it remained strong and there was little popular support for the hardline measures employed by the regime Public Opinion and Polling around the World John G. Geer, 2004-07-21 Covering the intricate facets of America s most important democratic tradition this book serves as an important resource to understand how citizens views are translated into governmental action Public Opinion and Polling around the World presents a thorough review of public opinion from its roots in colonial America to its role in today s emerging democracies More than 100 entries prepared by top scholars examine the 200 year history of public opinion measurement methodologies with an emphasis on telephone interviews and Internet polls and key figures like George Gallup and Elmo Roper who created their own polling systems An analysis of theories compares schools of thought from the fields of psychology sociology and economics and explores how people form opinions A fascinating snapshot of the public s current views on economic issues foreign policy gender gay rights and other hot button topics observes patterns across genders race ethnic origins class and religion in regions all over the world Students academicians and political observers will discover answers to such questions as does public opinion shape the behavior of government **Political Authority and Party Secretaries in Poland, 1975-1986** Paul G. Lewis, 1989-06-08 This book deals with the changing position and role of the Polish United Workers Party and its apparatus between 1975 and 1986 Their role and the way they perform it is seen as a major determinant of the nature of party leadership and more generally of the strength of political authority in communist states **Poland's Protracted Transition** Kazimierz Poznański, 1996 This book first published in 1997 offers an integrated study of institutional change in the Polish economy since 1971 **The Origins of Democratization in Poland** Michael H. Bernhard, 1993 Home to the New York Yankees the Bronx Zoo and the Grand Concourse the Bronx was at one time a haven for upwardly mobile second generation immigrants eager to leave the crowded tenements of Manhattan in pursuit of the American dream Once hailed as a wonder borough of beautiful homes parks and universities the Bronx became during the 1960s and 1970s a national symbol of urban deterioration Thriving neighborhoods that had long been home to generations of families dissolved under waves of arson crime and housing abandonment turning blocks of apartment buildings into gutted graffiti covered shells and empty trash filled lots In this revealing history of the

Bronx Evelyn Gonzalez describes how the once infamous New York City borough underwent one of the most successful and inspiring community revivals in American history From its earliest beginnings as a loose cluster of commuter villages to its current status as a densely populated home for New York's growing and increasingly more diverse African American and Hispanic populations this book shows how the Bronx interacted with and was affected by the rest of New York City as it grew from a small colony on the tip of Manhattan into a sprawling metropolis This is the story of the clattering of elevated subways and the cacophony of crowded neighborhoods the heady optimism of industrial progress and the despair of economic recession and the vibrancy of ethnic cultures and the resilience of local grassroots coalitions crucial to the borough's rejuvenation In recounting the varied and extreme transformations this remarkable community has undergone Evelyn Gonzalez argues that it was not racial discrimination rampant crime postwar liberalism or big government that was to blame for the urban crisis that assailed the Bronx during the late 1960s Rather the decline was inextricably connected to the same kinds of social initiatives economic transactions political decisions and simple human choices that had once been central to the development and vitality of the borough Although the history of the Bronx is unquestionably a success story crime poverty and substandard housing still afflict the community today Yet the process of building and rebuilding carries on and the revitalization of neighborhoods and a resurgence of economic growth continue to offer hope for the future *Russia and Eastern Europe, 1789-1985* Raymond Pearson, 1989

The Polish Road from Socialism: The Economics, Sociology and Politics of Transition Walter D. Connor, Piotr Ploszajski, 2019-07-26 What the contributors to this volume offer is neither a romantic version of the course of Polish history nor a jubilant account of the recovery of national independence and political choice Rather they offer a variety of tough minded analytic perspectives on what comes when the party's over not just the PSPR but the celebration marking its downfall They focus on Poland's movement toward an internationally competitive market economy a political democracy in which plural interests compete and the constitution of a civil society that both tolerates and ameliorates conflict The multidisciplinary contributors include Jan Muzel Keith Crane Benjamin Slay Kazimierz Poznanski Jan Bossak Wojciech Bienkowski Włodzimierz Wesolowski Edmund Wnuk Lipinski Adam Sarapata Andrzej Sicinski Piotr Lukaszewicz Krzysztof Nowak David S. Mason Andrzej Rychard Krzysztof Jasiewicz Jack Bielasiak Janusz Reykowski Stanisław Gebethner Mirosława Marody Edmund Mokrzycki and Michael D. Kennedy Popular Opinion in Totalitarian Regimes Paul Corner, 2009-10-01 Fascism Nazism and Communism dominated the history of much of the twentieth century yet comparatively little attention has focused on popular reactions to the regimes that sprang from these ideologies Popular Opinion in Totalitarian Regimes is the first volume to investigate popular reactions to totalitarian rule in the Soviet Union Fascist Italy Nazi Germany and the communist regimes in Poland and East Germany after 1945 The contributions written by internationally acknowledged experts in their fields move beyond the rather static vision provided by traditional themes of consent and coercion to construct a more nuanced picture of everyday life in the various regimes The

book provides many new insights into the ways totalitarian regimes functioned and the reasons for their decline encouraging comparisons between the different regimes and stimulating re evaluation of long established positions

The State against Society Grzegorz Ekiert,1996-09-30 Classical images of state socialism developed in contemporary social sciences were founded on simple presuppositions State socialist regimes were considered to be politically stable due to their pervasive institutional and ideological control over the everyday lives of their citizens impervious to reform and change and representative of extreme political and economic dependency Despite their contrasting historical experiences they have been treated as basically identical in their institutional design social and economic structures and policies Grzegorz Ekiert challenges this notion in a comparative analysis of the major political crises in post 1945 East Central Europe Hungary 1956 63 Czechoslovakia 1968 76 and Poland 1980 89 The author maintains that the nature and consequences of these crises can better explain the distinctive experiences of East Central European countries under communist rule than can the formal characteristics of their political and economic systems or their politically dependent status He explores how political crises reshaped party state institutions redefined relations between party and state institutions altered the relationship between the state and various groups and organizations within society and modified the political practices of these regimes He shows how these events transformed cultural categories produced collective memories and imposed long lasting constraints on mass political behavior and the policy choices of ruling elites These crises shaped the political evolution of the region produced important cross national differences among state socialist regimes and contributed to the distinctive patterns of their collapse

The Polish Economic Crisis Batara Simatupang,1993-11-11 Simatupang examines the circumstances that led to the revolution of 1989 primarily the economic slump of the 1980s and the severe recession that preceeded it and its effects on the Polish people

1978-1989 Heinz-Dietrich Fischer,2020-01-20 No detailed description available for 1978 1989

Materials for a Balance of the Soviet National Economy, 1928-1930 Soviet Union. T[?]S[?]entral'noe upravlenie narodnokhozi[?]istvennogo ucheta,1985 Newly translated materials from the years of mass collectivisation and the launching of the Soviet industrialisation drive

Hungary's Negotiated Revolution Rudolf L. Tökés,1996-09-28 In this book first published in 1996 Rudolf T k s offers a comprehensive overview of the rise and fall of the Kadar regime in Hungary between 1957 and 1990 The approach is interdisciplinary reviewing the regime s record with emphasis on politics macroeconomic policies social change and the ideas and personalities of political dissidents and the regime s successor generation The study provides a fully documented reconstruction of the several phases of the ancien r gime s road from economic reform to political collapse based on interviews with former top party leaders and transcripts of the Party Central Committee T k s gives an in depth account of the personalities and issues involved in Hungary s peaceful transformation from one party state to parliamentary democracy and a comprehensive assessment of Hungary s post Communist politics economy and society

Women, the State and Revolution Wendy Z. Goldman,1993-11-26 Focusing on how women peasants and

orphans responded to Bolshevik attempts to remake the family this text reveals how by 1936 legislation designed to liberate women had given way to increasingly conservative solutions strengthening traditional family values **Political**

Corruption and Political Geography Peter J. Perry, 2018-12-20 First published 1997 this volume examines the way in which political corruption remains neglected as a matter of scholarly enquiry and research There is still a powerful and traditional taboo which is quite out of the step with the topic's real world significance and the increasing attention it receives from serious sections of the media The book aims by systematic exposition and case study to break down that taboo and to demonstrate the topic's importance within a framework provided by the discipline of geography The novelty of the book is then that it considers a formerly unconsidered factor corruption as part of the world's geography as both part of the geographical context in which human activity takes place and as a spatially variable condition explicable at least in part in terms of other geographies The conclusion is that much geographical scholarship ignores this factor at the risk of its credibility The Jews of the Soviet Union Benjamin Pinkus, 1988 This is a comprehensive and topical history of the Jews in the Soviet Union and is based on firsthand documentary evidence and the application of a pioneering research method into the fate of national minorities Within a four part chronological framework Professor Pinkus examines not only the legal political status of the Jews and their reciprocal relationship with the Soviet majority but also the impact of internal economic demographic and social processes upon the religious educational and cultural life of Soviet Jewry A second layer of analysis describes in depth the complex linkages between the Jews of the Soviet Union the Jews in other diasporas and the state of Israel itself The Jews of the Soviet Union marks a major contribution to the historiography and social analysis of its subject and provides a worthy companion to Professor Pinkus's acclaimed documentary study *The Soviet Union and the Jews 1948-1967* *Problems of Communism*, 1992 *Popular Protest And Political Culture In Modern China* Jeffrey N

Wasserstrom, 2018-02-07 This innovative and widely praised volume uses the dramatic occupation of Tiananmen Square as the foundation for rethinking the cultural dimensions of Chinese politics Now in a revised and expanded second edition the book includes enhanced coverage of key issues such as the political dimensions of popular culture addressed in a new chapter on Chinese rock and roll by Andrew Jones and the struggle for control of public discourse in the post 1989 era discussed in a new chapter by Tony Saich Two especially valuable additions to the second edition are art historian Tsao Tsing yuan's eyewitness account of the making of the Goddess of Democracy and an exposition of Chinese understandings of the term revolution contributed by Liu Xiaobo one of China's most controversial dissident intellectuals The volume also includes an analysis by noted social theorist and historical sociologist Craig C Calhoun of the similarities and differences between the new social movements of recent decades and the old social movements of earlier eras **TEXT CONCLUSION** To facilitate classroom use the volume has been reorganized into groups of interrelated essays The editors introduce each section and offer a list of suggested readings that complement the material in that section **Dominant Ideologies (RLE Social**

Theory) Bryan S. Turner, Nicholas Abercrombie, Stephen Hill, 2014-09-15 In this volume leading international scholars elaborate upon the central issues of the analysis of ideology the nature of dominant ideologies The ways in which ideologies are transmitted their effects on dominant and subordinate social classes in different societies the contrast between individualistic and collectivist belief systems and the diversity of cultural forms that coexist within the capitalist form of economic organization This book is distinctive in its empirical and comparative approach to the study of the economic and cultural basis of social order and in the wide range of societies that it covers Japan Germany and the USA constitute the core of the modern global economy and have widely differing historical roots and cultural traditions Argentina and Australia are white settler societies on the periphery of the capitalist world system and as a result have certain common features that are cut across in turn by social and political developments peculiar to each Britain after a decade of Thatcherism is an interesting test of the efficacy of an ideological project designed to change the cultural values of a population Poland shows the limitations of the imposition of a state socialist ideology and the cultural complexities that result Patronage and Politics in the USSR John P. Willerton, 1992 How do Soviet politicians rise to power How are national and regional regimes formed How are conflicting political interests brought together as policies are developed in the Soviet Union In Patronage and Politics in the USSR first published in 1991 Professor John Willerton offers major insights into the patronage networks that have dominated elite mobility regime formation and governance in the Soviet Union during the past twenty five years Using the biographical and career details of over two thousand national leaders and regional officials in Azerbaijan and Lithuania John Willerton traces the patron client relations underlying recruitment mobility and policymaking He explores the strategies of power consolidation and coalition building used by Soviet chief executives since 1964 as well as the institutional links and policy outcomes that have resulted from network politics The author also assesses the manner and extent to which leaders in politically stable and less stable settings spanning different national cultural contexts have relied upon patronage networks to consolidate power and to govern Finally Professor Willerton explores how in a period of dramatic change patron client networks may have given way to institutionalised interest groups and political parties
