Political Institutions and Public Policy B. Steunenbergh,F. van Vught,2012-12-06 The discipline of public administration and public policy is experiencing a renaissance of research in which explicit attention is paid to political institutions This renewed interest in institutions is not simply an extension of the classical paradigm in the study of public administration which peaked in the 1920s and 1930s but offers a new orientation on political institutions While classical institutionalism is known for its focus on the formal structures of the executive branch of government the new institutionalism concentrates on the interaction between political institutions and the behavior of policy makers This interaction which until recently was largely neglected in public administration and public policy forms the basic theme of this volume To advance the study of political institutions two rather basic problems need to be addressed What are institutions and what are adequate ways to analyze them We briefly discuss both questions which determine the structure of this book
