

# The Public Presidency

## ■ Going Public

- Public support is perhaps the greatest source of influence a president has
- Presidential appearances are staged to get the public's attention
- As head of state, presidents often perform many ceremonial functions, which usually result in favorable press coverage

# Public Presidency

**Joshua Woods, C. Damien Arthur**

## **Public Presidency:**

Congress, The President, And Public Policy Michael L Mezey, 2019-03-06 This book looks at the relationship between Congress and the president and how this interaction shapes public policy The relationship between the president and the Congress has been under discussion as long as the U S Constitution has existed It has been a discussion in which presidents congressional leaders Supreme Court justices scholars f

**New Directions in the American Presidency** Lori Cox Han, 2017-10-06 Especially coming out of the landmark presidential elections of 2008 and 2016 the study of the American presidency both as a political institution and of those who have held the office is one of the most fascinating and dynamic fields of study within American government New Directions in the American Presidency takes a current look at the various issues facing the contemporary presidency and provides a state of the art overview of current trends in the field of presidency research This volume of original chapters by leading presidential scholars is designed to include all the essential topics covered in an undergraduate level presidency course or a graduate level seminar while also bringing together key disciplinary debates and treatment of important current real world developments Each chapter is written with students in mind so that it remains accessible interesting and engaging New to the Second Edition New key chapters on presidents and political parties and presidential leadership essential following the 2016 presidential election A fresh approach to the President and the Constitution and the President and domestic policymaking are provided by new authors for these foundational chapters All chapters have been revised with updates coming out the 2016 election especially in relation to presidential campaign politics media and the Supreme Court

**White House Studies Compendium** Glenn P. Hastedt, 2007 The American Presidency has become one of the most powerful offices in the world with the ascendancy of American power in the 20th century White House Studies Compendium brings together piercing analyses of the American presidency dealing with both current issues and historical events The compendia are the bound issues of White House Studies with the addition of a comprehensive subject index

**Communication and Language Analysis in the Public Sphere** Hart, Roderick P., 2014-01-31 Although language is certainly individualized most people conform to linguistic norms because of their surroundings Over time particular words and phrases are popularized by the media social trends or world events and with emergence of internet technologies the communication between all types of people is much easier Communication and Language Analysis in the Public Sphere explores the influence of the World Wide Web on the relationships between ordinary citizens and the ability to communicate with politicians celebrities and the media As some words may gain popularity worldwide and others may begin to define a specific discipline This book is essential for linguistics researchers scholars and professionals interested in determining these patterns and how they affect groups and individuals

*The Presidency and Public Policy* Robert Spitzer, 2012-10-26 Spitzer's classic study of presidential power The Presidency and Public Policy examines the annual domestic legislative programs of US presidents from 1954 1974 to show how and in

what ways the characteristics of their proposals affected their success in dealing with Congress success being defined as Congress's passing the presidents legislative proposals in the forms offered Presidential skills matter but Spitzer demonstrates that the successful application of those skills is relatively easy for some policies and next to impossible for others Certain consistent patterns predominate regardless of who sits in the Oval Office and to a great extent those patterns prescribe presidential behavior

The Lost Soul of the American Presidency Stephen F. Knott, 2020-07-14 The American presidency is not what it once was Nor Stephen F Knott contends what it was meant to be Taking on an issue as timely as Donald Trump's latest tweet and old as the American republic the distinguished presidential scholar documents the devolution of the American presidency from the neutral unifying office envisioned by the framers of the Constitution into the demagogic partisan entity of our day The presidency of popular consent or the majoritarian presidency that we have today far predates its current incarnation The executive office as James Madison George Washington and Alexander Hamilton conceived it would be a source of national pride and unity a check on the tyranny of the majority and a neutral guarantor of the nation's laws The Lost Soul of the American Presidency shows how Thomas Jefferson's Revolution of 1800 remade the presidency paving the way for Andrew Jackson to elevate majority rule into an unofficial constitutional principle and contributing to the disenfranchisement and worse of African Americans and Native Americans In Woodrow Wilson Knott finds a worthy successor to Jefferson and Jackson More than any of his predecessors Wilson altered the nation's expectations of what a president could be expected to achieve putting in place the political machinery to support a presidential government As difficult as it might be to recover the lost soul of the American presidency Knott reminds us of presidents who resisted pandering to public opinion and appealed to our better angels George Washington John Quincy Adams Abraham Lincoln and William Howard Taft among others whose presidencies suggest an alternative and offer hope for the future of the nation's highest office

**Checks in the Balance** Alexander Bolton, Sharece Thrower, 2021-12-14 How access to resources and policymaking powers determines the balance of power between the legislative and executive branches The specter of unbridled executive power looms large in the American political imagination Are checks and balances enough to constrain ambitious executives Checks in the Balance presents a new theory of separation of powers that brings legislative capacity to the fore explaining why Congress and state legislatures must possess both the opportunities and the means to constrain presidents and governors and why without these tools executive power will prevail Alexander Bolton and Sharece Thrower reveal how legislative capacity which they conceive of as the combination of a legislature's resources and policymaking powers is the key to preventing the accumulation of power in the hands of an encroaching executive They show how low capacity legislatures face difficulties checking the executive through mechanisms such as discretion and oversight and how presidents and governors unilaterally bypass such legislative adversaries to impose their will When legislative capacity is high however the legislative branch can effectively stifle executives Bolton and Thrower draw on a wealth of historical

evidence on congressional capacity oversight discretion and presidential unilateralism They also examine thousands of gubernatorial executive orders demonstrating how varying capacity in the states affects governors power Checks in the Balance affirms the centrality of legislatures in tempering executive power and sheds vital new light on how and why they fail

Gerald Ford and the Challenges of the 1970s Yanek Mieczkowski, 2005-04-22 A reappraisal of the brief presidency of Gerald Ford called to leadership in the midst of scandal stagflation and an energy crisis For many Americans Gerald Ford evokes an image of either an unelected president who abruptly pardoned his corrupt predecessor or an accident prone klutz spoofed on Saturday Night Live In this book Yanek Mieczkowski reexamines Ford s two and a half years in office showing that his presidency successfully confronted the most vexing crisis of the postwar era Viewing the 1970s primarily through the lens of economic events Mieczkowski argues that Ford s understanding of the national economy was better than any modern president s that he oversaw a dramatic reduction of inflation and that he attempted to solve the energy crisis with judicious policies Throughout his presidency Ford labored under the legacy of Watergate Democrats scored landslide victories in the 1974 midterm elections and within an anemic Republican Party the right wing challenged Ford s leadership even as pundits predicted the GOP s death Yet Ford reinvigorated the party and fashioned a 1976 campaign strategy against Jimmy Carter that brought him from thirty points behind to a dead heat on election day Drawing on numerous personal interviews with former President Ford cabinet officials and members of the Ninety fourth Congress Mieczkowski presents the first major work on Ford in more than a decade combining the best of biography and presidential history to paint an intriguing portrait of a president his times and his legacy This ambitious work calls for a reexamination of the Ford presidency in light of the formidable challenges he faced upon taking office A welcome and important addition to the literature on the Ford presidency Library Journal

**New Directions in American Politics** Raymond J. La Raja, 2013-02-15 New Directions in American Politics introduces students not just to how the American political system works but also to how political science works La Raja brings together top scholars to write original essays across the standard curriculum of American government and politics capturing emerging research in the discipline in a way that is accessible for undergraduates Each chapter combines substantive knowledge with the kind of skill building and analytical inquiry that is being touted in higher education everywhere Contributors to New Directions highlight why the questions they seek to answer are critical for understanding American politics and situate them in the broader context of controversies in research The teaching of American politics follows a well worn path Textbooks for introductory courses hew to a traditional set of chapters that describe the Founding American institutions the ways citizens participate in politics and sometimes public policy The material rarely engages students in the kind of questions that animate scholarship on politics One hurdle for instructors is finding material that reflects quality scholarship and thus teaches students about why not just what and yet is accessible for undergraduates Articles in scholarly journals are typically unsuited for undergraduate courses particularly introductory courses What is

needed is a book that conveys exciting trends in scholarship across vital topics in American politics and illustrates analytical thinking *New Directions in American Politics* is that book and will be an ideal companion to standard textbooks that focus mostly on nuts and bolts of politics The book features Contributions from a top notch cast of active scholars and a highly regarded editor A focus on analytical thinking that addresses questions of causality Full coverage of the American politics curriculum Short interviews with each contributor on a companion website to help the research come alive and prompt critical thinking questions for students Work that draws on the highest quality research in political science but is written specifically for first year undergraduate students There is simply no book like this available to the growing number of faculty who want their introductory American politics course to be a reflection of the political science discipline and not just the nuts and bolt facts of the American political system

By *Executive Order* Andrew Rudalevige, 2021-04-06 How the executive branch not the president alone formulates executive orders and how this process constrains the chief executive's ability to act unilaterally The president of the United States is commonly thought to wield extraordinary personal power through the issuance of executive orders In fact the vast majority of such orders are proposed by federal agencies and shaped by negotiations that span the executive branch By *Executive Order* provides the first comprehensive look at how presidential directives are written and by whom In this eye opening book Andrew Rudalevige examines more than five hundred executive orders from the 1930s to today as well as more than two hundred others negotiated but never issued shedding vital new light on the multilateral process of drafting supposedly unilateral directives He draws on a wealth of archival evidence from the Office of Management and Budget and presidential libraries as well as original interviews to show how the crafting of orders requires widespread consultation and compromise with a formidable bureaucracy Rudalevige explains the key role of management in the presidential skill set detailing how bureaucratic resistance can stall and even prevent actions the chief executive desires and how presidents must bargain with the bureaucracy even when they seek to act unilaterally Challenging popular conceptions about the scope of presidential power By *Executive Order* reveals how the executive branch holds the power to both enact and constrain the president's will

*The Life and Public Services of Andrew Johnson, Seventeenth President of the United States. Including His State Papers, Speeches and Addresses, Etc* John SAVAGE (One of the Contributors to the "Irish Felon."), 1866

*Speechwriting in the Institutionalized Presidency* Kenneth Collier, 2018-04-18 This book traces the evolution of the speechwriting process for presidents in the White House from the administration of Franklin Roosevelt to the present While institutionalization of the speechwriting process has often been blamed for bland presidential rhetoric this book draws out the many varied consequences of institutionalization on the speechwriting process Ultimately it concludes that the institutionalization of the process has actually served the presidency well by helping presidents avoid the adverse effects of poorly chosen words

*Counting the Public In* Douglas C. Foyle, 1999-07-06 The book examines the public's influence on foreign policy through case studies including the Formosa Straits crisis intervention

at Dien Bien Phu the Sputnik launch the New Look defense strategy the Panama Canal Treaties the Soviet invasion of Afghanistan the Strategic Defense Initiative the Beirut Marine barracks bombing German reunification the Gulf War and intervention in Somalia and Bosnia

**America at the Ballot Box** Gareth Davies, Julian E. Zelizer, 2015-09-14 A chronological collection of essays America at the Ballot Box uses the history of presidential elections to illuminate both the fundamental character of American political democracy and its evolution from the early Republic to the late twentieth century

**Image Bite Politics** Maria Elizabeth Grabe, Erik Page Bucy, 2009-03-02 Image Bite Politics systematically assesses the visual presentation of presidential candidates in network news coverage of elections and connects these visual images with shifts in public opinion The authors highlight the remarkably potent influence of television images when it comes to evaluating leaders

The Presidency and the Political System Michael Nelson, 2020-07-17 The Presidency and the Political System showcases the best of presidential studies and research with top notch presidency scholars writing specifically for an undergraduate audience Michael Nelson rigorously edits each contribution to present a set of analytical yet accessible chapters and offers contextual headnotes introducing each essay Chapters represent the full range of topics institutions and issues relevant to understanding the American presidency covering approaches to studying the presidency elements of presidential power presidential selection presidents and politics and presidents and government This Twelfth Edition fully incorporates coverage of the Trump administration

**The Executive Branch** Joel D. Aberbach, Mark A. Peterson, 2005-10-27 The presidency and the agencies of the executive branch are deeply interwoven with other core institutions of American government and politics While the framers of the Constitution granted power to the president they likewise imbued the legislative and judicial branches of government with the powers necessary to hold the executive in check The Executive Branch edited by Joel D Aberbach and Mark A Peterson examines the delicate and shifting balance among the three branches of government which is constantly renegotiated as political leaders contend with the public's paradoxical sentiments yearning for strong executive leadership yet fearing too much executive power and welcoming the benefits of public programs yet uneasy about and indeed often distrusting big government The Executive Branch a collection of essays by some of the nation's leading political scientists and public policy scholars examines the historical emergence and contemporary performance of the presidency and bureaucracy as well as their respective relationships with the Congress the courts political parties and American federalism Presidential elections are defining moments for the nation's democracy by linking citizens directly to their government elections serve as a mechanism for exercising collective public choice After the election however the work of government begins and involves elected and appointed political leaders at all levels of government career civil servants government contractors interest organizations the media and engaged citizens The essays in this volume delve deeply into the organizations and politics that make the executive branch such a complex and fascinating part of American government The volume provides an assessment from the past to the present of the role and development of

the presidency and executive branch agencies including analysis of the favorable and problematic strategies and personal attributes that presidents have brought to the challenge of leadership It examines the presidency and the executive agencies both separately and together as they influence or are influenced by other major institutions of American government and politics with close attention to how they relate to civic participation and democracy      **Public Policy** Christopher A. Simon, 2015-11-17 Built on the premise that all public policy is ultimately grounded in the philosophy of governance Christopher A Simon s second edition continues to approach policy by combining normative and empirical perspectives This deeply revised second edition continues to expose students to the basis of preferences policy making processes policy history and current policy decisions and outcomes Chapters conclude with a case studies engaging students in the application of their theoretical knowledge to the real world and encouraging them to be informed and active citizens Key Features Alternate tables of content are included to provide professors and students with flexible easy to implement options for approaching and assigning public policy Case studies provide real world examples that concretely illustrate theoretical concepts End of Chapter questions reinforce key concepts and encourage students to think critically about the chapter topics Each chapter ends with a two part summary that offers a review of the major chapter concepts Lessons Learned and puts them in context The Big Picture      *Political Public Relations* Jesper Stromback, Spiro Kiouisis, 2011-05-18 Political Public Relations maps and defines this emerging field bringing together scholars from various disciplines political communication public relations and political science to explore the area in detail The volume connects differing schools of thought bringing together theoretical and empirical investigations and defines a field that is becoming increasingly important and prominent It offers an international orientation as the field of political public relations must be studied in the context of various political and communication systems to be fully understood As a singular contribution to scholarship in public relations and political communication this work fills a significant gap in the existing literature and is certain to influence future theory and research

**Debating Immigration in the Age of Terrorism, Polarization, and Trump** Joshua Woods, C. Damien

Arthur, 2017-09-27 This book offers a broad interdisciplinary approach to the changes in the U S immigration debate before and after 9 11 A nation s reaction to foreigners has as much to do with sociology as it does with political science economics and psychology Without drawing on this knowledge our understanding of the immigration debate remains mundane partial and imperfect Therefore our story accounts for multiple factors including culture and politics power organizations social psychological processes and political change Examining this relationship in the contemporary context requires a lengthy voyage across academic disciplines a synthesis of seemingly contradictory assumptions and a grasp of research traditions so vast and confusing that an accurate rendering may seem implausible And yet to tell the story of the immigration debate in the age of terrorism polarization and Trump in any other way is to tell it in part The immigration debate in the United States has always been about openness Two questions in particular how open should the door be and what type of immigrant should

walk through it have characterized policy disputes for well over a century In the current debate expansionists want to see more legal immigrants in the U S and greater tolerance if not respect for immigrants Restrictionists favor lower levels of immigration stronger borders and tighter law enforcement measures to stop the stream of illegal migration and alleged crime The aim of this book is to describe how these opposing views materialized in the news media political rhetoric and ultimately in policy Much of our argument rests on the idea that history matters that the dominant narrative about immigration is in constant flux and that the winner of the immigration debate is determined by a vector of contextual elements the joint impact of current events enduring traditions and political economic forces Our approach to the immigration debate avoids deterministic claims and grand scale projections Although we argue with conviction that a climate of fear played an important role in shaping the debate the fear itself and its effects on social attitudes and public policy were neither inevitable nor necessarily long lasting

## Unveiling the Energy of Verbal Beauty: An Psychological Sojourn through **Public Presidency**

In a global inundated with monitors and the cacophony of immediate transmission, the profound power and emotional resonance of verbal beauty usually diminish in to obscurity, eclipsed by the continuous onslaught of noise and distractions.
