Risk Issues and Crisis Management in Public Relations Michael Regester, Judy Larkin, 2008 First published in 1997 as Risk Issues and Crisis Management PR News Casebook David P. Bianco, 1993 From the pages of PR News the world's most widely read public relations weekly comes this collection of 1000 case studies covering major PR campaigns and events from the publication's nearly 50 year history Based on personal interviews conducted by PR News founder and former publisher Denny Griswold each case study analyzes how the most important businesses government agencies and other organizations from around the world have handled such diverse issues as anniversaries boycotts downsizing industrial achievements minority relations new product introductions plant closings product tampering stockholder relations and many others Public Relations Practices Patrick Jackson, Allen H. Center, 1995 Case book for the Public Relations Management course For graduate and undergraduate level courses in introductory public relations public relations campaigns cases business communications management and society This text written by two of the most respected and honored individuals in the field has become the PR casebook for students teachers and practitioners By carefully analyzing actual cases the authors help students develop agility in applying effective cutting edge public relations practices to a wide variety of situations involving all types and sizes of organizations Crisis Communications Kathleen Fearn-Banks, 1996 No company organization or individual whose livelihood depends on public reaction can afford to function without a crisis management communications plan Yet many large fully staffed corporations still have no such plans Management and public relations in these companies are likely to say they acknowledge the need for such a plan however they either lack the manpower or the expertise to develop a crisis plan So they think positively and hope that the inevitable will never occur until the economy improves and they can hire someone with crisis planning expertise Various public relations and crisis communication theories suggest attributes and characteristics of programs that are likely either to prevent crises or enable organizations to recover from crises more swiftly than organizations without those characteristics In fact negative thinking is the appropriate stance in crisis management This book shows that if an organization's leaders think and plan for the worst case scenario they will come out of a crisis in better condition than they would otherwise It shows individuals how to prepare themselves and their organizations to cope with crises that may occur and offers strategies and tactics to be used during a crisis It provides this information via examinations of the experiences of public relations professionals in crises what they did what they wished they had done and what hampered their progress This volume of case studies demonstrates problems that can turn into crises and crises if not handled effectively that can become catastrophes The chapters include descriptions of the skills needed to communicate effectively in a crisis a how to manual on developing and implementing a crisis communication plan some causes of crises rumor sensationalized and irresponsible news coverage and the non expert expert tips on how to work with rather than in conflict with the media and lawyers and narrated case studies of how public relations professionals used
