Publicprivate Spheres

Stephen Humphreys

Publicprivate Spheres:

British Society 1680-1880 Richard Price, 1999-10-28 Richard Price here offers a sweeping interpretation of modern British history. He challenges the dominant assumption that the nineteenth century marked the beginning of modern Britain. British Society argues on the contrary that nineteenth century British society was the extension of an earlier era whose main themes first appeared in the late seventeenth century and which continued to shape the social, economic and political history of the country until the end of the nineteenth century. This book casts light on the main themes of economic, political and social history and offers alternative interpretations on questions and issues that are central to the history of modern Britain. It follows in the great tradition of works such as Briggs's *Age of Improvement* and Perkin's *Origins of Modern English Society* and will be of enormous interest to all students and scholars of the period.

Spaces of Belonging Elizabeth Houston Jones, 2007 Questions of space, place and identity have become increasingly prominent throughout the arts and humanities in recent times. This study begins by investigating the reasons for this growth in interest and analyses the underlying assumptions on which interdisciplinary discussions about space are often based. After tracing back the history of contact between Geography and Literary Studies from both disciplinary perspectives, it goes on to discuss recent academic work in the field and seeks to forge a new conceptual framework through which contemporary discussions of space and literature can operate. The book then moves on to a thorough application of the interdisciplinary model that it has established. Having argued that the experience of contemporary space has rendered questions of home and belonging particularly pressing, it undertakes detailed analysis of how these phenomena are articulated in a selection of recent French life writing texts. The close text-led readings reveal that whilst not often highlighted for their relevance to the analysis of space, these works do in fact narrate the impact of some of the most significant cultural experiences of the twentieth century, including the Holocaust and the AIDS crisis, upon geo-cultural senses of identity. Home is shown to be a deeply problematic yet strongly desired element of the contemporary world. The book concludes by addressing the underlying thesis that contemporary life writing might provide just the postmodern maps that could help not only literary scholars but also geographers better understand the world today. Key names and concepts: Serge Doubrovsky, Herv Guibert, Fredric Jameson, Philippe Lejeune, R. Gine Robin.

Theatre of the Rule of Law Stephen Humphreys, 2010-11-11 *Theatre of the Rule of Law* presents a sustained critique of global rule of law promotion, an expansive industry at the heart of international development, post-conflict reconstruction and security policy today. While successful in articulating and disseminating an effective global public policy, rule of law promotion has largely failed in its stated objectives of raising countries out of poverty and taming violent conflict. Furthermore, in its execution, this work deviates sharply from the rule of law as commonly conceived. To explain this, Stephen Humphreys draws on the history of the rule of law as a concept, examples of legal export

during colonial times and a spectrum of contemporary interventions by development agencies and international organisations Rule of law promotion is shown to be a kind of theatre the staging of a morality tale about the good life intended for edification and emulation but blind to its own internal contradictions *Tournaments of Value* Anne Meneley,1996-01-01 Meneley explores the deep reliance of Middle Eastern men on their female kin to establish maintain and indeed increase the family's honour in the eyes of the wider community by engaging in the exchange of hospitality *Handbook of Political Theory* Gerald F Gaus,Chandran Kukathas,2004-08-21 The Handbook of Political Theory is a latest addition to the SAGE Handbook collection As with all of our handbooks this is a definitive and benchmark publication that covers all aspects of a given subject This handbook is an essential purchase for everyone interested in Political Theory *What's Wrong With Liberalism?* Maureen Ramsay,2004-12-16 A well argued and clearly written critique of liberal political theory organized around its leading concepts very accessible for student use Professor David Beetham In this book Maureen Ramsay provides an accessible and comprehensive critique of the key concepts that underpin liberal political philosophy Each chapter tackles a different concept and analyses the contribution of representative thinkers in seventeenth and eighteenth century liberal thought and contemporary developments and modifications to classical liberalism The purpose of each chapter is to evaluate the concepts and theories central to the liberal tradition from a variety of critical perspectives in order to expose the empirical theoretical practical and moral deficiencies at the heart of liberal thought The arguments presented here challenge the validity of liberal political ideas values institutions and policies and demonstrate the bankruptcy of liberalism in theory and practice This book will be essential reading for students of politics government and moral and political philosophy Maureen Ramsay is Senior Lecturer in Political Theory at the University of Leeds *A Dictionary of Modern Politics* David Professor Robertson,2015-04-22 A comprehensive guide to the complex ideology terminology which surrounds the world of politics Well over 500 extensive definitions Defines political theories dogmas and phraseologies Terms such as Pacifism Proportional Representation Jihad Son of Star Wars Third Way and Consensus are explained clearly and succinctly Invaluable for anyone concerned with politics or current affairs [Handbook of Citizenship Studies](#) Engin F Isin,Bryan S Turner,2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women's rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple

diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997

Taking Space Seriously Issachar Rosen-Zvi,2017-10-24 This perceptive study investigates the different ways in which the state deals with various social groups through the mechanisms of space By means of case studies involving three social groups within Israel s multicultural society the Sephardim the Bedouin Arab minority and the ultra Orthodox community of Jerusalem the different roles played by political space in legal analysis are revealed and analyzed Issachar Rosen Zvi then unearths the unifying logic underlying the disparate legal treatment of political space brought to light by the case studies The law treats political space differently depending on the social group involved an attitude that the author argues can be traced back to early Zionist thinking He concludes that a reform of local government law is required to correct the segregated system of political space and the separate and unequal distribution of political power and economic resources that accompany it

To See and Be Seen T. J. Thomson,2019-10-15 Whether inscribed in physical media projected on surfaces or viewed on digital devices we find ourselves constantly inundated with streams of visual data Yet we know surprisingly little about how these images are made especially in journalistic contexts where representations are long lasting and where repercussions can be dramatic To See and Be Seen considers some of the ideological aesthetic pragmatic institutional cultural commercial environmental and psychological forces that consciously or otherwise shape the production of news images and subsequently influence their reception T J Thomson examines the expectations experiences and reactions of those depicted by visual journalists and considers other relevant factors how do everyday people perceive cameras and those who operate them How are identities visually represented and presented to different audiences And how does the physical and the socially constructed environment shape those depictions The results

of Thomson's research provide one of the first empirical and real time glimpses into the experience of being in front of a journalist's lens *To See and Be Seen* enables us to understand the stories behind images by considering the environment in which such images are made the exchange if one occurred between the camera wielding observer and the observed the identities of both parties and how they react to the representations that are created *To See and Be Seen* is the winner of the National Communication Association's 2020 Diane S Hope Book of the Year Award NCA reviewers called the book a signature achievement in understanding the process of media production and the ethics of photojournalism

Unspeakable Subjects Nicola Lacey, 1998-03-19 Topics range from the conceptual framework of modern legal practices to the legal construction of the relations between individual state and community These essays also look at deploying the law as a means of furthering feminist values *The Horizontal Effect Revolution and the Question of Sovereignty* Johan van der Walt, 2014-08-25 That the recent turn in European Constitutional Review has effectively brought about a revolution in European law has been observed before At issue are two major developments in European judicial review On the one hand the European Court of Human Rights has been collapsing traditional boundaries between constitutional law and private law with a series of decisions that effectively recognized the horizontal effect of Convention rights in the private sphere On the other hand the European Court of Justice has also given horizontal effect to fundamental liberties embodied in the Treaty on the Function of the European Union in a number of recent cases in a way that puts established boundaries between Member State and Union competences in question This book takes issue with these developments by bringing to the fore a key issue that the horizontality effect debate has hitherto largely overlooked namely the question of sovereignty It shows with detailed references to especially the American debate on state action and the German debate on *Drittwirkung* that horizontal effect cannot be understood consistently without coming to grips with the conceptions of state sovereignty that inform different approaches to horizontal effect *Women Transforming Politics* Cathy Cohen, Kathleen B.
