Pufendorf Et La Loi Naturelle:

Pufendorf et la loi naturelle Pierre Laurent (théologien).),1979 **Early Modern Natural Law Theories** T.

Hochstrasser,P. Schröder,2013-06-29 The study of natural law theories in the early Enlightenment continues to be one of the most fruitful areas of research in early modern intellectual history In recent years there have been substantial reassessments of Grotius Pufendorf Thomasius 1 and the whole university based tradition associated with the Fr haujkl rung The appeal of the discourse of natural jurisprudence to groups and individuals operating outside conventional educational and political structures such as the Huguenot diaspora has also been highlighted Moreover the contextual understanding of the work of unambiguously major philosophers such as Hobbes and Kant and its reception has been greatly enhanced by studies that have sought to view them as 3 participants in rather than bystanders alongside the discourse of natural law Thus thinkers previously not considered central to this discourse have been incorporated into it afresh However there is no danger of natural jurisprudence going unchallenged as the meta discourse of political theory in this period for recently new studies of the role of libertine and jansenist thought in shaping the priorities of the early Republic of Letters have challenged its position among the intellectual 4 achievements of the social and political theory of the early Enlightenment This volume therefore offers a timely opportunity to reassess both the coherence of the concept of early Enlightenment and the specific contribution of natural law theories to it *Le droit des gens, ou, Principes de la loi naturelle* Emer de Vattel,1916

Transformations in Medieval and Early-Modern Rights Discourse Virpi Mäkinen,Petter Korkman,2006 Rights language is a fundamental feature of the modern world Virtually all significant social and political struggles are waged and have been waged for over a century now in terms of rights claims In some ways it is precisely the birth of modern rights language that ushers in modernity in terms of moral and political thought and the struggle for a modern way of life seems for many synonymous with the fight for a universal recognition of equal individual human rights Where did modern rights language come from What kinds of rights discourses is it rooted in What is the specific nature of modern rights discourse when and where were medieval and ancient notions of rights transformed into it Can one in fact find any single such transformation of medieval into modern rights discourse The present volume brings together some of the most central scholars in the history of medieval and early modern rights discourse Through the different angles taken by its authors the volume brings to light the multifaceted nature of rights languages in the medieval and early modern world Sacred Politics, Natural Law and the Law of Nations in the 16th-17th Centuries ,2022-01-10 Often considered a secularizing force in the rise of the nation state natural law was also invoked in defence of confessional states The fourteen chapters in this volume show how religious and secularizing approaches to natural and biblical law interacted and combined as early modern states navigated the fallout from the Reformation From this new perspective the volume revisits questions of political legitimacy civic and ecclesiastical authority societal stability conceptions of the common good liberalism s value pluralism

Vattel's International Law from a XXIst Century Perspective / Le Droit International de Vattel vu du XXIe Siècle Vincent Chetail, Peter Hagggenmacher, 2011-05-23 No other scholar has so deeply influenced the development of international law or shaped the doctrinal debates as Vattel More than 250 years after its publication his Law of Nations has remained the most frequently quoted treatise of international law Vattel's International Law from a XXIst Century Perspective explores the reasons behind the extraordinary authority of Vattel and analyses its continuing relevance for thinking and understanding contemporary international law It gathers the contributions from well known experts of international law and history for the purpose of evaluating the Law of Nations from a XXIst century perspective The multiple facets of Vattel's thinking are apprehended through a wide ranging and comprehensive analysis respectively devoted to the international system the sources of international law the subjects of international law the law of peace and the law of war Les Fondements Éthiques De La Bioéthique Basile Ekanga, 2013-11-20 Les fondements éthiques de la bioéthique La bioéthique est une discipline très jeune qui n'a pas encore trouvé de bases solides Elle est née au moment où des nouveaux problèmes jusque-là inconnus sont apparus en sciences biomédicales Les préoccupations de l'éthique médicale étaient totalement tournées vers le médecin en évaluant ce qu'il devait faire et ce qu'il ne devait pas faire face à un malade La nouvelle donne est que le malade a également quelque chose à dire surtout s'il s'agit de sa maladie L'intérêt de ce livre est de montrer justement que la bioéthique a tout intérêt à se reposer sur des bases philosophiques éthiques La bioéthique ne se présente pas comme une panacée C'est une sorte de starting block pour mieux cerner les questions éthiques que nous rencontrons spécialement dans les soins de santé l'environnement et les sciences médicales Partir d'une base philosophique c'est rendre clairs des concepts fondamentaux que l'on utilise Trois concepts que l'on utilise fréquemment en bioéthique sont analysés ici la loi naturelle la justice et la conscience Mais la philosophie se préoccupe également de donner des explications sur nos croyances et sur la nature de la réalité de l'univers Il ne s'agit pas uniquement de nous comprendre nous-mêmes et de comprendre ce qui nous entoure mais il est également question de comprendre chaque personne raisonnable dans ses relations avec les autres Parmi les courants philosophiques qui sont analysés il y a le principalisme l'éthique théologique les théories déontologiques l'utilitarisme et l'éthique de la vertu The ethical Basics of Bioethics Bioethics took shape at a time medical ethics was at a crossroad and could any longer meet new problems which were till then unknown Medical ethics was chiefly concerned with problems physicians ought to do in front of their patients The new order concedes that the patient has to keep a wary eye on everything relating to his/her health This book gains its significance in showing that bioethics rests on ethical philosophical foundations Bioethics is not a cure-all It is rather a philosophical starting point of reflections that leads to investigating ethical problems in health care environment and in

medical science One of the main concerns of a philosopher is to scrutinize and clarify used basic concepts Three mostly used ethical concepts are analyzed i e natural law justice and conscience The philosopher is also concerned with beliefs of man and the nature of the world The question is not only to understand ourselves as human beings and the world around us but to understand also each rational person in his her relations to others Among the current philosophical trends discussed here are principlism theological ethics deontological ethics Kantianism utilitarianism and virtue ethics *The Roots of International Law / Les fondements du droit international*, 2013-11-29 This collection of essays gathers contributions from leading international lawyers from different countries generations and angles with the aim of highlighting the multifaceted history of international law This volume questions and analyses the origins and foundations of the international legal system A particular attention is devoted to Hugo Grotius as one of the founding fathers of the law of nations Several contributions further question the positivist tradition initiated by Vattel and endorsed by scholars of the 19th Century This immersion in the intellectual origins of international law is enriched by an inquiry into the practice of the law of nations including its main patterns and changing evolution as well as the role of non western traditions and the impact of colonization Le pr sent ouvrage r unit les contributions de juristes internationaux reconnus en vue d clarier les multiples facettes de l histoire du droit international public L ouvrage analyse et questionne les origines et les fondements de l ordre juridique international Une attention toute particuli re est d di e Hugo Grotius l un des p res fondateurs du droit international D autres contributions questionnent galemment la tradition positiviste initi e par Vattel et confort e par la doctrine du 19 me si cle Cette immersion dans les origines doctrinales du syst me juridique international est enrichie par l tude de la pratique du droit international public son volution ainsi que le r le des traditions non occidentales et l impact de la colonisation **The Cambridge History of Seventeenth-century Philosophy** Daniel Garber, Michael Ayers, 2003 *Expérience et raison* Jean-Michel Vienne, 1991 Spine title *Les fondements de la morale selon Locke* *The Disintegration of Natural Law Theory* Pauline C. Westerman, 2014-10-21 John Finnis s proposal to rehabilitate Aquinas s natural law theory as an appropriate foundation of legal and moral theory rests on the assumption that Aquinas s theory can be restored by eliminating the mistaken interpretations of subsequent natural law theorists This book challenges that assumption After a brief analysis of Aquinas the theories of Suarez Grotius and Pufendorf are investigated It is argued that their theories are no mistakes but attempts at solving problems inherent in natural law theory As these attempts all fail tensions remain and ultimately lead to the demise of the theory Finally it is argued that Finnis running into the same problems cannot hope to restore Aquinas s theoretical edifice Le Droit de la nature et des gens, ou Système général des principes les plus importants de la morale, de la jurisprudence et de la politique, traduit du latin de feu M. le baron de Pufendorf par Jean Barbeyrac, avec des notes du traducteur et une préface... 2e édition, revue et augmentée considérablement... Samuel von Pufendorf, 1712 **Samuel Pufendorf Disciple of Hobbes** Fiammetta Palladini, 2019-11-26 First published in Italian in 1990 Fiammetta Palladini s

ground breaking study of Samuel Pufendorf 1632 1694 remains one of the most important discussions of the subject to date Now available in English for the first time Palladini s book cuts through the existing field of Pufendorf studies laying bare its inherited templates and tacit assumptions Palladini is thus able to peel back the Grotian commentary in which the great thinker had been shrouded revealing a Pufendorf well known in the 1680s a formidable and dangerous natural jurist and political theorist but doubly obscured in the 1980s and still today by a philosophical history that flies too high to see him and by a commentary literature that too often does not like what it sees David Saunders lucid translation carries Palladini s argument into English with maximum fidelity Translation of Samuel Pufendorf discepolo di Hobbes Per una reinterpretazione del giusnaturalismo moderno Bologna Il Mulino 1990

The Oxford Handbook of the History of International Law Bardo Fassbender, Anne Peters, Simone Peter, Daniel Högger, 2012-11 This handbook provides an authoritative and original overview of the origins of public international law It analyses the modern history of international law from a global perspective and examines the lives of those who were most responsible for shaping it

Stoïcisme antique et droit naturel moderne Valéry Laurand, Jean Terrel, 2003 Encore une revue dira t on Et une revue papier en outre Et l on r pondra deux fois oui sans confusion ni embarras Ce que nous voulons c est une revue vivante une revue qui soit capable d entendre des voix contradictoires qui ne recherche pas la pol mique mais qui ne s effraie pas du d bat de la disputatio de la remise en cause d s lors qu elle est argument e et qu elle respecte les r gles ordinaires de la courtoisie Nous voulons une revue qui d passe les barri res disciplinaires Ce qui ne veut pas dire proposer tout moment du pluridisciplinaire mais en revanche avoir constamment le souci de l ensemble des points de vue disciplinaires repr sent s dans notre centre de recherche le CIBEL Centre interdisciplinaire bordelais d tude des Lumi res dont elle est l manation Cette revue aura comme son titre aussi l indique les Lumi res son programme Il nous a sembl que les Lumi res avaient encore de beaux jours devant elles en tant qu objet d tudes mais pas seulement et ce malgr les soup ons que l on fait peser sur elles ou les imputations et les accusations dont elles font souvent l objet Sur tout cela nous reviendrons galement Il nous a sembl donc qu il y avait encore beaucoup dire et crire sur le sujet d hier aujourd hui C est dans cet esprit et avec cette conviction que nous nous mettons l uvre

Les embarras philosophiques du droit naturel Simone Goyard-Fabre, 2002 La question du droit naturel a depuis vingt cinq siecles traverse l histoire de la philosophie du droit en Occident Cet ouvrage entend montrer que malgre sa perennite ce concept qui pourtant a resiste a tous les assauts que lui ont livres les positivismes scientifiques est greve d une lourde indecision philosophique qu il s agisse d en determiner le lieu d ancrage de preciser les rapports qu entretiennent avec lui les divers systemes du droit positif ou de suivre les metamorphoses plus ou moins pertinentes qui ont affecte la maniere de le penser le droit naturel s entoure d une problematice radicale qui fait naitre des polemiques et des malentendus Dans ce climat de conflictualite remanente son idee se profile neanmoins come une exigence transcendantale qui donne sens et valeur aux ordres du droit positif ce qui explique que si souvent decretee de mort elle connaisse une perpetuelle resurrection

La

liberté et la loi Lucien Jaume, 2000-10-04 Faut-il opposer la loi et les droits ? L'universalité de la loi possède-t-elle un sens pour la liberté démocratique ? L'heure de la montée des particularismes, des communautarismes et des différencialismes, c'est la question majeure de nos sociétés dont ce livre retrace l'émergence, l'oubli et les altérations. On assimile communément le libéralisme au triomphe de l'individu protégé par un certain nombre de droits ou bien au triomphe du marché et de la société civile. D'où les figures du Contrat du Juge et de la délibération sur la Justice popularisées par la philosophie américaine ou de langue anglaise mais au prix d'un oubli des origines du libéralisme en philosophie, c'est la souveraineté de la loi et la fonction de la loi pour la liberté humaine que les classiques ont mis au centre de leur pensée. Dans l'histoire américaine puis européenne la montée en puissance des droits de l'homme et du juge constitutionnel a galemment contribué à occulter la première philosophie du libéralisme. Tout comme a été obscurci enfin le grand partage entre libéralisme politique et libéralisme économique entre la vision rationaliste de la loi et l'anthropologie empiriste des cossais. Enseignant la philosophie et l'histoire des idées politiques Sciences Po et au Centre Raymond Aron EHESS, Lucien Jaume apporte ici le complément dans le domaine de la philosophie sa radiographie de l'esprit libéral en France publié chez Fayard en 1997. L'Individu efface ou le paradoxe du libéralisme français prix Guizot 1998 d'écrit par le Conseil général du Calvados et Prix Philippe Habert de science politique Sciences Po Le Figaro 1998.

To the Uttermost Parts of the Earth Martti Koskenniemi, 2021-08-26 To the Uttermost Parts of the Earth shows the vital role played by legal imagination in the formation of the international order during 1300-1870. It discusses how European statehood arose during early modernity as a locally specific combination of ideas about sovereign power and property rights and how those ideas expanded to structure the formation of European empires and consolidate modern international relations. By connecting the development of legal thinking with the history of political thought and by showing the gradual rise of economic analysis into predominance, the author argues that legal ideas from different European legal systems—Spanish, French, English, and German—have played a prominent role in the history of global power. This history has emerged in imaginative ways to combine public and private power, sovereignty and property. The book will appeal to readers crossing conventional limits between international law, international relations, history of political thought, jurisprudence, and legal history.

The Cambridge History of Political Thought 1450-1700 James Henderson Burns, Mark Goldie, 1991 This book first published in 1992 presents a comprehensive scholarly account of the development of European political thinking through the Renaissance and the Reformation to the scientific revolution and political upheavals of the seventeenth century. It is written by a highly distinguished team of contributors.
