challenges and opportunities It traverses through various themes from the scientific acumen of ancient India to managerial insights from the Bhagavad Gita from the rich cultural traditions that foster resilience and identity to leadership styles rooted in our epics and scriptures The World of Proverb and Parable Edwin Paxton Hood,1885 Wisdom Trevor Curnow,2015-05-15 There s no fool like an old fool the saying goes What is it about wisdom that sets it apart from mere intelligence What is that elusive difference between a simple grasp of the facts and profound understanding Wisdom has fascinated the human race for thousands of years philosophers are notorious for being in love with it and for centuries writers have tried to capture its essence in proverbs and fables In this book Trevor Curnow provides an accessible introduction to wisdom and the many ways we have thought about and tried to achieve it throughout history Drawing on examples from a diversity of eras and places from ancient Egypt to medieval Europe to modern Africa Curnow explores the ways we have sought to overcome the problems posed by our existence such as love and death with a steadfast wisdom He shows how many cultures have attributed wisdom to deities such as Apollo Odin and Sarasvati and how especially we have placed it within the vehicle of the proverb which has safeguarded its lessons throughout time and across cultures Including a collection of one hundred sayings that offer a rich record of wisdom s reification this history gives new insight into what wisdom actually is and where we might find it **Indian Books in Print** ,2003 **The Therapeutic Use of Stories** Kedar Nath Dwivedi,2006-10-19 The potential for healing available in well known myths and stories is increasingly recognized but many practitioners are unsure how to tap into this rich and often culturally specific source of insight What sort of story is best for what sort of situation How can it be introduced naturally into the session What is the best way of using the story These are some of the questions contributors to this book set out to answer They explore the historical and cultural context of story telling and provide examples of specific stories for specific situations Covering emotional themes such as anger anxiety fear shame guilt separation and bereavement the authors show how they work through stories with many different kinds of client groups and individuals of all ages in educational health and social science settings The Therapeutic Use of Stories provides a sound theoretical framework for the use of stories examples of stories with a high therapeutic value and practical advice on how to use them to best effect *Fables, Sermonettes, and Parables by the Stricker, 13th Century German Poet, in English Translation* Stricker,1999 The thirteenth century poet who used the pseudonym Der Stricker The Knitter is the earliest known composer of fables sermonettes and parables examples of Kleindichtung in the German language Some of the Stricker s fables and parables are as far as is known original with him others are new variants of works that had appeared in other lands and languages The sermonettes are typical examples of what might be called the folk theology of the day drawing on oral tradition rather than directly on the Scriptures In his verse tales the author proves to be a keen often harsh social critic providing a realistic often cynical picture of medieval society that stands in sharp contrast to the romanticism of nearly all German literature of his century This is the first collection of The Stricker s short narratives in
