The New Politics of Crime and Punishment Roger Matthews, Jock Young, 2013-01-11 This book provides an overview of recent government initiatives in the field of crime and punishment reviewing both the policies themselves the perceived problems and issues they seek to address and the broader social and political context in which this is taking place The underlying theme of the book is that a qualitative change has taken place in the politics of crime control in the UK since the early 1990s Although crime has stabilised imprisonment rates continue to climb there is a new mood of punitiveness and crime has become a central policy issue for the government no longer just a technical matter of law enforcement At the same time the politics of crime control have taken on a pronounced gender race and age preoccupation This book will be essential reading for anybody seeking an understanding of why crime and criminal justice policy have risen to the top of the political The Criminology of Criminal Law William Laufer, 2017-07-05 The Criminology of Criminal Law considers the agenda relation between criminal law and theories of crime criminality and justice This book discusses a wide range of topics including the way in which white collar crime is defined new perspectives on stranger violence the reasons why criminologists have neglected the study of genocide the idea of boundary crossing in the control of deviance the relation between punishment and social solidarity the connection between the notion of justice and modern sentencing theory the social reaction to treason and the association between politics and punitiveness Contributors include Bonnie Berry Don Gottfredson David F Greenberg Marc Riedel Jason Rourke Kip Schlegel Vered Vinitzky Seroussi Leslie T Wilkins Marvin E

Wolfgang and Richard A Wright The Criminology of Criminal Law concludes with an analysis of the results of a study on the most cited scholars in the Advances in Criminological Theory series This work will be beneficial to criminologists sociologists and scholars of legal studies Advances in Criminological Theory is the first series exclusively dedicated to the dissemination of original work on criminological theory It was created to overcome the neglect of theory construction and validation in existing criminological publications A Philosophical Exploration of the Humanities and Social Sciences Giorgio Baruchello, Ársæll Már Arnarsson, 2022-11-07 Humor has been praised by philosophers and poets as a balm to soothe the sorrows that outrageous fortune s slings and arrows cause inevitably if not incessantly to each and every one of us In mundane life having a sense of humor is seen not only as a positive trait of character but as a social prerequisite without which a person s career and mating prospects are severely diminished if not annihilated However humor is much more than this and so much else In particular humor can accompany cruelty inform it sustain it and exemplify it Therefore in this book we provide a comprehensive reasoned exploration of the vast literature on the concepts of humor and cruelty as these have been tackled in Western philosophy humanities and social sciences especially psychology Also the apparent cacophony of extant interpretations of these two concepts is explained as the inevitable and even useful result of the polysemy inherent to all common sense concepts in line with the understanding of concepts developed by M Polanyi in the 20th century Thus a thorough nuanced grasp of their complex mutual relationship is established and many platitudes affecting today s received views and scholarship are cast aside Like Aristotle and Dewey Arnarsson and Baruchello do not define their terms at the outset but instead they relentlessly pursue the meanings of two ordinary words that everyone vaguely understads to arrive at a critical insight into the concepts these words represent which are both disparate and interrelated Richard Marc Rubin President George Santayana Society Penal Populism and Public Opinion Julian V.
