Youth, Media and Culture in the Asia Pacific Region Usha M. Rodrigues, Belinda Smaill, 2009-05-05

Youth Media and Culture in the Asia Pacific Region presents an analysis of youth media activities in a diverse but geographically connected Asia Pacific region. The region, which is spatially connected by its colonial and imperial past, is becoming a significant player in the globalized world. In this context, youth situated in these economically, politically, and socially structured communities are redefining their locales through their patterns of media use. The discourse of youth in this disparate region is manifest in the media through their identity articulations and social activism. The book illustrates that these youth subcultures in the Asia Pacific are part of the well-marketed global consumerism culture and yet at other times independent of the commodifying impetus of global capital. It draws on case studies to examine some of the media practices youth in the region are engaged in and elucidates the process of social change taking place in some Asia Pacific nations. This book contributes to the important and growing field of youth media studies. The regionalization of media research is necessarily recuperated here, bringing large populations of media users into a frame of reference that allows critical reflection on the new waves of use and sociality in the Asia Pacific region.

Music in Arabia Issa Boulos, Virginia Danielson, Anne K. Rasmussen, 2021-09-07

Music in Arabia extends and challenges existing narratives of the region's distinctive but understudied music to reveal diverse and dynamic music cultures rooted in centuries-old heritage. Contributors to *Music in Arabia* bring a critical eye and ear to the contemporary soundscape, musical life, and expressive culture in the Gulf region. Including work by leading scholars and local authorities, this collection presents fresh perspectives and new research addressing why musical expression is fundamental to the area's diverse transnational communities. The volume also examines music circulation as a commodity, such as with the production of early recordings, the transnational music industry, the context of the Arab Spring, and the region's popular music markets. As a bonus, readers can access a linked website containing audiovisual examples of the music, dance, and expressive culture introduced throughout the book. With the work of resident scholars and heritage practitioners in conversation with that of researchers from the United States and Europe, *Music in Arabia* offers both context and content to clarify how music articulates identity and nation among multiethnic, multiracial, and multinational populations.
