Etiquette & Manners: Eating 1, Treating the Body in Medicine and Religion John J. Fitzgerald, Ashley John Moyses, 2019-05-09 Modern medicine has produced many wonderful technological breakthroughs that have extended the limits of the frail human body. However, much of the focus of this medical research has been on the physical, often reducing the human being to a biological machine to be examined, understood, and controlled. This book begins by asking whether the modern medical milieu has overly objectified the body unwittingly or not, and whether current studies in bioethics are up to the task of restoring a fuller understanding of the human person. In response, various authors here suggest that a more theological, religious approach would be helpful or perhaps even necessary. Presenting specific perspectives from Judaism, Christianity, and Islam, the book is divided into three parts: Understanding the Body, Respecting the Body, and The Body at the End of Life. A panel of expert contributors, including philosophers, physicians, and theologians and scholars of religion, answer key questions such as: What is the relationship between body and soul? What are our obligations toward human bodies? How should medicine respond to suffering and death? The resulting text is an interdisciplinary treatise on how medicine can best function in our societies. Offering a new way to approach the medical humanities, this book will be of keen interest to any scholars with an interest in contemporary religious perspectives on medicine and the body. **Understanding Peace Cultures** Rebecca L. Islamic Counselling G. Hussein Rassool, 2015-07-16

Islamic counselling is a form of counselling which incorporates spirituality into the therapeutic process. Until now, there has been little material available on the subject with no one agreed definition of Islamic counselling and what it involves. There has also been a rapidly growing population of Muslims in Western societies with a corresponding rise in need of psychological and counselling services. **Islamic Counselling: An Introduction to theory and practice** presents a basic understanding of Islamic counselling for counsellors and Islamic counsellors and provides an understanding of counselling approaches congruent with Islamic beliefs and practices from a faith-based perspective. The book is designed as an introduction for counsellors; its goal is to inform the reader about how the diverse roles of the Islamic counsellor fit together in a comprehensive way and to provide the guidelines that can be potentially integrated into a theoretical framework for use. The book is divided into two parts: Section one, Context and Background; and Section two, Assessment Models and Intervention Strategies. **Islamic Counselling** encompasses both current theory, research, and an awareness of the practice implications in delivering appropriate and

effective counselling interventions with Muslim clients It will be essential reading for both professionals and students alike
