Mystic, Rebel, Saint : José C. Nieto,1979 *Encounters of Body and Soul in Contemporary Religious Practices* Anna Fedele,Ruy Llera Blanes,2011-09-01 Social scientists and philosophers confronted with religious phenomena have always been challenged to find a proper way to describe the spiritual experiences of the social group they were studying The influence of the Cartesian dualism of body and mind or soul led to a distinction between non material spiritual experiences i.e related to the soul and physical mechanical experiences i.e related to the body However recent developments in medical science on the one hand and challenges to universalist conceptions of belief and spirituality

on the other have resulted in body and soul losing the reassuring solid contours they had in the past Yet in Western culture the body soul duality is alive not least in academic and media discourses This volume pursues the ongoing debates and discusses the importance of the body and how it is perceived in contemporary religious faith what happens when body and soul are un separated entities Is it possible even for anthropologists and ethnographers to escape from natural dualism The contributors here present research in novel empirical contexts the benefits and limits of the old dichotomy are discussed and new theoretical strategies proposed
