AND
AMERICAN IDEALS

HENRY HALLAM SAUNDERS

Puritan Principles American Ideals

Bryan-Paul Frost, Jeffrey Sikkenga

Puritan Principles American Ideals:

Puritan Principles and American Ideals Henry Hallam Saunderson, 1930 The Puritan Origins of American Patriotism George McKenna, 2008-10-01 In this absorbing book George McKenna ranges across the entire panorama of American history to track the development of American patriotism That patriotism shaped by Reformation Protestantism and imbued with the American Puritan belief in a providential errand has evolved over 350 years and influenced American political culture in both positive and negative ways McKenna shows The germ of the patriotism an activist theology that stressed collective rather than individual salvation began in the late 1630s in New England and traveled across the continent eventually becoming a national phenomenon Today American patriotism still reflects its origins in the seventeenth century By encouraging cohesion in a nation of diverse peoples and inspiring social reform American patriotism has sometimes been a force for good But the book also uncovers a darker side of the nation s patriotism a prejudice against the South in the nineteenth century for example and a tendency toward nativism and anti Catholicism Ironically a great reversal has occurred and today the most fervent believers in the Puritan narrative are the former outsiders Catholics and Southerners McKenna offers an interesting new perspective on patriotism s role throughout American history and he concludes with trenchant thoughts on its role in the post 9 11 era **Economic Injustice and the Rhetoric of the American Dream** Luke

Winslow, 2017-07-24 Our economic arrangements require a persuasive story that can explain who is rich who is poor and why This story shapes our attitudes toward what is just and unjust this story dispenses power to some and withholds it from others and the deeply political and paradoxical nature of this story presents a valuable site of rhetorical inquiry Economic Injustice and the Rhetoric of the American Dream fills an important scholarly gap by connecting the need to make sense of economic arrangements with the rhetoric of the American Dream Luke Winslow examines how the rhetoric of the American Dream has emerged as a dominant cultural touchstone in oscillation with a widespread shift to individualistic explanations for economic arrangements the arrival of neoliberalism growing levels of inequality and dismal rates of economic mobility By developing the tools of rhetorical and ideological criticism this book explores the American Dream in relation to religious economic educational and political institutions ranging from Prosperity Theology to the candidacy and election of Donald Trump Recommended for scholars in Communication Economics Political Science and Religious Studies **Puritans in the**

Balkans, the American Board Mission in Bulgaria, 1878-1918 William Webster Hall, 1938 Literary Inquiries: A Holistic Approach to Research Pasquale De Marco, 2025-08-15 Literary Inquiries A Holistic Approach to Research offers a comprehensive guide to literary research and analysis empowering students and scholars to navigate the literary landscape with confidence This essential resource provides a step by step approach to understanding the nuances of literary texts from close reading and character analysis to the exploration of literary theory and criticism Drawing upon a wealth of examples from classical and contemporary works this guide equips readers with the tools and techniques necessary to engage with

Leaders, Dreamers and Rebels - An Account of the Great Mass-Movements of History and of the Wish-Dreams That Inspired Them Rene Fulop-Miller,2013-05-31 Historical happenings are rooted in dreams no less than in the material and the ideal and it is through dreams alone that both bodily need and philosophical cognition acquire that magical power which enables them to lay a spell upon millions and to transform the aspect of the world This is the proposition that this book explores providing a comprehensive and informative look at the subject This fascinating book here in its complete and unabridged form makes a worthy addition to the bookshelf of all those interested in this craft Many of the earliest books particularly those dating back to the 1900s and before are now extremely scarce and increasingly expensive We are republishing these classic works in affordable high quality modern editions using the original text and artwork

[History of American Political Thought](#) Bryan-Paul Frost,Jeffrey Sikkenga,2003-01-01 Revised and updated this long awaited second edition provides a comprehensive introduction to what the most thoughtful Americans have said about the American experience from the colonial period to the present The book examines the political thought of the most important American statesmen activists and writers across era and ideologies helping another generation of students scholars and citizens to understand more fully the meaning of America This new second edition of the book includes new essays on Walt Whitman Lyndon Baines Johnson Ronald Reagan and Barack Obama Significant revisions and additions have also been made to many of the original essays increasing the breadth and depth of the collection

Bruce Springsteen, Cultural Studies, and the Runaway American Dream Jerry Zolten,2016-05-23 There is little question about the incredible power of Bruce Springsteen s work as a particularly transformative art as a lyrical and musical fusion that never shies away from sifting through the rubble of human conflict As Rolling Stone magazine s Parke Puterbaugh observes Springsteen is a peerless

songwriter and consummate artist whose every painstakingly crafted album serves as an impassioned and literate pulse taking of a generation's fortunes. He is the foremost live performer in the history of rock and roll, a self-described prisoner of the music he loves for whom every show is played as if it might be his last. In recent decades, Puterbaugh adds, Springsteen's music developed a conscience that didn't ignore the darkening of the runaway American Dream as the country greedily blundered its way through the 1980s and into the sociocultural detritus of a new century paralysed by isolation and uncertainty. Bruce Springsteen: Cultural Studies and the Runaway American Dream reflects the significant critical interest in understanding Springsteen's resounding impact upon the ways in which we think and feel about politics, religion, gender, and the pursuit of the American Dream. By assembling a host of essays that engage in interdisciplinary commentary regarding one of Western culture's most enduring artistic and socially radicalizing phenomena, this book offers a cohesive intellectual and often entertaining introduction to the many ways in which Springsteen continues to impact our lives by challenging our minds through his lyrics and music. **Federal Council Bulletin**, 1929 **American Ideal** Paul M. Rego, 2008-01-01 This book takes Theodore Roosevelt seriously as a man of ideas, a thinker who was deeply committed to addressing the problems of his generation. It also is a study of TR as a leader, one who used rhetoric and example to convince his fellow citizens that it was possible to reconcile the American tradition of individualism with a Progressive inspired concern for the social good.

Who's Who in American History K. M. Kostyal, John M. Thompson, William R. Gray, 2017 This beautiful family reference from National Geographic tells the story of America through its presidents, revolutionaries, visionaries, inventors, entertainers, and even its most notorious villains. Far more than an encyclopedia, this treasury tells the rich stories of the people who made America's history and adds context with lush photographs, illustrations, timelines, artifacts, and more. Beginning with pre-colonial America and continuing through today, this beautifully illustrated book details the fascinating lives of the men and women who helped build the story of our nation. Arranged chronologically, it features more than 400 entries illustrated with lavish four-color photography and elegant illustrations. Intriguing stories and historical maps provide additional context in this comprehensive and enlightening look at America's storied past. Ned Nevins, the News Boy; Or, Street Life in Boston Henry Morgan, 1869 *American Crusades* Jon DePriest, 2018-11-15 *American Crusades* details evangelical pursuits to unite God's purposes with American empires. It argues that religious motivations contributed heavily to United States governmental policies and built sacred spaces in many attempts to influence American society. These embedded ambitions form the core of Americanism yet somehow remain hidden right in front of our eyes. In the action of caretaking, they advanced their understanding of God's demand on their lives and purposes. Evangelical and theologically conservative Americans linked the sacred and secular, shaping the ethos of the American people. The terminology of religious thinking quickly sacralized concepts like democracy and capitalism in an attempt to control and use them. Once packaged as a sacred space in need of custody, religious leadership sought to fulfill its kingdom responsibility and secure its future. Eventually, a combination

of religiously defined secular components coalesced into the term known simply as Americanism Building on the success of the new nation and supporting the causes of Americanism throughout the world has imprinted a uniquely evangelical construct into the domestic and foreign policy structures of the United States The shifting landscape of American culture drove evangelicalism into the margins in the 1970s while most scholars think that the decline of religious conservatism in culture meant that secularization controlled foreign policy as well this is not true Removed from the whims of domestic politics Protestant evangelical patterns of action have resisted change in American foreign policy structures Over time however the movement lost its faith distinctives while embedding religious principles in foundations of U S foreign policy This book seeks to produce a reorganized narrative through a critical synthesis to locate white evangelicals quest to be the foundational voice in America s shaping ideological lineage

Reconsidering American Liberalism James Young, 2018-02-06

Forty years ago Louis Hartz surveyed American political thought in his classic *The Liberal Tradition in America* He concluded that American politics was based on a broad liberal consensus made possible by a unique American historical experience a thesis that seemed to minimize the role of political conflict Today with conflict on the rise and with much of liberalism in disarray James P Young revisits these questions to reevaluate Hartz s interpretation of American politics Young s treatment of key movements in our history especially Puritanism and republicanism s early contribution to the Revolution and the Constitution demonstrates in the spirit of Dewey and others that the liberal tradition is richer and more complex than Hartz and most contemporary theorists have allowed The breadth of Young s account is unrivaled *Reconsidering American Liberalism* gives voice not just to Locke Jefferson Hamilton Madison Lincoln and Dewey but also to Rawls Shklar Kateb Wolin and Walzer In addition to broad discussions of all the major figures in over 300 years of political thought with Lincoln looming particularly large Young touches upon modern feminism and conservatism multiculturalism postmodernism rights based liberalism and social democracy Out of these contemporary materials Young synthesizes a new position a smarter and tougher liberalism not just forged from historical materials but reshaped in the rough and tumble of contemporary thought and politics This exceptionally timely study is both a powerful survey of the whole of U S political thought and a trenchant critique of contemporary political debates At a time of acrimony and confusion in our national politics Young enables us to see that salvaging a viable future depends upon our understanding how we have reached this point Never without his own opinions Young is scrupulously fair to the widest range of thinkers and marvelously clear in getting to the heart of their ideas Although his book is a substantial contribution to political theory and the history of ideas it is always accessible and lively enough for the informed general reader It is essential reading for anyone who cares about the future of U S political thought or indeed about the future of the country itself

American Credo Michael Foley, 2007-09-13

If America has a claim to exceptionalism *American Credo* locates it in a little understood ability to engage in deep conflicts over political ideas while at the same time reducing adversarial positions to legitimate derivatives of American history and development

Religion,

the Enlightenment, and the New Global Order John M. Owen IV, J. Judd Owen, 2011-01-17 Largely due to the cultural and political shift of the Enlightenment Western societies in the eighteenth century emerged from sectarian conflict and embraced a more religiously moderate path In nine original essays leading scholars ask whether exporting the Enlightenment solution is possible or even desirable today Contributors begin by revisiting the Enlightenment's restructuring of the West examining its ongoing encounters with Protestant and Catholic Christianity Judaism Islam and Hinduism While acknowledging the necessity of the Enlightenment emphasis on toleration and peaceful religious coexistence these scholars nevertheless have grave misgivings about the Enlightenment's spiritually thin secularism The authors ultimately upend both the claim that the West's experience offers a ready made template for the world to follow and the belief that the West's achievements are to be ignored despised or discarded

The American Dream Jim Cullen, 2004 Cullen particularly focuses on the founding fathers and the Declaration of Independence the charter of the American Dream Abraham Lincoln with his rise from log cabin to White House and his dream for a unified nation and Martin Luther King Jr's dream of racial equality Our contemporary version of the American Dream seems rather debased in Cullen's eyes built on the cult of Hollywood and its outlandish dreams of overnight fame and fortune

Liberal Modernity and Its Adversaries Milan Zafirovski, 2007-06-30 This is a book about modern liberal society and its adversaries The book rediscovers and rehabilitates much maligned especially in America liberalism as the ideal system of liberty in relation to anti liberalism as one of unfreedom It rediscovers liberal modernity as a free equal and just social system and time thus most compatible with and enhancing of human civilization ushering in the 21st century It exposes anti liberal adversaries especially conservatism as ideologies and systems most inappropriate with and destructive of civilization The book rediscovers liberal modernity as the master process and destination of Western civilization and its anti liberal adversaries notably conservatism as the ghosts of a dead past The anti liberal rumors of the death of liberalism are greatly exaggerated

China Dreams William Callahan, 2013-06-06 To understand how China is shaping the twenty first century China Dreams eavesdrops on conversations between officials scholars bloggers novelists film makers and artists Rather than pitting Confucian China against the democratic west Callahan weaves Chinese and American ideals together to describe a new Chimerican dream
