Purity And Exile:

Purity and Exile Liisa H. Malkki, 2012-12-14 In this study of Hutu refugees from Burundi driven into exile in Tanzania after their 1972 insurrection against the dominant Tutsi was brutally quashed Liisa Malkki shows how experiences of dispossession and violence are remembered and turned into narratives and how this process helps to construct identities such as Hutu and Tutsi Through extensive fieldwork in two refugee communities Malkki finds that the refugees current circumstances significantly influence these constructions Those living in organized camps created an elaborate mythic history of the Hutu people which gave significance to exile and envisioned a collective return to the homeland of Burundi Other refugees who had assimilated in a more urban setting crafted identities in response to the practical circumstances of their day to day lives Malkki reveals how such things as national identity historical consciousness and the social imagination of enemies get constructed in the process of everyday life The book closes with an epilogue looking at the recent violence between Hutu and Tutsi in Rwanda and Burundi and showing how the movement of large refugee populations across national borders has shaped patterns of violence in the region

The formation of Croatian national identity Alex Bellamy, 2013-07-19 This electronic version has been made available under a Creative Commons BY NC ND open access license This book assesses the formation of Croatian national identity in the 1990s It develops a novel framework calling into question both primordial and modernist approaches to nationalism and national identity before applying that framework to Croatia In doing so the book provides a new way of thinking about how national identity is formed and why it is so important An explanation is given of how Croatian national identity was formed in the abstract via a historical narrative that traces centuries of yearning for a national state The book shows how the government opposition parties dissident intellectuals and diaspora groups offered alternative accounts of this narrative in order to legitimise contemporary political programmes based on different versions of national identity It then looks at how these debates were manifested in social activities as diverse as football religion economics and language This book attempts to make an important contribution to both the way we study nationalism and national identity and our understanding of post Yugoslav politics and society

Struggles for Home Stef Jansen, Staffan Löfving, 2009 Based on anthropological studies across the globe this book explores the experiences and contested meanings of home for people whose lives are characterized by migration related to varying forms of violence Taking seriously the political implications and exploitation of discourses of home in the transnational processes that connect yet differently affect the movement of people and capital it challenges the sedentarist assumption that territoriality and nation are necessarily the primary determinants of identification However it does not replace this sedentarism with a free floating placeless approach Instead through the detailed ethnography of actual experiences of displacement and emplacement it investigates the power sedentarist discourses may have to provide or prohibit hope In *Struggles for Home* the focus is turned onto hope aspiration and a sense of worth as necessary building blocks in the reconstruction of the social

amidst the violence of political and economic transformation Research conducted in Sri Lanka Bosnia Herzegovina Zambia Cyprus the Palestinian West Bank Guatemala and amongst Romanians and Moroccans in Spain articulates a novel theoretical framework for the development of a critical political anthropology of one of the most controversial and fascinating issues of our time the remaking of home in migration Jacket

Baron, 2009-10-22 The displacement of population during and after the Second World War took place on a global scale and formed part of a longer historical process of violence territorial reconfiguration and state development This book focuses on the profound political social and economic upheavals in the Soviet Union and Eastern Europe at this time

The Elusive Prophet Johannes de Moor, 2021-10-01 The Israelite prophets as historical persons as literary characters and as anonymous artists Whereas modern methods of literary analysis have brought the artistic qualities of the books of the Prophets increasingly into focus during the past century various modes of deconstruction have made the historical prophets themselves an ever more elusive phenomenon Passages in the Old Testament describing their work and experiences are not read as biography anymore but as literary fiction intended to picture the prophets as heroes of faith The real prophets were the anonymous artists who were responsible for the final editing of the legacy of the historical prophets and who often used the authority of their predecessors to promulgate their own theological views This volume brings together studies about this theme by members of the British and Dutch societies for Old Testament study Attempts to recover some of the biographical data and authentic experiences of the prophets alternate with penetrating analyses of the theological depth and stylistic virtuosity of the prophetic books The volume will be particularly useful to all those interested in the interpretation of the prophetic books of the Old Testament

Israel and Judah Redefined C. L. Crouch, 2021-08-12 In *Israel and Judah Redefined* C L Crouch uses trauma studies postcolonial theory and social scientific research on migration to analyse the impact of mass displacements and imperial power on Israelite and Judahite identity in the sixth century BCE Crouch argues that the trauma of deportation affected Israelite identity differently depending on resettlement context Deportees resettled in rural Babylonia took an

isolationist approach to Israelite identity whereas deportees resettled in urban contexts took a more integrationist approach Crouch also emphasises the impact of mass displacement on identity concerns in the homeland demonstrating that displacement and the experience of Babylonian imperial rule together facilitated major developments in Judahite identity The diverse experiences of this period produced bitter conflict between Israelites and Judahites as well as diverse attempts to resolve this conflict Inspired by studies of forced migration and by postcolonial analyses of imperial domination Crouch's book highlights the crucial contribution of this era to the story of Israel and Judah **Purity and Exile** Liisa Helena

Ezekiel's Message of Hope and Restoration Hei Yin Yip,2021-04-19 The first twenty four chapters of the book of Ezekiel are characterised by vehement declarations of judgement This observation leaves the impression that Ezekiel 1 7 is devoid of references to hope and restoration However there is a redactional stratum in this section that supplemented the texts with material that conveys restoration and hope for the future In Ezekiel 1 7 many of these additions focus on priestly topics The motif of restoration in the redactional material of Ezekiel 3 5 is expressed by the reinstatement of Ezekiel in his priestly role This editorial emphasis on Ezekiel as priest in the redactional material suggests that the redaction was influenced by Zechariah 3 a text that depicts the reinstitution of the exiled Zadokite priesthood Moreover the redactional material of Ezekiel 6 7 drew inspiration from the Law of the Temple in Ezekiel 43 46 as the redactors sought to enhance Ezekiel's priestly role The study provides new insights into how redactors who may have been associated with the Zadokite priesthood inserted the message of hope and restoration into the literary unit Ezekiel 1 7 during the post exilic period **Tibetan Subjectivities on the Global Stage** Shelly Bhoil,Enrique Galvan-Alvarez,2018-11-08

Tibetan Subjectivities on the Global Stage Negotiating Dispossession explores the many ways Tibetans are reimagining their cultural identity since the communist takeover of Tibet in the 1950s Focusing on developments taking place in Tibet and the diaspora this collection of essays addresses a wide range of issues at the heart of Tibetan modernity From the political dynamics of the exiled community in India to the production of contemporary Tibetan literature in the PRC the collection delves into various aspects of current significance for the Tibetan community worldwide such as the construction of Bon identity in exile the strategic use of the discourse of development or the issue of cultural and linguistic purity in an increasingly hybrid and globalized world Moving away from the preservationist paradigm that regards Tibetan culture as an endangered and precious object the essays in this book portray Tibetan identities in motion as lived subjectivities that travel change and creatively reimagine themselves on various global stages Even if recent Tibetan history is marked by imposed

transitions and a sense of dispossession this collection highlights the ways Tibetans have not only managed traumatic historical events but also become agents of change and reinventors of their own traditions

Ethnicity and the Mixed Marriage Crisis in Ezra 9-10 Katherine E. Southwood, 2012-03-01 This book aims to bring a new way of understanding Ezra 9-10 which has become known as an intermarriage crisis to the table A number of issues such as ethnicity religious identity purity land kinship and migration orbit around the central problem of intermarriage These issues are explored in terms of their modern treatment within anthropology and this information is used to generate a more informed sophisticated understanding

of the chapters within Ezra itself The intermarriage crisis in Ezra is pivotal for our understanding of the postexilic community As the evidence from anthropology suggests the social consciousness of ethnic identity and resistance to the idea of intermarriage which emerges from the text point to a deeper set of problems and concerns most significantly relating to the complexities of return migration In this study Katherine E Southwood argues that the sense of identity which Ezra 9 10 presents is best understood by placing it within the larger context of a return migration community who seek to establish exilic boundaries when previous familiar structures of existence have been rendered obsolete by decades of existence outside the land The complex view of ethnicity presented through the text may therefore reflect the ongoing ideology of a returning separatist group The textualization of this group s tenets for Israelite identity and for scriptural exegesis facilitated its perpetuation by preserving a charged nexus of ideas around which the ethnic and religious identities of later communities could orbit The multifaceted effects of return migration may have given rise to an increased focus on ethnicity through ethnicity being realized in exile but only really being crystallized in the homeland

Errans Christoph F. E. Holzhey, Arnd Wedemeyer, 2022-09-20 Today s critical discourses and theorizing vanguards agree on the importance of getting lost of failure of erring as do life coaches and business gurus The taste for a departure from progress and other teleologies the fascination with disorder unfocused modes of attention or improvisational performances cut across wide swaths of scholarly and activist discourses practices in the arts but also in business warfare and politics Yet often the laudible failures are only those that are redeemed by subsequent successes What could it mean to think errancy beyond such restrictions And what would a radical critique of productivity success and fixed determination look like that doesn t collapse into the infamous I would prefer not to This volume looks for an answer in the complicated word field branching and stretching from the Latin *err* re Its contributions explore the implications of embracing error randomness failure non teleological temporalities across different disciplines discourses and practices with critical attention to the ambivalences such an impossible embrace generates

Sedaqa and Torah in Postexilic Discourse Susanne Gillmayr-Bucher, Maria Häusl, 2017-07-13 The chapters in this volume clarify crucial aspects of Torah by exploring its relationship to *sedaqa* righteousness Observing the Torah is often considered to be the main identity marker of Israel in the post exilic period However *sedaqa* is also widely used as a force of group cohesion and as a resource for ethics without references to torah The contributors to this volume explore these crucial themes for the post exilic period and show how they are related in the key texts that feature them Though torah and *sedaqa* can have some aspects in common especially when they are amended by aspects of creation both terms are rarely linked to each other explicitly in the Old Testament and if so different relations are expressed These are examined in this book The opening of the book of Isaiah is shown to integrate torah learning into a life of righteousness *sedaqa* In Deuteronomy *sedaqa* is shown to refer to torah dictacticism and in the books of Ezra and Nehemiah torah can be understood as symbol of *sedaqa* meaning the disposition of

each individual to accept torah as prescriptive law However the chapters also show that these relationships are not exclusive and that sedaqa is not always linked to torah for in late texts of Isaiah sedaqa is not realized by torah observance but by observing the Sabbath
