Language Ideologies Bambi B. Schieffelin, Kathryn A. Woolard, Paul V. Kroskrity, 1998-05-28 Language ideologies are cultural representations whether explicit or implicit of the intersection of language and human beings in a social world Mediating between social structures and forms of talk such ideologies are not only about language Rather they link language to identity power aesthetics morality and epistemology Through such linkages language ideologies underpin not only linguistic form and use but also significant social institutions and fundamental notions of person and community The essays

in this new volume examine definitions and conceptions of language in a wide range of societies around the world Contributors focus on how such defining activity organizes language use as well as institutions such as religious ritual gender relations the nation state schooling and law Beginning with an introductory survey of language ideology as a field of inquiry the volume is organized in three parts Part I Scope and Force of Dominant Conceptions of Language focuses on the propensity of cultural models of language developed in one social domain to affect linguistic and social behavior across domains Part II Language Ideology in Institutions of Power continues the examination of the force of specific language beliefs but narrows the scope to the central role that language ideologies play in the functioning of particular institutions of power such as schooling the law or mass media Part III Multiplicity and Contention among Ideologies emphasizes the existence of variability contradiction and struggles among ideologies within any given society This will be the first collection of work to appear in this rapidly growing field which bridges linguistic and social theory It will greatly interest linguistic anthropologists social and cultural anthropologists sociolinguists historians cultural studies communications and folklore scholars

The Mexican Corrido María Herrera-Sobek, 1990 well written and well documented landmark study Choice This book raises important ideological and esthetic questions about the interpretation of artistic and cultural manifestations in a given society Hispanic American Historical Review The present volume is provocative in direction and a refreshing addition to the extant literature on the Mexican corrido genre American Ethnologist Herrera Sobek's refreshing approach to analyzing masculine attitudes toward the feminine as expressed in the Mexican corrido is not

only insightful but courageous Inez Cardozo Freeman Southern Folklore well researched insightful clearly written and well illustrated study of a genre familiar in Hispanic culture Journal of the American Studies Association provides tantalizing insights into the inner workings and meanings of Mexico's favorite folk ballads Journal of Third World Studies Challenging the stereotypical view of the passive Mexican Chicana woman of the archetype the author examines the portrayal of female figures in over three thousand corridos or Mexican ballads and shows that in spite of long dominant patriarchal ideology the corridos reveal the presence of self-confident women throughout Mexican history Included are a discography a detailed bibliography of corrido collections and several photographs of soldaderas from the internationally famous Augustin Casasola collection

Reinventing Critical Pedagogy Cesar Augusto Rossatto, Ricky Lee Allen, Marc Pruyn, 2006-10-24 Reinventing Critical Pedagogy offers a fresh perspective from which to read discuss and debate recent critical interpretations of schooling and our world at present The authors build upon past accomplishments of critical pedagogy and critique those elements that contradict the radically democratic orientation of the field Ultimately they argue that critical pedagogy needs to welcome a wider representational and ideological base for the oppressed and that it should do so in a way that makes the field more vital in the preparation for the revolutionary struggles ahead Reinventing Critical Pedagogy takes a step in that direction because it not only takes to task external forces such as capitalism patriarchy and white supremacy but also engages the manifestations of these external forces within critical pedagogy itself
