in order to draw southern African environmental history into a wider global dialogue on socio environmental historiographical issues The focus is also on the symbolic dimension that led horses to be both feared and desired Even the sensory dimensions of this species interaction with human societies is explored Finally the book speculates about what a new kind of history that takes animals seriously might offer us      **The Science of Equestrian Sports** Inga

Wolframm,2013-07-24 The Science of Equestrian Sports is a comprehensive study of the theory and practice of the rider in equine sport While most scholarship to date has focused on the horse in competition this is the first book to collate current data relating specifically to riders It provides valuable insight into improving sporting performance and maintaining the safety of both the horse and the rider Drawing on the latest scientific research and covering a wide range of equestrian disciplines from horseracing to eventing the book systematically explores core subjects such as physiology of the rider sport psychology in equestrian sport preventing injury biomechanics and kinematics coaching equestrian sport the nature of horse rider relationships This holistic and scientific examination of the role of the horse rider is essential reading for sport science students with an interest in equestrian sport and equitation Furthermore it will be an invaluable resource for instructors coaches sport psychologists or physiologists working with equestrian athletes      *Everyday Trail Riding* Eliza R. L.

McGraw,2006 With proper training any horse can become a great riding companion out on the trail It s a matter of learning how to adapt your experience to your particular horse Fully illustrated lessons in trail riding start with the differences in working with a retired jumper an actively competing reiner or even a natural born trail horse The section on riding techniques helps you use what you already know from hunter jumper dressage or other experiences Both solitary and group riding get special attention as does handling different types of parks and paths The full range of possible spooking challenges covers encountering animals heavy traffic weather and children as well as tripping hoof injuries mounting and dismounting in unusual situations and other emergencies      **Library of Congress Subject Headings** Library of Congress,2006
