Journals and Debating Speeches John

Stuart Mill, 1988-12-01 One of the constant fascinations Mill holds for the general public as well as scholars derives from the early flowering of his genius This development is seen in detail in the journal and notebook he kept in France during his fifteenth year and in the debating speeches and walking tour journals dating from his eighteenth to twenty fourth years This was the period when he first adopted Benthamism as a religion worked intensively as a propagandist for the faith and then began the painful reassessment that led to his independent mature thought and action Some of the results of that reassessment are seen in the diary entries from 1854 written for his wife which reveal in personal form many of their most passionately held ideas These materials have never before been gathered and almost all appear here for the first time in scholarly form They throw light on contemporary social interests and behavior and will encourage new assessments of Mill's life and thought The texts the great majority drawn from manuscripts are presented in critical form collated with explanatory and textual notes The Introduction gives the personal and historical context with an analysis of content and rhetoric the Textual Introduction supplies information about the nature and history of the documents while Appendices provide ancillary materials Both bibliographic and analytic indexes are included *Stakeholder Strategies for Reducing the Impact of Global Health Crises* Kumar, Vikas, Malhotra, Geetika, 2021-06-11 A global health crisis creates great uncertainty high stress and anxiety within society During such a crisis when information is unavailable or inconsistent and when people feel unsure of what they know or what anyone knows behavioral science indicates an increased human desire for transparency direction and meaning of what has happened At such a time the roles of stakeholders that emerge with their words and actions can help keep people safe help them cope with emotions and ultimately bring their experience into context leading to meaningful results But as this crisis shifts beyond public health and workplace safety there are implications for business continuity job loss and radically different ways of working While some may already seek meaning from the crisis and move towards the next normal others feel a growing uncertainty and are worried about the future Therefore it is important to analyze the role of stakeholders during these uncertain times *Stakeholder Strategies for Reducing the Impact of Global Health Crises* provides a comprehensive resource on stakeholder action and strategies to deal with crises by analyzing the needs of society during global health crises how stakeholders should communicate and how resilience and peace can be promoted in times of chaos The chapters cover the roles of stakeholders during a pandemic spanning from the government and international development agencies to industry and non government organizations community based organizations and more This book not only highlights the responsibilities of each of the stakeholders but also showcases the best practices seen during the COVID 19 pandemic through existing theories and case studies This book is intended for researchers in the fields of sociology political science public administration mass media and communication crisis and disaster management and more along with government officials policymakers medical agencies executives managers medical professionals practitioners stakeholders academicians and students interested in the role of stakeholders during global health crises *The Englishwoman's Year*
