Rift Between America And Old Europe The Distracted Eagle

James H. Lebovic

Rift Between America And Old Europe The Distracted Eagle:

The Rift Between America and Old Europe Peter H. Merkl, 2005 This new book explains the recent rift between America and some of her oldest European allies especially with Germany and France Particular attention is devoted to the several competing interpretations of the Euro American rift for example that Europeans were taken aback when American neo conservative leaders scornfully rejected their well meant offers of post 9 11 assistance with expressions of disdain for the allies backward military technology and budgets The Bush administration s rejection of the Kyoto Treaty its environmental stance and its position on international treaties are also examined in detail Merkl s interpretation emphasizes America s neo imperial unilateralist posture and policies as contrasted to the Wilsonian internationalism that created the United Nations and established international rule of law backed up by the Security Council a web of international treaties and international courts including the International Court of Criminal Justice Today s American leaders thus oppose European champions of an American initiated international order while identifying themselves with the imperialist European doctrines and practices of another age

Intra-State Conflict, Governments and Security Stephen M. Saideman, Marie-Joelle J. Zahar, 2008-05-29 This volume seeks to understand the central role of governments in intra state conflicts The book explores how the government in any society plays two pivotal roles as a deterrent against those who would use violence and as a potential danger to the society These roles come into conflict with each other as those governments that can best deter Territory, War, and Peace John A. Vasquez, Marie T. Henahan, 2023-04-14 This book presents a collection of new and updated essays on what has come to be known as the territorial explanation of war The book argues that a key both to peace and to war lies in understanding the role territory plays as a source of conflict and inter group violence Of all the issues that spark conflict territorial disputes have the highest probability of escalating to war War however is hardly inevitable much depends on how territorial issues are handled More importantly settling territorial disputes and establishing mutually recognized boundaries can produce long periods of peace between neighbors even if other salient issues arise While territory is not the only cause of war and wars arise from other issues territory is one of the main causes of war and learning how to manage it can in principle eliminate an entire class of wars This book will be of great interest to all students of war and conflict studies causes of war and peace international security and strategic studies John A Vasquez is Thomas B Mackie Scholar in International Relations at the University of Illinois Urbana Champaign He is author of *The Steps to War* 2008 with Paul Senese and *The War Puzzle Revisited* 2009 He has been president of the Peace Science Society International and the International Studies Association Marie T Henahan is Director of Internships and Lecturer Department of Political Science at the University of Illinois Urbana Champaign She is author of *Foreign Policy and Congress An International Relations Perspective* and co editor of *The Scientific Study of Peace and War* Afghanistan, Arms and Conflict Michael Vinay Bhatia, Mark Sedra, 2008-05-05 This is the first book to provide a comprehensive assessment of small arms and security related issues in post 9 11

Afghanistan It includes case studies which reveal the findings of in depth field research on hitherto neglected regions of the country and provides a distinctive balance of thematic analysis conceptual models and empirical research Exploring various facets of armed violence and measures to tackle it the volume provides significant insight into broader issues such as the efficacy of international assistance the shadow economy warlordism and the Taliban led insurgency In an effort to deconstruct and demystify Afghanistan s alleged gun culture it also explores some of the prevailing obstacles and opportunities facing the country in its transition period In so doing the book offers valuable lessons to the state builders of Afghanistan as well as those of other countries and regions struggling to emerge from periods of transition This book will be of much interest to all students of Afghanistan small arms insurgency Asian Studies and conflict studies in general

Conflict Prevention and Peace-building in Post-War Societies T. David Mason, James D. Meernik, 2006-05-02 This volume provides an overview of the costs benefits consequences and prospects for rebuilding nations emerging from violent conflict The rationale for this comes from the growing realization that in the post Cold War era and in the aftermath of 9 11 our understanding of conflict and conflict resolution has to include consideration of the conditions conducive to sustaining the peace in nations torn by civil war or interstate conflict The chapters analyze the prospects for building a sustainable peace from a number of different perspectives examining the role of economic development democratization respect for human rights the potential for renewal of conflict the United Nations and other critical topics In an age when nation building is once again on the international agenda and scholars as well as policy makers realize both the tremendous costs and benefits in fostering developed democratic peaceful and secure nations the time has truly come for a book that integrates all the facets of this important subject Conflict Prevention and Peace building in Post War Societies will appeal to students and scholars of peace studies international relations security studies and conflict resolution as well as policy makers and analysts

Governance in Post-Conflict Societies Derick W. Brinkerhoff, 2007-01-24 This volume explores questions of rebuilding governance in post conflict societies from an interdisciplinary perspective focusing on three interconnected gaps that arise in fragile states deficits in legitimacy effectiveness and security

Missile Defence Sten Rynning, Bertel Heurlin, 2005-11-17 The missile defence policy of the US plays a crucial role in international affairs and is normally studied from a US perspective This book is different it delivers a sharp analysis of regional and national variations and integrates them with US viewpoints to present a rounded and comprehensive study What will be the international ramifications of American plans to deploy a comprehensive national missile defence policy This is a key question for all those wishing to build a sense of the global future and is here answered with clarity and rigour by expert contributors This new study breaks the mould of traditional assessments that focus exclusively on the US world picture and are inevitably one dimensional Here we see that US action automatically entails reactions as this text advances a more balanced approach By integrating a focus on US policy with a strong analysis of regional dynamics it demonstrates that the global ramifications of US policy are indeed contingent upon

distinct regional and national variations These differences in turn have consequences both for the challenges the US faces in relation to missile defence and for the future of world politics This is an innovative and groundbreaking study that contains lessons for those wishing to safeguard the future by becoming alert to its challenges and complexities **European Security in the Twenty-First Century** Adrian Hyde-Price, 2007-02-12 Combining a sophisticated theoretical analysis with detailed empirical case studies this book provides an original view of the challenges and threats to a stable peace order in Europe The end of Cold War bipolarity has transformed Europe Using structural realist theory Adrian Hyde Price analyzes the new security agenda confronting Europe in the twenty first century Europe he argues is not primed for peace as mainstream thinking suggests rather it faces new security threats and the challenge of multipolarity This critical and original volume looks at European security after the Iraq War the failure of the EU constitution and the change of government in Germany Reflecting on the inherently competitive and tragic nature of international politics it concludes that realism provides the only firm foundations for an ethical foreign and security policy **European Security in the Twenty First Century** will appeal to students and scholars of international relations European politics and security studies European Union and Strategy Kjell Engelbrekt, Jan Hallenberg, 2010-09-13 This edited volume looks into the nature of the European Union as a strategic actor setting out to explore the paradox that the EU produces policies with strategic qualities but lacks the institutions and concepts to engage in strategic reasoning and action proper Understanding Emerging Security Challenges Ashok Swain, 2013 This book offers an overview of emerging security challenges in the global environment in the post Cold War era After the fall of the Berlin Wall and the subsequent shifting of international political environment a new broader concept of security began to gain acceptance This concept encompassed socio economic environmental challenges such as resource scarcity and climate change water sharing issues deforestation and forest protection measures food and health security and large population migration The book examines the causes and consequences of these emerging security threats and retains a critical focus on evolving approaches to address these issues The author attempts to develop a framework for sustainable security in a rapidly changing global political landscape which seeks to bring states and societies together in a way that addresses weaknesses of the evolving international system Moreover through a detailed analysis of the emerging security issues and their pathways the book further argues that the evolving processes not only pose critical challenges but also provide remarkable opportunity for cooperation and collaboration among and within various stakeholders This book will be of much interest to students of global security war and conflict studies peace studies and IR in general

The United States and Europe John Baylis, Jon Roper, 2007-01-24 A penetrating new examination of the triangular political and cultural relationship between America Britain and continental Europe This relationship is both fraught and dynamic Post war reconstruction of Europe brought integration Creating a United States of Europe was a goal shared by many Americans Yet the contemporary War on Terror has redefined relationships between America Britain old and new

Europe For Britain the Channel seems wider than the Atlantic although geopolitically it is part of Europe This book brings together experts from Britain Europe and America to explore the complexities of contemporary cultural and political relationships considering the challenges that have been met and those that have to be faced *War as Risk Management* Yee-Kuang Heng,2006-04-18 This book is about the reconfiguration of war as risk management in the post Cold War post September 11 era Confronted with ill defined wars against complex security risks such as terrorism and WMD proliferation the main aim is to suggest and critically analyse an innovative inter disciplinary approach to the transformation of war debate **America and Iraq** David Ryan,Patrick Kiely,2009-01-13 This edited volume provides an overview on US involvement in Iraq from the 1958 Iraqi coup to the present day offering a deeper context to the current conflict Using a range of innovative methods to interrogate US foreign policy ideology and culture the book provides a broad set of reflections on past present and future implications of US Iraqi relations and especially the strategic implications for US policy making In doing so it examines several key aspects of relationship such as the 1958 Iraqi Revolution the impact of the 1967 Arab Israeli War the impact of the Nixon Doctrine on the regional balance of power US attempts at rapprochement during the 1980s the 1990 91 Gulf War and finally sanctions and inspections Analysis of the contemporary Iraq crisis sets US plans against the reality they faced in the country and explores both attempts to bring security to Iraq and the implications of failure

Security Strategies and American World Order Birthe Hansen,Peter Toft,Anders Wivel,2008-10 This book analyses security strategies in the American world order systematically comparing Russian Middle Eastern and European policies The main finding is that the loss of relative power has decisive importance for the security strategies of states but that particular strategies can only be explained when relative power is combined with ideology and the probability of military conflict Research on the unipolar world order has focused largely on the general dynamics of the system and the actions of the American unipole By contrast this book focuses on states that lost out relatively as a consequence of unipolarity and seeks to explain how this loss has affected their security strategies Thus in essence the book tells the other side of the story about the contemporary world order In addition it makes an important theoretical contribution by systematically coupling relative ideology and relative security with relative power and exploring their explanatory value This book will be of great interest to students of international relations security studies and foreign policy **Justifying America's Wars** Nicholas Kerton-Johnson,2010-09-13 This book examines the justifications for and practice of war by the US since 1990 and examines four case studies the Gulf War Kosovo Afghanistan and Iraq The author undertakes an examination of presidential speeches and public documents from this period to determine the focal points on which the respective presidents based their rhetoric for war The work then examines the practice of war in the light of these justifications to determine whether changes in justifications correlate with changes in practice In particular the justificatory discourse finds four key themes that emerge in the presidential discourses which are tracked across the case studies and point to the fundamental driving force in US

motivations for going to war The four key themes which emerge from the data are international law or norms human rights national interest and egoist morality similar too but wider than exceptionalism This analysis shows that 9 11 resulted in a radical shift away from an international law and human rights focused justificatory discourse to one which was overwhelmingly dominated by egoist morality justifications and national interest This book will be of much interest to students of US foreign policy humanitarian intervention Security Studies and IR theory

Globalization and Defence in the Asia-Pacific Geoffrey Till, Emrys Chew, Joshua Ho, 2009 This edited volume examines the impact of globalisation on the economies security policies and military industrial complexes of the Asia Pacific region The work is structured into three main parts The first explores globalization and its general effects on the policy making of the nation state the second section looks at how globalisation affects a country's threat perception and defence posture within the specific context of the Asia Pacific region while the third explores how it impacts on a state's allocation of resources to defence and how economic globalization affects the defence industry with specific reference to the procurement policies and practices of different states across the Asia Pacific

Explaining War and Peace Jack Levy, Gary Goertz, 2007-06-18 This edited volume focuses on the use of necessary condition counterfactuals in explaining two key events in twentieth century history the origins of the First World War and the end of the Cold War Containing essays by leading figures in the field this book analyzes the causal logics of necessary and sufficient conditions demonstrates the variety of different ways in which necessary condition counterfactuals are used to explain the causes of individual events and identifies errors commonly made in applying this form of causal logic to individual events It includes discussions of causal chains contingency critical junctures and powder keg explanations and the role of necessary conditions in each Explaining War and Peace will be of great interest to students of qualitative analysis the First World War the Cold War international history and international relations theory in general

Global Security and the War on Terror Paul Rogers, 2007-07-04 As the War on Terror evolves into the Long War against Islamofascism it demands an enduring commitment to ensuring the security of the United States and its allies This policy is based on the requirement to maintain control in a fractured and unpredictable global environment while paying little attention to the underlying issues that lead to insecurity It is an approach that is manifestly failing as the continuing problems in Afghanistan and Iraq demonstrate Moreover control implies the maintenance of a global order that focuses on power remaining in the hands of a transnational elite community principally focused on North America and Western Europe but extending worldwide This elite largely ignores socio economic divisions and environmental constraints and sees continuing stability as being best achieved by the maintenance of the status quo using force when necessary This collection of essays by Professor Paul Rogers argues that this post Cold War security paradigm is fundamentally misguided and unsustainable It concludes with two new essays on the need for a new conception of global security rooted in justice and emancipation Global Security and the War on Terror will be essential reading for students and scholars of security studies

the Cold War international relations and development studies **Transforming European Militaries** Gordon Adams, Guy Ben-Ari, 2006-09-27 A unique look at European Network Enabled Capabilities NEC and their implications for transatlantic co operation in future operations Gordon Adams and Guy Ben Ari identify the key requirements for improvement of Europe s abilities as an international actor They focus on national and collaborative as well as existing and planned networks They clearly show the reader how with the removal of the risks of Soviet invasion European defence planners must now modify their strategies and capabilities to address new threats both at home and overseas They also show why future operations within international coalitions will require network based capabilities that can interoperate Europe possesses a technological and industrial base adequate to supply such capabilities and its defence strategies are gradually being modified to emphasize expeditionary forces operations within coalition settings However much remains to be done This volume tackles the key challenges facing European nations who need to operate alongside each other and with their North American allies more effectively and efficiently This book will be of great interest to all students of European affairs and politics international relations and military and strategic studies **Deterring International Terrorism and Rogue States** James H. Lebovic, 2007-01-24 This new study challenges the widely held view that many current US adversaries cannot be deterred maintaining that deterrence is not a relic of the Cold War period and that it should shape US policies toward so called rogue states and terror groups James Lebovic argues that deterrence principles continue to apply and focuses upon the three pillars of the Bush administration s national security policy missile defence which preoccupied the administration until September 11 2001 pre emption which became the US focus with the September 11 attacks and US success in overthrowing the Taliban regime in Afghanistan homeland security which the administration has portrayed as more a natural response to threat than an aspect of policy that must be reconciled with the other pillars Deterring International Terrorism and Rogue States asserts that bad offences and defences have been endemic to the current US policy approach leading US policy makers to pursue policies that require them to do everything without adequate concern for resource trade offs overreach and unintended consequences This book will be of great interest to students of US foreign policy national and international security terrorism and international relations in general

Rift Between America And Old Europe The Distracted Eagle: Bestsellers in 2023 The year 2023 has witnessed a remarkable surge in literary brilliance, with numerous engrossing novels captivating the hearts of readers worldwide. Lets delve into the realm of top-selling books, exploring the fascinating narratives that have captivated audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover expertly weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can succeed. Rift Between America And Old Europe The Distracted Eagle : Taylor Jenkins Reids "The Seven Husbands of Evelyn Hugo" This intriguing historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reids captivating storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens "Where the Crawdads Sing" This evocative coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens crafts a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These bestselling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of compelling stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and suspenseful novel that will keep you wondering until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
