

An aerial photograph of a beach at sunset or sunrise. The ocean waves are breaking onto the shore, creating white foam. The sand is a warm, golden-brown color. There are some dark, rocky patches on the beach. The overall mood is serene and contemplative.

A young person should be speaking out for what is fair, what is just, what is right. Speak out for those who have been left out and left behind. That is how the movement goes on.

Speaking Out on Human Rights Pearl Eliadis, 2014-04-01 Canadians like to see themselves as champions of human rights in the international community Closer to home however the human rights system in Canada particularly its public institutions such as commissions and tribunals has been the object of sustained debate and vehement criticism based largely on widespread myths about how it works In *Speaking Out on Human Rights* Pearl Eliadis explodes these myths analysing the pervasive distortions and errors on which they depend Canada s human rights system a unique legal tradition operating within a powerful modern constitution is a fundamental mechanism for ensuring the practical application of our national commitment to tolerance and inclusion Drawing on in depth interviews with Canada s leading human rights experts and extensive original research Eliadis explores the evolution of commissions and tribunals as vehicles of public policy and considers their mandate to mediate rights conflicts in such contested areas as hate speech religious freedoms and sexuality She provides a frank assessment of how Canada s human rights system functions and argues that misplaced critiques have prevented urgent and necessary discussions about the reforms that are needed to improve fairness and equality before the law and to ensure institutional independence impartiality and competence *Speaking Out on Human Rights* shows how our human rights system plays a unique and important role in the rights revolution both in Canada and internationally and offers promising avenues for its future development

Armed Forces Talk , *Freedom of Expression* Glen Newey, 2009-03-26 Freedom of expression has long been cherished as a liberal ideal But in the political climate of the new millennium free

expression finds itself under assault Muslims greeted the publication by a Danish newspaper of cartoons depicting the prophet Muhammad with outrage The Pope was forced to issue an apology after Muslims denounced his remarks about a Byzantine emperor as anti Islamic Meanwhile in the UK the play Behzti was cancelled after protests by Sikhs and Christian activists attempted to force the BBC not to screen Jerry Springer the Opera The political establishment as well as religious activists has also tried to gag free speech Moves to ban inciting religious hatred and glorifying acts of terrorism have stirred up political ferment In several jurisdictions Holocaust denial is already outlawed The advent of the internet with its lack of regulation has fuelled long standing feminist concerns about pornography Child pornography has become rampant on the web This collection explores the new challenges to free expression posed by cultural and political conflict and by technological change It asks whether classical and modern liberalism still carry conviction against challenges to liberal orthodoxy The contributors ask how to weigh the claims of free expression against other fundamental rights such as group membership personal privacy and the protection of the public sphere both as a discursive realm and as a cultural space Together they tackle the key questions facing free expression today What does free expression mean in an age of global communications How if at all can it be traded against other goods Can free speech survive given the growing awareness of its costs

Speaking Out Linde Zingaro, 2017-03-02 Many professionals in health education and community service roles are caught in a particular bind of identity they live in a complex social borderland of credibility and professional authority while experiencing or having experienced the same discrimination violence or trauma that they are committed to conquering For some the disclosure of their own stories of marginalization has become a tool for advocacy for telling a larger truth for others self disclosure is a more personal action intended to assist isolated others in developing trust and connection Linde Zingaro a lifelong social service worker and activist interviewed several colleagues who have chosen to speak out in this way talking with them about their ethics and intentions and collaborating to identify some of the risks of negative personal and professional consequences for the practitioner She uses their voices and her own to illustrate some of the ways that these people have learned to safely and effectively use the transformative potential of storytelling as significant social action This examination of speaking out as a meaningful social practice may help other workers activists and community researchers in their efforts to be heard in the interests of a more just society
