Right Center Left Essays In American History:

Right Center Left Leo P. Ribuffo, 1992 **A Companion to 20th-Century America** Stephen J. Whitfield, 2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close **A Catholic in the White House?** T. Carty, 2016-03-14 According to most political and religious scholars and pundits JFK's victory in 1960 symbolized America's evolution from a Protestant nation to a pluralist community that included Catholics as all citizens However if the presidential election of 1960 was indeed a turning point for American Catholics how do we explain the failure of any Catholic in over forty years to repeat Kennedy's accomplishment In this exhaustively researched study that fuses political cultural social and intellectual history Thomas Carty challenges the assumption that JFK's successful campaign for the Presidency ended decades if not centuries of religious and political tension between American Catholics and Protestants paving a new role for Catholics in American presidential politics **Forging Global Fordism** Stefan J. Link, 2023-12-05 This book traces the emergence of mass production and Fordism its accompanying ideology first in the United States and then in Nazi Germany and the Soviet Union **Right Star Rising: A New Politics, 1974-1980** Laura Kalman, 2010-06-28 An authoritative history of the right turn in American national politics during the Ford Carter years On the face of it the Ford Carter years seem completely forgettable They were years of weak presidential leadership and national drift Yet as Laura Kalman shows in this absorbing narrative history the contours of our contemporary politics took shape during these years This was the incubation period for a powerful movement on the right that was to triumph with Ronald Reagan's election in 1980 These years also marked the coming of age of the social movements of the 1960s as their causes moved from the streets to the courts for mediation Supreme Court decisions on affirmative action and the scope of privacy rights had immense social and political impact The nation experienced an energy crisis a sharp economic downturn and a collision with fundamentalism in Iran that set the terms for coming crises Kalman's navigation of this eventful political and social terrain is expert and riveting **Schlesinger: The Imperial Historian** Richard Aldous, 2017-10-10 The first major biography of preeminent historian and intellectual Arthur Schlesinger Jr a defining figure in Kennedy's White House Arthur M Schlesinger Jr 1917 2007 known today as the architect of John F Kennedy's presidential legacy blazed an extraordinary path from Harvard University to wartime London to the West Wing The son of a pioneering historian and a two time Pulitzer Prize and National Book Award winner in his own right Schlesinger redefined the art of presidential biography A Thousand Days his best selling and immensely influential record of the Kennedy administration cemented Schlesinger's place as one of the nation's greatest

political image makers and a key figure of the American intellectual elite a peer and contemporary of Reinhold Niebuhr Isaiah Berlin and Adlai Stevenson The first major biography of this defining figure in Kennedy s Camelot Schlesinger The Imperial Historian presents a dramatic life and career set against the backdrop of the American Century Biographer Richard Aldous draws on oral history rarely seen archival documents and the official Schlesinger papers to craft a portrait of the incandescently brilliant and controversial historian who framed America s ascent to global empire

Reclaiming the Political in Latin American History Gilbert M. Joseph,2001-12-25 A collection of essays and case studies on Latin America which suggest new historiographical approaches and political strategies linking materialist analysis to constructivist understandings of power meaning identity and agency

The Populist Persuasion Michael Kazin,2017-11-15 In The Populist Persuasion the distinguished historian Michael Kazin guides readers through the expressions of conflict between powerful elites and the people that have run through our civic life filling it with discord and meaning from the birth of the United States until the present day Kazin argues persuasively that the power of populism lies in its adaptable nature Across the political spectrum commentators paste the label on forces and individuals who really have just one big thing in common they are effective at blasting elites or the establishment for harming the interests and betraying the ideals of the people in nations that are committed at least officially to democratic principles Kazin s classic book has influenced debates over populism since its publication The new preface to this edition brings the story up to date by charting the present resurgence of populist discourse which was front and center in the 2016 elections and in the Brexit debate

Reaganland Rick Perlstein,2020-08-18 A NEW YORK TIMES NOTABLE BOOK OF 2020 From the bestselling author of Nixonland and The Invisible Bridge comes the dramatic conclusion of how conservatism took control of American political power Over two decades Rick Perlstein has published three definitive works about the emerging dominance of conservatism in modern American politics With the saga s final installment he has delivered yet another stunning literary and historical achievement In late 1976 Ronald Reagan was dismissed as a man without a political future defeated in his nomination bid against a sitting president of his own party blamed for President Gerald Ford s defeat too old to make another run His comeback was fueled by an extraordinary confluence fundamentalist preachers and former segregationists reinventing themselves as militant crusaders against gay rights and feminism business executives uniting against regulation in an era of economic decline a cadre of secretive New Right organizers deploying state of the art technology bending political norms to the breaking point and Reagan s own unbending optimism his ability to convey unshakable confidence in America as the world s shining city on a hill Meanwhile a civil war broke out in the Democratic party When President Jimmy Carter called Americans to a new ethic of austerity Senator Ted Kennedy reacted with horror challenging him for reelection Carter s Oval Office tenure was further imperiled by the Iranian hostage crisis the Soviet invasion of Afghanistan near catastrophe at a Pennsylvania nuclear plant aviation accidents serial killers on the loose and endless gas lines Backed by a reenergized conservative Republican base

Reagan ran on the campaign slogan Make America Great Again and prevailed Reaganland is the story of how that happened tracing conservatives cutthroat strategies to gain power and explaining why they endure four decades later Talking to the Dead Barbara Weisberg,2009-10-13 Barbara Weisberg's *Talking to the Dead* blends biography and social history in this revelatory story of the family responsible for the rise of Spiritualism A fascinating story of spirits and conjurors skeptics and converts in the second half of nineteenth century America viewed through the lives of Kate and Maggie Fox the sisters whose purported communication with the dead gave rise to the Spiritualism movement and whose recanting forty years later is still shrouded in mystery In March of 1848 Kate and Maggie Fox sisters aged eleven and fourteen anxiously reported to a neighbor that they had been hearing strange unidentified sounds in their house From a sequence of knocks and rattles translated by the young girls as a voice from beyond the Modern Spiritualism movement was born *Talking to the Dead* follows the fascinating story of the two girls who were catapulted into an odd limelight after communicating with spirits that March night Within a few years tens of thousands of Americans were flocking to séances An international movement followed Yet thirty years after those first knocks the sisters shocked the country by denying they had ever contacted spirits Shortly after the sisters once again changed their story and reaffirmed their belief in the spirit world Weisberg traces not only the lives of the Fox sisters and their family including their mysterious Svengali like sister Leah but also the social religious economic and political climates that provided the breeding ground for the movement While this is a thorough compelling overview of a potent time in US history it is also an incredible ghost story The Influence of Faith Elliott Abrams,2002-05-30 Realists have long argued that the international system must be based on hard calculations of power and interest But in recent years religion's role on the international scene has grown *The Influence of Faith* examines religion as a growing factor in world politics and U S foreign policy Particular attention is placed on the American reaction to the persecution of Christians and Jews overseas as well as the role of faith based groups such as missionary and relief organizations in the formulation and implementation of U S policy *The Influence of Faith* considers these timely issues from diverse points of view offering broad historical analysis as well as concrete examples taken from current affairs

Discontented America David J. Goldberg,1999-02-08 from the foreword by Stanley I Kutler *To Shake Their Guns in the Tyrant's Face* Robert H Churchill,2010-08-04 After the bombings of Oklahoma City in 1995 most Americans were shocked to discover that tens of thousands of their fellow citizens had banded together in homegrown militias Within the next few years numerous studies and media reports appeared revealing the unseen world of the American militia movement a loose alliance of groups with widely divergent views Not surprisingly it was the movement's most extreme voices that attracted the lion's share of attention In reality the militia movement was neither as irrational nor as new as it was portrayed in the press Robert Churchill writes What bound the movement together was the shared belief that citizens have a right even a duty to take up arms against wanton exercise of unconstitutional power by the federal government Many were motivated to join the

movement by what they saw as a rise in state violence illustrated by the government assaults at Ruby Ridge Idaho in 1992 and Waco Texas in 1993 It was this perception and the determination to deter future state violence Churchill argues that played the greatest role in the growth of the American militia movement Churchill uses three case studies to illustrate the origin of some of the core values of the modern militia movement Fries Rebellion in Pennsylvania at the end of the eighteenth century the Sons of Liberty Conspiracy in Civil War era Indiana and Illinois and the Black Legion in Michigan and Ohio during the Depression Building on extensive interviews with militia members the author places the contemporary militia movement in the context of these earlier insurrectionary movements that animated by a libertarian interpretation of the American Revolution used force to resist the authority of the federal government A historian of early America Robert H Churchill has published numerous articles on American political violence and the right to keep and bear arms He is currently Associate Professor of History at the University of Hartford This book is about how we think about the past how cultural memories are formed and evolve and how these memories then come to impact current understandings of issues Churchill provides an enlightening analysis of the ideology structure and purpose of the militia movement Where much scholarship has categorized it as a cohesive single movement Churchill begins the process of unraveling its complexity Steve Chermak Michigan State University To Shake Their Guns in the Tyrant's Face addresses an area the relationship of American political violence to American ideology that is of growing importance and that is commanding an ever increasing audience and it does so in a way like nothing else in the field David Williams Indiana University Bloomington *Jews, Sports, and the Rites of Citizenship* Jack Kugelmass, 2023-12-11 To many an association between Jews and sports seems almost oxymoronic yet Jews have been prominent in boxing basketball and fencing and some would argue that hurler Sandy Koufax is America's greatest athlete ever In *Jews Sports and the Rites of Citizenship* Jack Kugelmass shows that sports significant in constructing nations and in determining their degree of exclusivity also figures prominently in the Jewish imaginary This interdisciplinary collection brings together the perspectives of anthropologists and historians to provide both methodological and regional comparative frameworks for exploring the meaning of sports for a minority population **The People of This Generation** Paul Lyons, 2013-07-17 At the heart of the tumult that marked the 1960s was the unprecedented scale of student protest on university campuses around the world Identifying themselves as the New Left as distinguished from the Old Left socialists who engineered the historic labor protests of the 1930s these young idealists quickly became the voice and conscience of their generation *The People of This Generation* is the first comprehensive case study of the history of the New Left in a Northeast urban environment Paul Lyons examines how campus and community activists interacted with the urban political environment especially the pacifist Quaker tradition and the rising ethnic populism of police chief and later mayor Frank Rizzo Moving away from the memoirs and overviews that have dominated histories of the period Lyons uses this detailed metropolitan study as a prism for revealing the New Left's successes and failures and for gauging how the energy generated

by local activism cultivated the allegiance of countless citizens Lyons explores why groups dominated by the Old Left had limited success in offering inspiration to a new generation driven by the civil rights movement and opposition to the Vietnam War The number and diversity of colleges in this unique metropolitan area allow for rich comparisons of distinctly different campus cultures and Lyons shows how both student demographics and institutional philosophies determined the pace and trajectory of radicalization Turning his attention off campus Lyons highlights the significance of the antiwar Philadelphia Resistance and the antiracist People for Human Rights Philadelphia s most significant New Left organizations revealing that the New Left was influenced by both its urban and campus milieus Combining in depth archival research rich personal anecdote insightful treatment of the ideals that propelled student radicalism and careful attention to the varied groups that nurtured it The People of This Generation offers a moving history of urban America during what was perhaps the most turbulent decade in living memory

Pat Robertson David John Marley,2007 A portrait of the 700 Club host and co founder of the Christian Coalition considers his role as a reviled figure in the secular world and a formidable role model among Christian fundamentalists in a profile that lauds his achievements while questioning some of his decisions

In Search of American Jewish Culture Stephen J. Whitfield,1999 A leading cultural historian explores the complex interactions of Jewish and American cultures

Gerald Ford and the Challenges of the 1970s Yanek Mieczkowski,2005-04-22 A reappraisal of the brief presidency of Gerald Ford called to leadership in the midst of scandal stagflation and an energy crisis For many Americans Gerald Ford evokes an image of either an unelected president who abruptly pardoned his corrupt predecessor or an accident prone klutz spoofed on Saturday Night Live In this book Yanek Mieczkowski reexamines Ford s two and a half years in office showing that his presidency successfully confronted the most vexing crisis of the postwar era Viewing the 1970s primarily through the lens of economic events Mieczkowski argues that Ford s understanding of the national economy was better than any modern president s that he oversaw a dramatic reduction of inflation and that he attempted to solve the energy crisis with judicious policies Throughout his presidency Ford labored under the legacy of Watergate Democrats scored landslide victories in the 1974 midterm elections and within an anemic Republican Party the right wing challenged Ford s leadership even as pundits predicted the GOP s death Yet Ford reinvigorated the party and fashioned a 1976 campaign strategy against Jimmy Carter that brought him from thirty points behind to a dead heat on election day Drawing on numerous personal interviews with former President Ford cabinet officials and members of the Ninety fourth Congress Mieczkowski presents the first major work on Ford in more than a decade combining the best of biography and presidential history to paint an intriguing portrait of a president his times and his legacy This ambitious work calls for a reexamination of the Ford presidency in light of the formidable challenges he faced upon taking office A welcome and important addition to the literature on the Ford presidency Library Journal

Chaos in the Liberal Order Robert Jervis,Francis J. Gavin,Joshua Rovner,Diane N. Labrosse,2018-07-17 Donald Trump s election has called into question many fundamental assumptions

about politics and society Should the forty fifth president of the United States make us reconsider the nature and future of the global order Collecting a wide range of perspectives from leading political scientists historians and international relations scholars Chaos in the Liberal Order explores the global trends that led to Trump s stunning victory and the impact his presidency will have on the international political landscape Contributors situate Trump among past foreign policy upheavals and enduring models for global governance seeking to understand how and why he departs from precedents and norms The book considers key issues such as what Trump means for America s role in the world the relationship between domestic and international politics and Trump s place in the rise of the far right worldwide It poses challenging questions including Does Trump s election signal the downfall of the liberal order or unveil its resilience What is the importance of individual leaders for the international system and to what extent is Trump an outlier Is there a Trump doctrine or is America s president fundamentally impulsive and scattershot The book considers the effects of Trump s presidency on trends in human rights international alliances and regional conflicts With provocative contributions from prominent figures such as Stephen M Walt Andrew J Bacevich and Samuel Moyn this timely collection brings much needed expert perspectives on our tumultuous era

World Fascism Cyprian Blamires, 2006-09-18 This book shows how during the 20th century evils such as totalitarianism tyranny war and genocide became indelibly linked to the fascist cause and examines the enduring and popular appeal of an ideology that has counted princes poets and war heroes among its most fervent adherents From the followers of Hajj Amin Al Husseini the Arab leader who met with Adolf Hitler in November 1942 to the murderous death squads of the Croatian Ustasha to certain members of the British Establishment fascism s heady brew of extreme nationalism and revolutionary violence has attracted followers from across all religions races and classes Now widely reviled fascism became an immensely powerful political force in Western Europe throughout the 1930s and into the 1940s How did civilized nations like Italy Germany Austria and others succumb to an ideology now regarded by the political mainstream as barbarous and beyond the pale World Fascism A Historical Encyclopedia covers all the key personalities and movements throughout the history of fascism and brings to light some of the ideology s lesser known aspects from Hindu extremists in India to the influential role of certain women in fascist movements How did an ideology which was openly boastful of its belief in violence come to seduce the elites of some of the most civilized nations on earth What can explain fascism s enduring appeal

Thank you for reading **Right Center Left Essays In American History**. Maybe you have knowledge that, people have look hundreds times for their chosen novels like this Right Center Left Essays In American History, but end up in harmful downloads.

Rather than reading a good book with a cup of tea in the afternoon, instead they cope with some harmful virus inside their laptop.
