Rights Of Gun Owners:

The Rights of Gun Owners Alan M. Gottlieb, 1991 The Rights of Gun Owners Alan M. Gottlieb, 1991 **From My Cold Dead Hands** Michael R. Weisser, 2018 This book covers the two arguments made about guns in the United States today. On the one hand, pro gun advocates claim that the benefit of gun ownership as protection from crime outweighs the risks of intentional and accidental gun injuries. On the other hand, most gun violence researchers claim that the risks of intentional and accidental gun injuries outweigh the benefits of owning a gun. Based on original surveys of gun owners and non gun owners, primary data from medical and law enforcement sources, summaries of noted research from both perspectives, and personal experiences culled from more than 50 years in the gun business, this book explains why gun control advocates and gun rights advocates are unable to find common ground to develop regulatory policies acceptable to both sides. The Introduction and Chapter One define gun violence in numeric and demographic terms, where gun violence occurs, who are the perpetrators and the victims, and the accuracy of the data. The numerical data used by both sides to support their solutions to the problem. Chapter Two compares gun violence in the United States to gun violence in other countries and challenges the usual argument connecting our rate of gun violence to the high per capita rate of gun ownership. Chapter Three covers the development of the regulatory system, particularly the Gun Control Act of 1968, and discusses the results of a regulatory philosophy that seeks to control the behavior of gun owners rather than the design of guns, the latter being typical of every other developed country. Chapter Four compares gun control strategies of the gun rights and gun control movements, and Chapter Five looks at strategies to control gun violence committed by unlawful gun owners. Chapter Six analyzes the activities of the regulatory agency and the ATF, and Chapter Seven looks at how the gun making industry operates in ways that create both regulatory opportunities and difficulties. Chapter Eight is a discussion about the 2nd Amendment, in particular how both liberal and conservative explanations about the meaning of the amendment misread its most important point. Chapter Nine and the Conclusion are based on national surveys conducted for this book that highlight the differences between gun owners and non gun owners regarding proper regulations, control of violence, and gun risk. This book is not an attempt at advocacy. It presents a comprehensive summary of relevant research and analysis of new data to give a comprehensive view of gun violence so that advocates on both sides can be better informed about the issues which need to be addressed. *First They Came for the Gun Owners* Mark W. Smith, 2019-10-29 Bestselling author and attorney Mark W. Smith exposes the all encompassing nature of the anti gun lobby's attack on the right to keep and bear arms and how it serves as a proxy to empower government to control other important aspects of our lives. Smith notes that it is no accident that the people who oppose the Second Amendment also argue for bigger government in other areas as well as favoring sharp limits on free speech and property rights. Taken together, it is an all encompassing attack on individual liberties by those who consider themselves intellectually and morally superior to average Americans. Smith makes a compelling and

urgent case that protecting and preserving our right to bear arms is an imperative for all who value freedom whether you own a gun or not

The Second Amendment and Gun Control Laws as a Subject of Debate Lisa Schreinemacher, 2019-08-26 Seminar paper from the year 2019 in the subject American Studies Culture and Applied Geography grade 1.7 University of Bonn language English abstract This study is concerned with the historical development of the Second Amendment and how it is interpreted today In doing so John Vile's A Companion to the United States Constitution and its Amendments and Adam Winkler's Gun Fight have been consulted to provide background information on the history of the Second Amendment Due to the fact that this term paper also deals with current statistics on gun control laws it also relied on online research and online publications Firstly there will be a chapter that deals with the original intent of the founding fathers who framed the Second Amendment to the United States Constitution It will provide an historical overview of the creation of the Second Amendment and what led to its inclusion into the Bill of Rights It further tries to explain the founder's interpretation of the Second Amendment with regards to the militia The third chapter will focus on the question of how the National Rifle Association was able to rewrite the Second Amendment in order to gain more profit and get support for gun rights The chapter will present the approach taken by the NRA that resulted in a new interpretation of the Second Amendment and established the perception of an individual right to possess firearms within American society It will take into account the Supreme Court cases of United States v Miller of 1939 and District of Columbia v Heller of 2008 that ultimately guaranteed an individual's right to own firearms without any connection to a militia Another chapter will focus on gun control laws and provide a comparison between the United States and other developed countries Furthermore this chapter will give an insight into the perception of the Second Amendment within American society and discusses current gun control policies Finally the last paragraph of this term paper will be a conclusion which sums up the results achieved and gives an outlook for future research on the Second Amendment and gun control laws

Gun Rights Fact Book Alan M. Gottlieb, 1988 Every gun owner should read this book and keep it as a handy reference

Weapon of Choice Ian Ayres, Fredrick E. Vars, 2020-10-27 The push for federal gun reform is foundering Ian Ayres and Fredrick Vars look instead to libertarian ideas that can survive judicial review Individuals can renounce gun ownership rights which prevents suicide Citizens should be able to petition for confiscation from unlawful possessors While Congress and the courts argue lives can be saved

Gun Rights Activists and the US Culture War Joe Anderson, 2024-02-23 Gun Rights Activists and the US Culture War is a political anthropology book which explores how firearms can become associated with processes of identity formation as well as acting as symbols of national belonging and embodied safety In the years following Donald Trump's election an increasingly polarised population is taking up arms against each other more often than ever before Based on 12 months of participant observation at gun ranges activist meetings handgun courses and political events as well as interviews with gun rights activists in San Diego County this book argues that US conservative identity is saturated with concerns about ethics gender and who can wield

violence legitimately The book focuses on two gun rights organisations the first a conservative predominantly white and male political action committee the second a pro LGBTQ firearms training group run by trans women This book demonstrates how gun ownership gives Americans the perceived means to enact their political will through the threat of or actual organized violence and that this perceived capacity explains why guns remain objects that continue to inspire such devotion and debate Gun Rights Activists and the US Culture War will be of interest to scholars and students in anthropology gender studies ethnic studies sociology and politics as well as a general audience of narrative non fiction readers **What All Gun**

Owners Should Know Robert Stewart,2017-07-10 This book is about The Declaration of Independence and the Constitution of the United States of America known all over the World as the most important human rights government by the People document in world history The mandatory requirement for the Militia being necessary to the security of each of the Free and Independent Republics the Several States is emphasized in the 2nd Amendment Most people do not realize that the Constitution requires Congress to provide for equip and train the Militias of every State and that the leadership will be from the State And that is found in Article I Section 8 Clauses 15 and 16 The Constitution is the Supreme Law of the Land and nowhere in the Constitution will you find any person Congress State Legislature judge or law enforcement officer to make gun laws restricting ownership or carry on person laws That s right learn your gun rights from the Constitution this book covers this subject in detail So know these rights NOBODY HAS THE AUTHORITY TO INFRINGE ON YOUR GUN RIGHTS Learn why this is true Read this book **Guns on the Internet** Connie Hassett-Walker,2018-07-24 Gun rights and control

are well trodden subjects with prior work supporting the right of citizens to own firearms discussing the failure of gun control efforts or warning about or exhorting citizen gun ownership among other things Although social media in their many forms have only come to dominate modern U S life during the past decade there has been little academic exploration of gun owner communities on the Internet and social media How do gun owners use social media How do they meet other gun owners online What do they talk about as relates to guns With a massive and well organized collection of support material Guns on the Internet faces these questions with an unbiased approach that seeks a foundation for mutual understanding Also available as an audiobook **The Triumph of the Gun-Rights Argument** Harry L. Wilson,2015-01-16 Taking the bold

position that the battle over gun control has already been won by the pro gun rights faction this book will be equally informative to those immersed in the debate and those new to it Gun control evokes passions equaled by few other subjects As this book shows the debate over firearms begins with cultural values and extends into questions of constitutional rights public health and safety and politics Examining its subject through the prism of the Sandy Hook shootings the book looks at the influence of elected officials the courts interest groups and average citizens in shaping gun control laws It shares poll results detailing what the public really thinks about guns and why and it explains the various components of gun policy and policymaking to show how they come together to form the current reality While small skirmishes about the right to bear arms

will continue for some time the author a self described gun owning academic asserts that changing public opinion Supreme Court decisions dominance of gun rights interest groups the Democratic Party s virtual withdrawal from the discussion and a declining violent crime rate have formed a perfect storm resulting in the effective end of the gun control debate This assertion and the thoughtful examination that leads to it will be of equal interest to those engaged in the argument and those researching it for the first time

Handgun Control Legislation United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Criminal Law,1982

Guns, Democracy, and the Insurrectionist Idea Joshua Horwitz,Casey Anderson,2018-05-09 Does the gun lobby threaten the democratic institutions safeguarding individual liberty in America

Guns in American Society Gregg Lee Carter,2012-05-04 Thoroughly updated and greatly expanded from its original

edition this three volume set is the go to comprehensive resource on the legal social psychological political and public health aspects of guns in American life The landmark 2002 edition of *Guns in American Society An Encyclopedia of History Politics Culture and the Law* was acclaimed for helping readers get beyond the sometimes overheated rhetoric and navigate the overwhelming amount of unbiased academic research on gun related issues Now in light of the steady rate of gun violence and several high profile shooting incidents this extraordinary three volume work returns in a timely and thoroughly updated edition With over 100 new entries the latest edition of *Guns in American Society* is the most current resource available on all aspects of the gun issue including rates of violence gun control gun rights regulations and legislation court decisions pro and anti gun organizations gun ownership hunters and collectors public opinion toward guns and much more With expert contributions from the fields of criminology history law medicine politics and social science it gives students journalists policymakers and researchers a foundation for their own investigations while helping readers of all kinds make decisions as family members potential gun owners and voters

Merchants of the Right Jennifer Carlson, 2025-02-25 An eye opening portrait of the gun sellers who navigated the social turmoil leading up to the January 6 Capitol attack Gun sellers sell more than just guns They also sell politics *Merchants of the Right* sheds light on the unparalleled surge in gun purchasing during one of the most dire moments in American history revealing how conservative political culture was galvanized amid a once in a century pandemic racial unrest and a U S presidential election that rocked the foundations of American democracy Drawing on a wealth of in depth interviews with gun sellers across the United States Jennifer Carlson takes readers to the front lines of the culture war over gun rights Even though the majority of gun owners are conservative new gun buyers are more likely to be liberal than existing gun owners This posed a dilemma to gun sellers in the run up to the 2020 presidential election embrace these liberal customers as part of a new perhaps post partisan chapter in the American gun saga or double down on gun politics as conservative terrain Carlson describes how gun sellers mobilized mainstays of modern conservative culture armed individualism conspiracism and partisanship as they navigated the uncertainty and chaos unfolding around them asserting gun politics as conservative politics and reworking and even rejecting liberal democracy in the process *Merchants of the Right* offers crucial lessons about the dilemmas confronting us today arguing that we must reckon with the everyday politics that divide us if we ever hope to restore American democracy to health

Encyclopedia of Applied Ethics, 2012-01-10 The *Encyclopedia of Applied Ethics* Second Edition Four Volume Set addresses both the physiological and the psychological aspects of human behavior Carefully crafted well written and thoroughly indexed the encyclopedia helps users whether they are students just beginning formal study of the broad field or specialists in a branch of psychology understand the field and how and why humans behave as we do The work is an all encompassing reference providing a comprehensive and definitive review of the field A broad and inclusive table of contents ensures detailed investigation of historical and theoretical material as well as in depth analysis of current issues Several disciplines may be involved in applied ethics one

branch of applied ethics for example bioethics is commonly explicated in terms of ethical legal social and philosophical issues Editor in Chief Ruth Chadwick has put together a group of leading contributors ranging from philosophers to practitioners in the particular fields in question to academics from disciplines such as law and economics The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media Concise entries ten pages on average provide foundational knowledge of the field Each article will features suggested readings pointing readers to additional sources for more information a list of related websites a 5 10 word glossary and a definition paragraph and cross references to related articles in the encyclopedia Newly expanded editorial board and a host of international contributors from the US Australia Belgium Canada France Germany Ireland Israel Japan Sweden and the United Kingdom The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media *Handbook for Handguns: A Practical Guide to Ownership, Selection & Use* Charles Bruckerhoff, 2014-07-22 Handbook for Handguns provides insights and instructions about revolvers and pistols that will be of equally great interest for someone who is basically curious about handguns as well as beginning and more experienced shooters Bruckerhoff s thorough discussion begins with rights and liberties established by the Founding Fathers and includes an overview of federal and state laws pertaining to firearms history of firearms development gun safety rules modern revolvers and pistols ammunition ballistics live fire and safe storage It also contains full color photographs throughout the book that make details of handguns clear and useful
