Rilke Werke Volume 2:

The Mystic Fable, Volume Two Michel de Certeau, 2015-12-03 More than two decades have passed since Chicago published the first volume of this groundbreaking work in the Religion and Postmodernism series. It quickly became influential across a wide range of disciplines and helped to make the tools of poststructuralist thought available to religious studies and theology especially in the areas of late medieval and early modern mysticism. Though the second volume remained in fragments at the time of his death, Michel de Certeau had the foresight to leave his literary executor detailed instructions for its completion which formed the basis for the present work. Together both volumes solidify Certeau's place as a touchstone of twentieth century literature and philosophy and continue his exploration of the paradoxes of historiography, the construction of social reality through practice, testimony and belief, the theorization of speech in angelology and glossolalia and the interplay of prose and poetry in discourses of the ineffable. This book will be of vital interest to scholars in religious studies, theology, philosophy, history and literature. **The Seasons** Luke Fischer, David Macauley, 2021-07-01

Although the seasons have been a perennial theme in literature and art, their significance for philosophy and environmental theory has remained largely unexplored. This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and illuminating perspectives for philosophy, environmental thought, anthropology, cultural studies, aesthetics, poetics and literary criticism. *The Seasons* opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities. The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons (spring, summer, fall and winter) to the Indigenous seasons of Australia and the Arctic. Exemplifying the crucial importance of interdisciplinary research, *The Seasons* makes a compelling case for the relevance of the seasons to our daily lives, scientific understanding, diverse cultural practices and politics. [Volume 12, Tome I: Kierkegaard's Influence on Literature, Criticism and Art](#) Jon

Stewart, 2016-12-05 While Kierkegaard is primarily known as a philosopher or religious thinker, his writings have also been used extensively by literary writers, critics and artists worldwide who have been attracted to his creative mixing of genres, his complex use of pseudonyms, his rhetoric and literary style and his rich images, parables and allegories. The goal of the present volume is to document this influence in different language groups and traditions. Tome I explores Kierkegaard's influence on literature and art in the Germanophone world. He was an important source of inspiration for German writers such as Theodor Fontane, Thomas Mann, Rainer Maria Rilke, Alfred Andersch and Martin Walser. Kierkegaard's influence was particularly strong in Austria during the generation of modernist authors such as Rudolf Kassner, Karl Kraus, Robert Musil and Hermann Broch. Due presumably in part to the German translations of Kierkegaard in the Austrian cultural journal *Der Brenner*, Kierkegaard continued to be used by later figures such as the novelist and playwright Thomas Bernhard. His thought was also appropriated in Switzerland through the works of Max Frisch and Friedrich Dürrenmatt. The famous Czech author Franz

Kafka identified personally with Kierkegaard's love story with Regine Olsen and made use of his reflections on this and other topics

 The Sounds of Early Cinema is devoted exclusively to a little known yet absolutely crucial phenomenon the ubiquitous presence of sound in early cinema Silent cinema may rarely have been silent but the sheer diversity of sound's and sound image relations characterizing the first 20 years of moving picture exhibition can still astonish us Whether instrumental vocal or mechanical sound ranged from the improvised to the pre arranged as in scripts scores and cue sheets The practice of mixing sounds with images differed widely

Bullivant, 1997-09-01 With the fall of the Berlin Wall in November 1989 four decades of separation seemed to have been brought to an end In the literary arena as in many others this seemed to be the surprising but ultimately logical end to the situation in which after the extreme separation of the two Germanies literatures during most of the period up to 1980 an increasing closeness could be observed during the 1980s as relations between the two German states normalized With the opening up of the East in the Autumn of 1989 claims were being made on the one hand that German literature had never in fact been divided while others were proclaiming the end of East and West German literatures as they had existed and the beginning of a new era This volume examines these claims and other aspects of literary life in the two Germanies since 1945 with the hindsight born of unification in 1990 as well as looking at certain aspects of developments since the fall of the Wall when as on East German put it in 1996 rapprochement came to an end **Mediating Modernity** Stefanie Harris, 2010-11 An interdisciplinary examination of the responses of literary authors in Germany from 1895 1930 to the emerging media of image and sound recording Provided by publisher **Challenging Separate Spheres** Marjanne Elaine Goozé, 2007 This collection of essays centers on women writers who negotiated interrogated and challenged the gender ideology of separate spheres through their advocacy and representations of female Bildung The term Bildung encompasses an individual s entire moral spiritual behavioral emotional political and intellectual development The contributors analyze works of fiction memoirs autobiographies letters the periodical press and conduct and cookbooks from the mid 1700s to circa 1900 that confront the separate spheres paradigm and promote women s educational and personal development They examine women s writing and reading practices moral and gender philosophies political activism and work from the home to the stage and factory Most writers did not repudiate outright existing gender models but both subtly and overtly subverted and reinterpreted them In all the texts the process of female education leads to an assertion of agency The writers came from different social classes and professional backgrounds ranging from noblewomen to working class autobiographers of the later nineteenth century This volume will be of interest to German cultural literary
