Ring of Fire Lisa Jarnot, 2003 Ring of Fire is a book of experimental lyric poetry in the tradition of American Poetry beginning with Walt Whitman and continuing through the Beat Generation the New York School and contemporary Language Poetry Jarnot's work represents a synthesis of traditional modes of verse alongside more fragmented avant garde writing practices The poems in this collection resonate with homages to the metaphysical masters of the 17th Century while commenting on popular culture in the Western world

Ring of Fire Malcolm Pines, Victor Schermer, 2003-09-02 First published in 1994 Routledge is an imprint of Taylor Francis an informa company **Ring of Fire** Virginia

Heffernan, 2023-03-14 A valuable discovery under the world's second largest temperate wetland and in the traditional lands of the Cree and Ojibway casts light on the growing conflict among resource development environmental stewardship and Indigenous rights When prospectors discovered a gigantic crescent of metal deposits under the James Bay Lowlands of northern Canada in 2007 the find touched off a mining rush lured a major American company to spend fortunes in the remote swamp and forced politicians to confront their legal duty to consult Indigenous Peoples about development on their traditional territories But the multibillion dollar Ring of Fire was all but abandoned when stakeholders failed to reach consensus on how to develop the cache despite years of negotiations and hundreds of millions of dollars in spending Now plans for an all weather road to connect the region to the highway network are reigniting the fireworks In this colorful tale Virginia Heffernan draws on her bush and newsroom experiences to illustrate the complexities of resource development at a time when Indigenous rights are becoming enshrined globally Ultimately Heffernan strikes a hopeful note the Ring of Fire presents an opportunity for Canada to leave behind centuries of plunder and set the global standard for responsible development of minerals critical to the green energy revolution
