Lawrence Curtis Evans

Rings Of Saturn:

The Rings of Saturn Winfried Georg Sebald, 1998 Ostensibly a record of a journey on foot through coastal East Anglia as Robert McCrum in the London Observer noted The Rings of Saturn is also a brilliantly allusive study of England's imperial past and the nature of decline and fall of loss and decay The Rings of Saturn is exhilaratingly you might say hypnotically readable It is hard to imagine a stranger or more compelling work The Rings of Saturn with its curious archive of photographs chronicles a tour across epochs as well as countryside On his way the narrator meets lonely eccentrics inhabiting tumble down mansions and links them to Rembrandt's Anatomy Lesson the natural history of the herring a matchstick model of the Temple of Jerusalem the travels of Sir Thomas Browne's skull and the massive bombings of WWII Cataloging change oblivion and memories he connects sugar fortunes Joseph Conrad and the horrors of colonizing the Belgian Congo The narrator finds threads which run from an abandoned bridge over the River Blyth to the terrible dowager Empress Tzu Hsi and the silk industry in Norwich Sebald as The New Yorker stated weaves his tale together with a complexity and historical sweep that easily encompasses both truth and fiction The Emigrants hailed by Susan Sontag as an astonishing masterpiece perfect while being unlike any book one has ever read was one of the great books of the last few years as Michael Ondaatje noted and now The Rings of Saturn is a similar and as strange a triumph

Vision Carol Jacobs, 2015-10-20 W G Sebald's writing has been widely recognized for its intense nuanced engagement with the Holocaust the Allied bombing of Germany in WWII and other episodes of violence throughout history Through his inventive use of narrative form and juxtaposition of image and text Sebald's work has offered readers new ways to think about remembering and representing trauma In Sebald's *Vision* Carol Jacobs examines the author's prose novels and poems illuminating the ethical and aesthetic questions that shaped his remarkable oeuvre Through the trope of vision Jacobs explores aspects of Sebald's writing and the way the author's indirect depiction of events highlights the ethical imperative of representing history while at the same time calling into question the possibility of such representation Jacobs's lucid readings of Sebald's work also consider his famous juxtaposition of images and use of citations to explain his interest in the vagaries of perception Isolating different ideas of vision in some of his most noted works including *Rings of Saturn* Austerlitz and *After Nature* as well as in Sebald's interviews poetry art criticism and his lecture *Air War and Literature* Jacobs introduces new perspectives for understanding the distinctiveness of Sebald's work and its profound moral implications [Planetary Ring Systems](#) Matthew S.
