Argentina Mineral, Mining Sector Investment and Business Guide Volume 1 Strategic Information and Regulations Inc. Ibp, 2016-11-29 Argentina Mineral Mining Sector Investment and Business Guide Strategic and Practical Information

The Invention of the Favela Licia do Prado Valladares, 2019-04-29 For the first time available in English Licia do Prado Valladares's classic anthropological study of Brazil's vast densely populated urban living environments reveals how the idea of the favela became an internationally established and even attractive and exotic representation of poverty The study traces how the term favela emerged as an analytic category beginning in the mid 1960s showing how it became the object of immense popular debate and sustained social science research But the concept of the favela so favored by social scientists is not Valladares argues a straightforward reflection of its social reality and it often obscures more than it reveals The established representation of favelas undercuts more complex accurate and historicized explanations of Brazilian development It marks and perpetuates favelas as zones of exception rather than as integral to Brazil's modernization over the past century And it has had important repercussions for the direction of research and policy affecting the lives of millions of Brazilians Valladares's foundational book will be welcomed by all who seek to understand Brazil's evolution into the twenty-first century

Modernity in Black and White Rafael Cardoso, 2021-04-15 Modernity in Black and White provides a groundbreaking account of modern art and modernism in Brazil Departing from previous accounts mostly restricted to the elite arenas of literature fine art and architecture the book situates cultural debates within the wider currents of Brazilian life From the rise of the first favelas in the 1890s and 1900s to the creation of samba and modern carnival over the 1910s and 1920s and tracking the expansion of mass media and graphic design into the 1930s and 1940s it foregrounds aspects of urban popular culture that have been systematically overlooked Against this backdrop Cardoso provides a radical re-reading of Antropofagia and other modernist currents locating them within a broader field of cultural

modernization Combining extensive research with close readings of a range of visual cultural production the volume brings to light a vast archive of art and images all but unknown outside Brazil
