**The Rise and Fall of an African Utopia** Stanley Barrett, 2010-10-30 In 1947 a group of Yoruba speaking fishermen who had been persecuted because of their religious beliefs founded their own community in order to worship in peace Although located in an impoverished part of Nigeria within a few years the village enjoyed remarkable economic success This was partly because the fishermen held all goods in common pooled the profits in the community treasury and attempted to reduce the importance of the family and marriage After about a generation the utopia began to fall apart The early religious zeal faded private enterprise replaced communalism and the family became strong once more In an attempt to explain the initial success and eventual decline of the utopia the author compares it with neighbouring villages that embraced similar religious beliefs but did not enjoy the same economic success He sets the problem firmly in a broad comparative framework and draws the implications for theories of development especially Weber s Protestant ethic thesis **The Rise and Fall of an African Utopia A Wealthy Theocracy in Comparative Perspective**, 2010

**Rebirth of Anthropological Theory** Stanley R. Barrett, 1992-12-15 Innovative and often controversial Barrett s study ranges over the entire scope of anthropological theory It provides a fresh interpretation of the history of theory and mounts an alternative perspective built around dialectics that is eminently suitable to post colonial anthropology He argues that anthropological theory has failed to be cumulative It has been characterized by oscillation and repetition theoretical orientations have appeared and disappeared only to be discovered once again Addressing numerous conceptual contradictions which have never been resolved he introduces novel concepts such as salvage theory and backward theory and argues that in many respects anthropological theory resembles the structuralists interpretation of myth Social life he asserts is inherently contradictory although concealed by numerous mechanisms most of which reinforce the status quo

Attacking the illusion of simplicity which has dominated positivistic approaches and the out dated identification of anthropology with non Western primitive and tribal societies Barrett contends that power and privilege everywhere should be the basic concerns of anthropological inquiry *Utopianism in Postcolonial Literatures* Bill Ashcroft, 2016-11-10

Postcolonial Studies is more often found looking back at the past but in this brand new book Bill Ashcroft looks to the future and the irrepressible demands of utopia The concept of utopia whether playful satire or a serious proposal for an ideal community is examined in relation to the postcolonial and the communities with which it engages Studying a very broad range of literature poetry and art with chapters focussing on specific regions Africa India Chicano Caribbean and Pacific this book is written in a clear and engaging prose which make it accessible to undergraduates as well as academics This important book speaks to the past and future of postcolonial scholarship *Utopias and Utopians* Richard C.S. Trahair, 2013-10-31

Utopian ventures are worth close attention to help us understand why some succeed and others fail for they offer hope for an improved life on earth *Utopias and Utopians* is a comprehensive guide to utopian communities and their founders Some works look at literary utopias or political utopias etc and others examine the utopias of only one country this work examines utopias from antiquity to the present and surveys utopian efforts around the world Of more than 600 alphabetically arranged entries roughly half are descriptions of utopian ventures the other half are biographies of those who were involved Entries are followed by a list of sources and a general bibliography concludes the volume *The Interpretation of the Bible* Joze Krasovec, 1999-10-01

I can merely admire his courage in tackling so complex and difficult a subject he should succeed in stimulating a fresh generation of research this well written intelligent and lively study will greatly

stimulate anyone fortunate enough to read it Christianity provided the constitutive identity of historic Ethiopia From the sixteenth century and increasingly from the nineteenth it entered decisively into the life and culture of an increasing number of other African peoples In the course of the twentieth century African Christians have become a major part of the world Church and arguably modern African history as a whole is not intelligible without its powerful Christian element Yet despite the great advance in African historiography over the last forty years this is the first major volume to consider the historical development and character of the Christian Church in Africa as a whole linking together Ehtiopia Orthodoxy Roman Catholicism Protestantism and the numerous Independent churches of modern times The book focuses throughout on the role of conversion the shaping of Church life and its relationship to traditional values and the impact of political power Professor Hastings also compares the relation of Christian history to the comprable development of Islam in Africa

*Administration for Development in Nigeria* Paul D. Collins, This classic text originally published in 1948 is a study of the public administration movement from the viewpoint of political theory and the history of ideas It seeks to review and analyze the theoretical element in administrative writings and to present the development of the public administration movement as a chapter in the history of American political thought The objectives of The Administrative State are to assist students of administration to view their subject in historical perspective and to appraise the theoretical content of their literature It is also hoped that this book may assist students of American culture by illuminating an important development of the first half of the twentieth century It thus should serve political scientists whose interests lie in the field of public administration or in the study of bureaucracy as a political issue the public administrator interested in the philosophic background of his service and the historian who seeks an understanding of major governmental developments This study now with a new introduction by public policy and administration scholar Hugh Miller is based upon the various books articles pamphlets reports and records that make up the literature of public administration and documents the political response to the modern world that Graham Wallas named the Great Society It will be of lasting interest to students of political science government and American history

Consciousness and inquiry Frank Manning, 1983-01-01 The papers in this volume were prepared for Consciousness and Inquiry a conference jointly sponsored by the National Museum of Man and the Canadian Ethnology Society and held in London Ontario in 1981 The papers focus on interests and concerns which characterize contemporary Canadian ethnology Published in English

**Globalization of Communes** Yaacov Oved, 2017-09-08 After World War II communes and cooperative communities became internationally oriented in their membership and networking began to develop Unlike earlier such enterprises these groups shared an openness to international relationships This was evident both in the groups social composition and in the extension of networks beyond their own country Such globalization opened up the possibility of comparative analysis which has become a trend in research since the 1950s The dynamism and speed with which voluntary communities have spread throughout the world is impressive In the 1950s there were only a few hundred

such societies but by the end of the last century there were thousands. These have taken a variety of forms. There are religious and secular communes, intentional communities, ecological communities, co-housing projects, various types of Christian communities, communities of Eastern religions, and spiritual communities inspired by New Age thought. Yaacov Oved shows that such societies maintain a community based on cooperation and expand their influence through newspapers, television, and the Internet. Their chief characteristic is their openness to the outside world and their search for a way to move beyond a world of individualism and competitiveness. To accomplish this, they embrace all the tools of the modern world. Oved observes that those who predicted the failure of communes and intentional communities failed to appreciate the extent to which people in today's society aspire to communal life. This book answers the doubters and does so with a sense of deep historical understanding.

**The Yoruba Today** Jeremy Seymour Eades, 1980-05-08 *Experimental Americans* George L. Hicks, 2001 Founded in 1937 by Arthur Morgan, first chairman of the Tennessee Valley Authority, Celo pronounced *see lo* established its own rules of land tenure and taxation, conducted its internal business by consensus, and did not require its members to accept any particular ideology or religious creed. Drawing on extensive fieldwork in Celo and among its local neighbors, consultation of Celo's documentary records, and interviews with ex-members, Hicks traces the Community's ups and downs. Attacked for its opposition to World War II, Celo was revived by pacifists released from prisons and Civilian Public Service camps; after the war, debilitated in the 1950s by bitter feuds with ex-members, it was buoyed up in the 1960s by the radical enthusiasm of new currents in the nation.

**BOOK JACKET** **The Versatility of Kinship** Linda S. Cordell, Stephen Beckerman, 2014-05-12 *Studies in Anthropology* The Versatility of Kinship focuses on the dynamics involved in the special class of interpersonal ties that bind individuals to others. The selection first offers information on the variant usage in American kinship, uses of kinship in Kwaio, Solomon Islands, and incest and kinship structure. Discussions focus on incest categories in Cachama and Mamo, childhood bonds and adult residence, kinship with the dead, kinship, social identities and behavior, and models of relatedness. The text then explores the biological, linguistic, and cultural aspects of the Hopi Tewa system of mating in First Mesa, Arizona, and the Navajo exogamic rules and preferred marriages. The publication ponders on the Kpelle negotiation of marriage and matrilineal ties and kinship and descent in the ethnic reassertion of the Eastern Creek Indians. Topics include social and cultural history, genealogy as social instrument, crystallization of the Eastern Creek community, Kpelle marriage and matrilineal ties, ethnographic background, and the negotiation of marriage and matrilineal ties. The selection is a valuable reference for anthropologists, sociologists, and readers interested in the dynamics of kinship.

The anthropology of power, agency, and morality Victor de Munck, Elisa J. Sobo, 2022-06-07 The works of F. G. Bailey (1924-2020) provide a seminal template for good ethnography. Central to this is Bailey's ability to conceptually connect the well-described micro-contexts of individual interactions to the macro context of culture. Bailey's core concerns the tension between individual and collective interests, the will to power, and the dialectics of social forces which foster both collective

solidarity as well as divisiveness and discontent are themes of universal interest the beauty of his work lies in his analyses of how these play out in local arenas between real people His models provide nuanced yet explicit road maps to analysing the different leadership styles of everyday people and contemporary leaders This volume seeks to inspire new generations of anthropologists to revisit Bailey's seminal texts to help them navigate their way through the ethnographic thicket of their own research

**Christianity, Islam, and Orisa-Religion** J.D.Y. Peel, 2015-11-27 A free ebook version of this title is available through Luminos University of California Press's open access publishing program for monographs Visit [www.luminosoa.org](http://www.luminosoa.org) to learn more The Yoruba of southwestern Nigeria are exceptional for the copresence among them of three religious traditions Islam Christianity and the indigenous orisa religion In this comparative study at once historical and anthropological Peel explores the intertwined character of the three religions and the dense imbrication of religion in all aspects of Yoruba history up to the present For over 400 years the Yoruba have straddled two geocultural spheres one reaching north over the Sahara to the world of Islam the other linking them to the Euro American world via the Atlantic These two external spheres were the source of contrasting cultural influences notably those emanating from the world religions However the Yoruba not only imported Islam and Christianity but also exported their own orisa religion to the New World Before the voluntary modern diaspora that has brought many Yoruba to Europe and the Americas tens of thousands were sold as slaves in the New World bringing with them the worship of the orisa Peel offers deep insight into important contemporary themes such as religious conversion new religious movements relations between world religions the conditions of religious violence the transnational flows of contemporary religion and the interplay between tradition and the demands of an ever changing present In the process he makes a major theoretical contribution to the anthropology of world religions

Dividends of Kinship Peter P. Schweitzer, 2003-12-16 This collection reaffirms the importance of kinship and of studying kinship within the framework of social anthropology with examples from areas such as Austria Greenland Portugal Turkey and the Amazon

Kingdoms of the Yoruba Robert Sydney Smith, 1988 This third edition of what has been described as this minor classic has been extensively revised to take account of advances in Nigerian historiography The twenty million Yorubas are one of the largest and most important groups of people on the African continent Historically they were organized in a series of autonomous kingdoms and their past is richly recorded in oral tradition and archaeology From the fifteenth century onwards there are descriptions by visitors and from the nineteenth century there are abundant official reports from administrators and missionaries Yoruba sculpture in stone metal ivory and wood is famous Less well known are the elaborate and carefully designed constitutional forms which were evolved in the separate kingdoms the methods of warfare and diplomacy the oral literature and the religion based on the worship of a high god surrounded by a pantheon of more accessible deities Many of these aspects are shown in the drawings and photographs which have been used for the first time to illustrate this distinguished work

**Culture Meets Power** Stanley R.

Barrett, 2002-12-30 In recent years the concept of power has soared to the top of the anthropological agenda while the concept of culture has been found inadequate in understanding the contemporary world The purposes of this study are to explain why power has become a central interest in the discipline to evaluate the explanatory potential of power to demonstrate how to analyze power in the ethnographic context and to consider whether the culture concept can be salvaged In chapter one the process by which the profile of power became elevated as a result of globalization is analyzed included here is the critique of culture In chapter two a broad overview of the conception of power from early political anthropology to key works in philosophy political science and political sociology is attempted Some anthropologists have recently tried to rescue the culture concept this is the focus of chapter three Although the argument in this study is that power is fundamentally important it would be a mistake to think that power is any less ambiguous than culture or any other concept thus in chapter four it is shown that for each of 20 major assumptions about power there is a plausible counter assumption Chapter five ties the study together by exploring the debates about power in the context of ethnography The study ends with a postscript on the terrorist attacks on America of September 11 2001 a poignant reminder that culture and power sometimes intersect to produce human tragedy on a grand scale
