An Affluent Society? Lawrence Black, Hugh Pemberton, 2017-07-28 During an election speech in 1957 the Prime Minister Harold Macmillan famously remarked that most of our people have never had it so good Although taken out of context this phrase soon came to epitomize the sense of increased affluence and social progress that was prevalent in Britain during the 1950s and 1960s Yet despite the recognition that Britain had moved away from an era of rationing and scarcity to a new age of choice and plenty there was simultaneously a parallel feeling that the nation was in decline and being economically outstripped by its international competitors Whilst the study of Britain's postwar history is a well trodden path and the paradox of absolute growth versus relative decline much debated it is here approached in a fresh and rewarding way Rather than highlighting economic and industrial decline this volume emphasizes the tremendous impact of rising affluence and consumerism on British society It explores various expressions of affluence new consumer goods shifting social and cultural values changes in popular expectations of policy shifting popular political behaviour changing attitudes of politicians towards the electorate and the representation of affluence in popular culture and advertising By focusing on the widespread cultural consequences of increasing levels of consumerism emphasizing growth over decline and recognizing the rising standards of living enjoyed by most Britons a new and intriguing window is opened on the complexities of this golden age Contrasting growing consumer expectations and demands against the anxieties of politicians and economists this book offers all students of the period a new perspective from which to view post imperial Britain and to question many conventional historical assumptions

**Society, culture, National identity & immigration** Ljiljana Markovic, Derya Demirdizen Cevik, 2018-12-01 This book is designed to introduce the latest advances in academic research of the identity nationality and immigration issues in the 21st Century The book is composed of several defining papers that are essentially associated with society culture national identity and immigration The articles in the book draw attention to social and cultural issues related to nationalism produced and spread all around the World after the French Revolution The issue of nationalism brought about many related subjects which are not only identity and culture but also political and social movement including migration issues The opinions in each article reflect its authors own thoughts

Redefining Capitalism in Global Economic Development Kui-Wai Li, 2017-06-07 Redefining Capitalism in Global Economic Development reconsiders capitalism by taking into account the unfolding forces of economic globalization especially in Asian economies It explores the economic implications and consequences of recent financial crises terrorism ultra low interest rates that are decades long debt prone countries and countries with large trade surpluses The book illuminates these economic implications and consequences through a framework of capitalist ideologies and concepts recognizing that Asia is redefining capitalism today The author Li seeks not to describe why nations fail but how the sustainability of capitalism can save the world Merges capitalist theory with global events as few books do Emphasizes ways to interpret capitalist ideas in light of current global affairs Reframes

capitalism via economics supported by insights from political science sociology international relations and peace studies

**The Ideas That Conquered The World** Michael Mandelbaum, 2004-01-08 At the dawn of the twenty first century three ideas dominate the world peace as the preferred basis for relations between and among different countries democracy as the optimal way to organize political life and free markets as the indispensable vehicle for the creation of wealth While not practiced everywhere these ideas have for the first time in history no serious rivals And although the terrorist attacks of September 11 2001 were terrible and traumatic they did not change everything as so many commentators have asserted Instead these events served to illuminate even more brightly the world that emerged from the end of the Cold War In *The Ideas That Conquered the World* Michael Mandelbaum describes the uneven spread over the past two centuries of peace democracy and free markets from the wealthy and powerful countries of the world's core where they originated to the weaker and poorer countries of its periphery And he assesses the prospects for these ideas in the years to come giving particular attention to the United States which bears the greatest responsibility for protecting and promoting them and to Russia China and the Middle East in which they are not well established and where their fate will affect the rest of the world Drawing on history politics and economics this incisive book provides a clear and original guide to the main trends of the twenty first century from globalization to terrorism through the perspective of one of our era's most provocative thinkers

**National Museums** Simon Knell, Peter Aronsson, Arne Amundsen, 2014-05-22 *National Museums* is the first book to explore the national museum as a cultural institution in a range of contrasting national contexts Composed of new studies of countries that rarely make a showing in the English language studies of museums this book reveals how these national museums have been used to create a sense of national self place the nation in the arts deal with the consequences of political change remake difficult pasts and confront those issues of nationalism ethnicity and multiculturalism which have come to the fore in national politics in recent decades *National Museums* combines research from both leading and new researchers in the fields of history museum studies cultural studies sociology history of art media studies science and technology studies and anthropology It is an interrogation of the origins purpose organisation politics narratives and philosophies of national museums
