forward by the Third World's inability to maintain order and progress and the offer of a better life under white rule which they claimed to dislike so much. He was also one of the few to recognize the growing threat of militant Islam and warned in this book that it would become a major world force. Stoddard argued that the only way to avoid a worldwide racial catastrophe was to educate people on the issue of race and the need for racial improvement through eugenics. Finally, he concluded that the only way to achieve racial peace was to abandon the concept of white supremacy completely.
