Rising To The Challenge:

Rising to the Challenge Avery Goldstein, 2005 This book describes and explains the grand strategy China's leaders have adopted to pursue their country's interests in the international system of the 21st century *Rising to the Challenge* National Research Council, Policy and Global Affairs, Board on Science, Technology, and Economic Policy, Committee on Comparative National Innovation Policies: Best Practice for the 21st Century, 2012-08-06 America's position as the source of much of the world's global innovation has been the foundation of its economic vitality and military power in the post war No longer is U S pre eminence assured as a place to turn laboratory discoveries into new commercial products companies industries and high paying jobs As the pillars of the U S innovation system erode through wavering financial and policy support the rest of the world is racing to improve its capacity to generate new technologies and products attract and grow existing industries and build positions in the high technology industries of tomorrow *Rising to the Challenge* U S Innovation Policy for Global Economy emphasizes the importance of sustaining global leadership in the commercialization of innovation which is vital to America's security its role as a world power and the welfare of its people The second decade of the 21st century is witnessing the rise of a global competition that is based on innovative advantage To this end both advanced as well as emerging nations are developing and pursuing policies and programs that are in many cases less constrained by ideological limitations on the role of government and the concept of free market economics The rapid transformation of the global innovation landscape presents tremendous challenges as well as important opportunities for the United States This report argues that far more vigorous attention be paid to capturing the outputs of innovation the commercial products the industries and particularly high quality jobs to restore full employment America's economic and national security future depends on our succeeding in this endeavor *Rising to the Challenge* John E. Roueche, Suanne D. is a right that comes from God and cannot be taken away by government Since the 2006 publication of her New York Times bestseller *Tough Choices* former Hewlett Packard CEO Carly Fiorina has faced a new round of challenges She ran for the Senate as a Republican in deep blue California but was unable to unseat the entrenched incumbent She battled breast cancer wondering if she d even survive Worst of all she suffered the devastating loss of a beloved daughter Yet despite these setbacks and tragedies she remains undaunted I ve come to see lessons and blessings in these passages I know now that life is not measured in time Life is measured in love and positive contributions and moments of grace Now Fiorina shares the lessons she s learned from both her difficulties and triumphs Drawing on her experience as a pioneering business and nonprofit leader a politically active citizen and a parent she diagnoses the largest problem facing our country today untapped potential Too often American men and women are held back by systems that prevent them from working and flourishing Too many people lose hope for themselves Too many lack the opportunity to use their gifts and live lives of meaning dignity and purpose In 2014 Fiorina launched the Unlocking Potential Project a new grassroots organization to share a message with those who worry about America s future we have all the resources we need to prosper but we don t tap into them By ignoring conservative principles or failing to articulate those principles in ways that connect with regular people politicians have failed their constituents abandoning them to the crushing burden of our bloated government Fiorina believes that politics like business is primarily about people With warmth and compassion she provides a vision that reaches across the usual barriers of gender race income and party affiliation to craft a message that appeals to a wide range of Americans a message of hope As she learned facing life s challenges Hope is a curiously strong thing Her story and her ideas will restore hope to those discouraged about the future
