Secular Faith Vincent William Lloyd, Elliot A. Ratzman, 2011-01-01 Is faith a necessary virtue in the contemporary world May it be or must it be detached from religious commitment What do genealogies of the secular tell us about faith Does religion need secular faith Secular Faith brings together leading and emerging scholars to reflect on the apparent paradox of secular faith Ranging over anthropology religious studies political science history and literature from Muslims in China to Pentecostals in South Africa to a prison chapel in Texas this collection of essays is as engaging and accessible as it is penetrating and rigorous Communism was once labeled the god that failed Like Christianity Communism involves faith in a superhuman endeavor conversion myth discipline and salvation and from the perspective of secular liberalism both are unjustified and false In recent years scholars have begun to investigate whether secularism is itself based on faith in a god

that failed or is failing Nevertheless many still embrace such a faith finding in the spirit of democracy an ethos of eternal renewal Secular Faith enters and broadens this conversation interrogating secular faith in a global context tapping new theoretical resources and grappling provocatively with the tragedies and opportunities of today s profane pantheon of beliefs

A fascinating collection of essays commenting on and developing Frankenberg s IKEA theory of legal transfer With valuable theoretical analyses comparative studies attention to gender issues post colonial contexts imposed law and legal history this book is essential reading for anyone thinking about the circulation of legal models especially but not only in the area of constitutional law

David Nelken University of Cardiff UK Frankenberg s work gives a new insight of what comparative law can be in the context of globalization representing an outstanding achievement His theory of transfer supersedes the metaphors of mainstream scholarship displaying that constitutions are not mere commodities or items to be assembled The real matter is rather which meanings are generated through transfer In this way beyond any usual flat version we may perceive that any constitutional relocation exhibits a reappraisal of the whole world we live in

Pier Giuseppe Monateri University of Turin Italy

Constitutional orders and legal regimes are established and changed through the importing and exporting of ideas and ideologies norms institutions and arguments The contributions in this book discuss this assumption and address theoretical questions methodological problems and political projects connected with the transfer of constitutions and law Some of the chapters focus on the pathways risks and side effects of legal constitutional transfers in specific situations such as postcolonial societies and occupied territories Others follow law beyond the official arenas into systems of legal pluralism

while others analyze how experimentalism generates hybrid constitutional orders This interdisciplinary multi jurisdictional study will appeal to researchers academics and advanced students in the fields of comparative constitutional law comparative law and legal theory **Arranging Grief** Dana Luciano,2007-11 2008 Winner MLA First Book Prize Charting the

proliferation of forms of mourning and memorial across a century increasingly concerned with their historical and temporal significance Arranging Grief offers an innovative new view of the aesthetic social and political implications of emotion Dana Luciano argues that the cultural plotting of grief provides a distinctive insight into the nineteenth century American temporal imaginary since grief both underwrote the social arrangements that supported the nation s standard chronologies and sponsored other ways of advancing history Nineteenth century appeals to grief as Luciano demonstrates diffused modes of sacred time across both religious and ostensibly secular frameworks at once authorizing and unsettling established schemes of connection to the past and the future Examining mourning manuals sermons memorial tracts poetry and fiction by Harriet Beecher Stowe William Apess James Fenimore Cooper Catharine Maria Sedgwick Susan Warner Harriet E Wilson Herman Melville Frances E W Harper Frederick Douglass Abraham Lincoln Elizabeth Keckley and Ralph Waldo Emerson Luciano illustrates the ways that grief coupled the affective body to time Drawing on formalist Foucauldian and psychoanalytic criticism Arranging Grief shows how literary engagements with grief put forth ways of challenging deep seated cultural assumptions about history progress bodies and behaviors **State Theory and the Law** Vesting, Thomas,2022-03-17 There

has been renewed and growing interest in exploring the significant role played by law in the centralization of power and sovereignty right from the earliest point This timely book serves as an introduction into state theory providing an overview of the conceptual history and the interdisciplinary tradition of the continental European general theory of the state *The Logic of Sentiment* Kenneth Dauber,2019-11-14 The Logic of Sentiment is a study of sentimentality a literary mode that aims to answer the question What hold us together Against the grain of cultural studies which understands sentimentality as consolidating communities on the basis of material or historical foundations Kenneth Dauber takes a philosophical approach He argues that sentimentality is love conceptualized in denial of a skepticism understood as the problem of people s otherness to each other that material associations cannot dispel Through close readings in the style of ordinary language criticism Dauber analyzes mid 19th century American novels where sentimentality achieved its most complete articulation with a focus on three novels published nearly simultaneously Uncle Tom s Cabin The House of the Seven Gables and Pierre Referencing a wide range of philosophical and literary texts Dauber examines the response of sentimental writers to their growing awareness of love s lack of foundation the waywardness with which individuals dispose themselves as they succeed and fail in achieving a viable we The Logic of Sentiment traces the movement from sentimentality to realism the relation between epistemology and ethics and the kind of investments that writers attempt to solicit from their readers

Constitutional Theocracy Ran Hirschl,2010-11-01 At the intersection of two sweeping global trends the rise of popular

support for principles of theocratic governance and the spread of constitutionalism and judicial review a new legal order has emerged constitutional theocracy It enshrines religion and its interlocutors as a or the source of legislation and at the same time adheres to core ideals and practices of modern constitutionalism A unique hybrid of apparently conflicting worldviews values and interests constitutional theocracies thus offer an ideal setting a living laboratory as it were for studying constitutional law as a form of politics by other means In this book Ran Hirschl undertakes a rigorous comparative analysis of religion and state jurisprudence from dozens of countries worldwide to explore the evolving role of constitutional law and courts in a non secularist world Counterintuitively Hirschl argues that the constitutional enshrinement of religion is a rational prudent strategy that allows opponents of theocratic governance to talk the religious talk without walking most of what they regard as theocracy s unappealing costly walk Many of the jurisdictional enforcement and cooptation advantages that gave religious legal regimes an edge in the pre modern era are now aiding the modern state and its laws in its effort to contain religion The constitutional in a constitutional theocracy thus fulfills the same restricting function it carries out in a constitutional democracy it brings theocratic governance under check and assigns to constitutional law and courts the task of a bulwark against the threat of radical religion

Legal Theory and the Media of Law Thomas Vesting, 2018-02-23 As many disciplines in the humanities have experienced a focus on culture s impact in recent decades questions surrounding the significance of media such as writing print and computer networks have become increasingly relevant This book seeks to demonstrate that a media and cultural theory perspective can also be highly productive for legal theory

Subjectivity Transformed Thomas Vesting, 2023-11-28 This book provides a historically informed reconstruction of the social practices that have shaped the formation of the modern subject from the early modern period to the present The formal legal protections accorded to subjects are and always have been latent in social practices norms and language before they are articulated in formal legal orders Vesting argues that in Western societies legal personhood is closely tied to three ideal types of social personhood what he calls the gentleman the manager and Homo digitalis By examining these three ideal types and their emergence in society we can see that Western formal law does not bring these ideal types into being but on the contrary they arise from the social and cultural conditions that they generate and reflect Correspondingly Western legal personhood or legal subjectivity arises from the history and culture of Western nations not the other way around Therefore signature features of Western formal law particularly its valorization of the rights of persons whether natural or nonnatural come from the particular sociohistorical cultural developments that had already generated the strong ideas of social personhood inherent in the ideal types of the gentleman the manager and Homo digitalis *Subjectivity Transformed* is a major contribution to legal and social theory and with its original analysis of the formation of modern subjectivity it will be of interest to students and scholars throughout the social sciences and humanities
