Maritime Security and the Law of the Sea Natalie Klein, 2012-10-04 *Maritime Security and the Law of the Sea* examines the rights and duties of states across a broad spectrum of maritime security threats It provides comprehensive coverage of the different dimensions of maritime security in order to assess how responses to maritime security concerns are and should be shaping the law of the sea The discussion sets out the rules regulating passage of military vessels and military activities at sea law enforcement activities across the different maritime zones information sharing and intelligence gathering as well as armed conflict and naval warfare In doing so this book not only addresses traditional security concerns for naval power but also examines responses to contemporary maritime security threats such as terrorism weapons of mass destruction piracy drug trafficking environmental damage and illegal fishing While the protection of sovereignty and national interests remain fundamental to maritime security and the law of the sea there is increasing acceptance of a common interest that exists among states when seeking to respond to a variety of modern maritime security threats This book argues that security interests should be given greater scope in our understanding of the law of the sea in light of the changing dynamics of exclusive and inclusive claims to ocean use More flexibility may be required in the interpretation and application of the UN Convention on the Law of the Sea if appropriate responses to ensure maritime security are to be allowed

The Future of the Law of the Sea Gemma Andreone, 2017-03-30 This book is open access under a CC BY NC 4.0 license It explores the diverse phenomena which are challenging the international law of the sea today using the unique perspective of a simultaneous analysis of the national individual and common interests at stake This perspective which all the contributors bear in mind when treating their own topic also constitutes a useful element in the effort to bring today's legal complexity and fragmentation to a homogenous vision of the sustainable use of the marine environment and of its resources and also of the international and national response to maritime crimes The volume analyzes the relevant legal frameworks and recent developments focusing on the competing interests which have influenced State jurisdiction and other regulatory processes An analysis of the competing interests and their developments allows us to identify actors and relevant legal and institutional contexts retracing how and when these elements have changed over time

[Non-Traditional Security Issues and the South China Sea](#) Shicun Wu, Keyuan Zou, 2016-05-23 While there is abundant literature discussing non traditional security issues there is little mention of such

issues existing in the South China Sea This area is vulnerable to natural hazards and marine environmental degradation The marine ecosystem is threatened by various adverse sources including land based pollution busy shipping lanes and over exploitation activities which threaten the security of the surrounding population This area is also threatened by piracy and maritime crimes but law enforcement becomes difficult due to unclear maritime boundaries This volume is designed to explore the security cooperation and regional approaches to these non traditional security issues in the hope to build a peaceful environment and maintain international and regional security and order in the South China Sea region **The**

Oxford Handbook of the Law of the Sea Donald R. Rothwell,Alex G. Oude Elferink,Karen N. Scott,Tim Stephens,2015-03-26 Human activities have taken place in the world s oceans and seas for most of human history With such a vast number of ways in which the oceans can be used for trade exploited for natural resources and fishing as well as concerns over maritime security the legal systems regulating the rights and responsibilities of nations in their use of the world s oceans have long been a crucial part of international law The United Nations Convention on the Law of the Sea comprehensively defined the parameters of the law of the sea in 1982 and since the Convention was concluded it has seen considerable development This Oxford Handbook provides a comprehensive and original analysis of its current debates and controversies both theoretical and practical Written by over forty expert and interdisciplinary contributors the Handbook sets out how the law of the sea has developed and the challenges it is currently facing The Handbook consists of forty chapters divided into six parts First it explains the origins and evolution of the law of the sea with a particular focus upon the role of key publicists such as Hugo Grotius and John Selden the gradual development of state practice and the creation of the 1982 UN Convention It then reviews the components which comprise the maritime domain assessing their definition assertion and recognition It also analyses the ways in which coastal states or the international community can assert control over areas of the sea and the management and regulation of each of the maritime zones This includes investigating the development of the mechanisms for maritime boundary delimitation and the decisions of the International Tribunal for the Law of the Sea The Handbook also discusses the actors and intuitions that impact on the law of the sea considering their particular rights and interests in particular those of state actors and the principle law of the sea institutions Then it focuses on operational issues investigating longstanding matters of resource management and the integrated oceans framework This includes a discussion and assessment of the broad and increasingly influential integrated oceans management governance framework that interacts with the traditional law of the sea It considers six distinctive regions that have been pivotal to the development of the law of the sea before finally providing a detailed analysis of the critical contemporary issues facing the law of the sea These include threatened species climate change bioprospecting and piracy The Handbook will be an invaluable and thought provoking resource for scholars students and practitioners of the law of the sea *Asia-Pacific and the Implementation of the Law of the Sea* Seokwoo Lee,Warwick Gullett,2016-05-23 Asia Pacific and the Implementation of the Law of the Sea
