Submarine Commander Paul R. Schratz,1988-01-01 The author shares his war experiences his role in the Japanese surrender and his participation in the setting of a world s record for longest submerged voyage **The Royal Navy, China Station: 1864 - 1941** Jonathan Parkinson,2018-02-20 A definitive history of the Royal Navy s China Station In the The Navy List for April 1864 the China Station was first shown as a separate Royal Navy Station It remained as such until the outbreak of the Pacific War in December 1941 which was to signal the end of that era In addition to a precis of the lives and naval careers of each of the Commanders in Chief of the China Station this volume also gives relevant information outlining something of the concurrent internal affairs of China and Japan Both are very different but sad tales the former in decline towards the end of the Manchu Ch ing dynasty and then into the chaotic 1920 s and 1930 s and the latter increasingly adopting a militaristic attitude which was to result in their disaster of the Pacific War of 1941 1945 As a reminder of these days long gone are interwoven brief references to the British Consular Service This is especially relevant for China and for a shorter period for Japan during that era of extraterritoriality Mention is also made of the British Colonial Service with whom necessarily the Navy worked very closely In addition being one important reason for it all frequent references are made to a few British shipping and trading interests together with those of some other nations All of these areas are linked together to give a definitive history of this very important Royal Navy Station Torpedoes Away! Maxwell Hawkins,2018-11-16 Torpedoes Away details US Navy submarine operations during the first 18 months of World War Two Author Maxwell Hawkins breathlessly covers the tense dangerous missions of submarines USS Trout Sea Raven Pollack Skipjack Cuttlefish and others Between these first hand reports stitched together from interviews with crewmen Hawkins describes the mechanical workings of submarines as well as the history of submersibles beginning in the 17th Century He spent over a year sifting through the archives of the Navy Department and conducted extensive interviews with many veteran submariners about their experiences in the Pacific during World War Two The result is a classic study of underwater warfare a must read for military historians and World War 2 buffs Two Thousand Questions and Answers about the War Julius Washington Muller,1918 *Sea Devils* John Swinfield,2014-02-03 *Sea Devils* is a compelling account of pioneer submariners and their astonishing underwater contraptions Some made perilous voyages Others sank like stones Craft were propelled by muscle power or had steam engines with chimneys Some had wheels to trundle along the seabed Others were used as underwater aircraft carriers Here John Swinfield traces the history of early submarines and the personalities who built and sailed them From a plethora of madcap inventors emerged a bizarre machine that navies of the world reluctantly acquired but viewed with distaste It matured into a weapon that would usurp the mighty battleship which had for centuries enjoyed an unchallenged command of the oceans In its long and perilous history the submarine became subject to fierce business

military and political shenanigans It won eventual acceptance amidst the chaos and carnage of the First World War in which pathfinder submariners achieved an extraordinarily high tally of five Victoria Crosses Britain s highest military decoration Sea Devils brims with daring characters and their unflinching determination to make hazardous underwater voyages an immensely readable entertaining and authoritative chronicle of low cunning high politics wondrous heroism and appalling tragedy
