Cathedrals of Bone John C. Waldmeir, 2009-08-25 The metaphor of the Church as a body has shaped Catholic thinking since the Second Vatican Council Its influence on theological inquiries into Catholic nature and practice is well known less obvious is the way it has shaped a generation of Catholic imaginative writers *Cathedrals of Bone* is the first full length study of a cohort of Catholic authors whose art takes seriously the themes of the Council from novelists such as Mary Gordon Ron Hansen Louise Erdrich and J F Powers to poets such as Annie Dillard Mary Karr Lucia Perillo and Anne Carson to the Pulitzer Prize winning playwright John Patrick Shanley Motivated by the inspirational yet thoroughly incarnational rhetoric of Vatican II each of these writers encourages readers to think about the human body as a site perhaps the most important site of interaction between God and human beings Although they represent the body in different ways these late

twentieth century Catholic artists share a sense of its inherent value Moreover they use ideas and terminology from the rich tradition of Catholic sacramentality especially as it was articulated in the documents of Vatican II to describe that value In this way they challenge the Church to take its own tradition seriously and to reconsider its relationship to a relatively recent apologetics that has emphasized a narrow view of human reason and a rigid sense of orthodoxy

Common Threads Sally Dwyer-McNulty,2014-04-15 A well illustrated cultural history of the apparel worn by American Catholics Sally Dwyer McNulty s Common Threads reveals the transnational origins and homegrown significance of clothing

in developing identity unity and a sense of respectability for a major religious group that had long struggled for its footing in a Protestant dominated society often openly hostile to Catholics Focusing on those who wore the most visually distinct clothes priests women religious and schoolchildren the story begins in the 1830s when most American priests were foreign born and wore a variety of clerical styles Dwyer McNulty tracks and analyzes changes in Catholic clothing all the way through the twentieth century and into the present which finds the new Pope Francis choosing to wear plain black shoes rather than ornate red ones Drawing on insights from the study of material culture and of lived religion Dwyer McNulty demonstrates how the visual lexicon of clothing in Catholicism can indicate gender ideology age and class Indeed clothing itself has become a kind of Catholic language whether expressing shared devotional experiences or entwined with debates about education authority and the place of religion in American society

Textual Intimacy Wesley A. Kort, 2012-05-23 Given its affinity with questions of identity autobiography offers a way into the interior space between author and reader especially when writers define themselves in terms of religion In his exploration of this textual intimacy Wesley Kort begins with a theorization of what it means to say who one is and how one's self account as a religious person stands in relation to other forms of self identification He then provides a critical analysis of autobiographical texts by nine contemporary American writers including Maya Angelou Philip Roth and Anne Lamott who give religion a positive place in their accounts of who they are Finally in disclosing his own religious identity Kort concludes with a meditation on several meanings of the word assumption
