Baynton, 1998-04-22 *Forbidden Signs* explores American culture from the mid nineteenth century to 1920 through the lens of one striking episode the campaign led by Alexander Graham Bell and other prominent Americans to suppress the use of sign language among deaf people The ensuing debate over sign language invoked such fundamental questions as what distinguished Americans from non Americans civilized people from savages humans from animals men from women the natural from the unnatural and the normal from the abnormal An advocate of the return to sign language Baynton found that

although the grounds of the debate have shifted educators still base decisions on many of the same metaphors and images that led to the misguided efforts to eradicate sign language Baynton's brilliant and detailed history *Forbidden Signs* reminds us that debates over the use of dialects or languages are really the linguistic tip of a mostly submerged argument about power social control nationalism who has the right to speak and who has the right to control modes of speech Lennard J Davis *The Nation* *Forbidden Signs* is replete with good things Hugh Kenner *New York Times Book Review* *Signing the Body Poetic* Dirksen Bauman, Heidi Rose, Jennifer Nelson, 2006-12-20 This unique collection of essays accompanied by videos at last brings a dazzling view of the literary social and performative aspects of American Sign Language to a wide audience The book presents the work of a renowned and diverse group of deaf hard of hearing and hearing scholars who examine original ASL poetry narrative and drama The videos showcase the poems and narratives under discussion in their original form providing access to them for hearing non signers for the first time Together the book and videos provide new insight into the history culture and creative achievements of the deaf community while expanding the scope of the visual and performing arts literary criticism and comparative literature The videos may be viewed online at ucpress.edu/go/signingthebodypoetic **The Audible Past** Jonathan Sterne, 2003-03-13 Table of contents **Getting a Life** Sidonie Smith, Julia Watson, 1996 Various encounters helped us transform what was originally just a response to a trendy 1980s phrase Get A life into the pointed yet heterogeneous engagement with everyday practices that we believe this collection represents Papers submitted for the session on the everyday uses of autobiography at the Modern Language Association's convention in 1992 enabled us to connect with scholars around the country [Participant Empowerment Through Photo-elicitation in Ethnographic Education Research](#) Michael Lee Boucher, Jr., 2017-10-13 This volume gives scholars and students a working knowledge of the procedures challenges and benefits of using photo methods in their ethnographic work through studies by researchers who are currently using it The studies are both examples of exemplary scholarship and serve as tutorials on the procedures and methodological considerations of using this personal even intimate method These eight authors were asked to re open their carefully packed away studies disassemble the methods and the findings and reflect on the contents Like looking through old photo albums these reflective essays allowed us to have new conversations with different audiences Each chapter contains sections that penetratingly explain the research problem describe why photo methods were used for the study elucidate and reflect on the method summarize the findings and then examine participant empowerment through the method This unique structure is specifically designed to be used in masters and doctoral classrooms and with researchers looking for new methods or to strengthen their existing work The editors and authors believe that using photo methods can empower participants to become part of the research process Each author uses photo with the same goal to create rigorous science that has meaning for the participants **Handbook of Communication and People With Disabilities** Dawn O.
