Lennartz, Javier Martínez, 2022-04-07 Many new and fruitful avenues of investigation open up when scholars consider forgery as a creative act rather than a crime We invited authors to contribute work without imposing any restrictions beyond a willingness to consider new approaches to the subject of ancient fakes forgeries and questions of authenticity The result is this volume in which our aim is to display some of the many possibilities available to scholarship The exposure of fraud and

the pursuit of truth may still be valid scholarly goals but they implicitly demand that we confront the status of any text as a focal point for matters of belief and conviction Recent approaches to forgery have begun to ask new questions some intended purely for the sake of debate Ought we to consider any author to have some inherent authenticity that precludes the possibility of a forger's successful parody If every fake text has a real context what can be learned about the cultural circumstances which give rise to forgeries If every real text can potentially engender a parallel history of fakes what can this alternative narrative teach us What epistemological prejudices can lead us to swear a fake is genuine or dismiss the real thing as inauthentic Following *Splendide Mendax* and *Animo Decipiendi* this is the latest installment of an ongoing inquiry conducted by scholars in numerous countries into how the ancient world its literature and culture its history and art appears when viewed through the lens of fakes and forgeries sincerities and authenticities genuine signatures and pseudepigrapha How does scholarship tell the truth if evidence doesn't But *fabula docet* The *falsum* does not simply make the great annoying stone before the door of the truth otherwise this here would really be a council of antiquarians and paleographers The *falsum* makes a delicate fine tissue It allows the *verum* to shine through in nuances and reliefs that were less noticeable without its counterpart really tied at the head And treated differentiated it becomes even itself *perlucidum* shines out with hidden values

Oh! the Places I've Been EUGENE WEISBERGER, 2013-06-17 *Oh The Places I've Been* is another of the many travel books I have written in the last fifteen years It does not nearly cover the many countries I have visited but I thought the title would be a cute one nevertheless In the last four decades I have visited over sixty countries in six continents but this book will take you some interesting places which I missed writing about along the way I especially loved the little country of Wales which most travelers seem to miss along their way In thinking back about those fun places I especially liked California and the Hearst Castle and I would invite anyone who can take the time to visit there Yes it is true that it is not in the main stream of places to see but if you have traveled to the many popular places of the world take a few extra days and try to see the Hearst magical home

Looking at Greek Art Mark Stansbury-O'Donnell, 2011 *Looking at Greek Art* by Mark D Stansbury O'Donnell offers a practical guide to the methods for approaching analyzing and contextualizing an unfamiliar piece of Greek art It demonstrates how objects are dated and assigned to an artist or region how to interpret the subject matter and narrative how to reconstruct the context for which an object was made distributed and used and how we can explore broader cultural perspectives by looking at questions of identity gender and relationships to surrounding cultures Each section focuses on different theoretical approaches providing an overview of the theories key terms and required evidence Case studies serve to demonstrate each process and some key issues to consider when using a given approach This book explores a variety of media including terracotta metalwork and jewelry in addition to works found in major museum collections in the United States and Europe

The Architecture of Influence Amanda Reeser Lawrence, 2023-11-21 How do we create the new from the old *The Architecture of Influence* explores this fundamental question by analyzing a broad swath of twentieth

century architectural works including some of the best known examples of the architectural canon modern and postmodern through the lens of influence The book serves as both a critique of the discipline's long standing focus on genius and a celebration of the creative act of revisioning and reimagining the past It argues that all works of architecture not only depend on the past but necessarily alter rewrite and reposition the traditions and ideas to which they refer Organized into seven chapters Replicas Copies Compilations Generalizations Revivals Emulations and Self Repetitions the book redefines influence as an active process through which the past is defined recalled and subsequently redefined within twentieth century architecture

Seeing Theater Naomi A. Weiss, 2023-05-16 This is the first book to approach the visuality of ancient Greek drama through the lens of theater phenomenology Gathering evidence from tragedy comedy satyr play and vase painting Naomi Weiss argues that from its very beginnings Greek theater in the fifth century BCE was understood as a complex interplay of actuality and virtuality Classical drama frequently exposes and interrogates potential viewing experiences within the theatron literally the place for seeing Weiss shows how in so doing it demands distinctive modes of engagement from its audiences Examining plays and pottery with attention to the instability and ambiguity inherent in visual perception Seeing Theater provides an entirely new model for understanding this ancient art form

Housing in the Ancient Mediterranean World J. A. Baird, April Pudsey, 2022-07-21 One of the greatest benefits of studying the ancient Greek and Roman past is the ability to utilise different forms of evidence in particular both written and archaeological sources The contributors to this volume employ this evidence to examine ancient housing and what might be learned of identities families and societies but they also use it as a methodological locus from which to interrogate the complex relationship between different types of sources Chapters range from the recreation of the house as it was conceived in Homeric poetry to the decipherment of a painted Greek lekythos to build up a picture of household activities to the conjuring of the sensorial experience of a house in Pompeii Together they present a rich tapestry which demonstrates what can be gained for our understanding of ancient housing from examining the interplay between the words of ancient texts and the walls of archaeological evidence

Art in the Hellenistic World Andrew Stewart, 2014-10-06 What was Hellenistic art and what were its contexts aims achievements and impact This textbook introduces students to these questions and offers a series of answers to them Its twelve chapters and two focus sections examine Hellenistic sculpture painting luxury arts and architecture Thematically organized spanning the three centuries from Alexander to Augustus and ranging geographically from Italy to India and the Black Sea to Nubia the book examines key monuments of Hellenistic art in relation to the great political social cultural and intellectual issues of the time It is illustrated with 170 photographs mostly in color and many never before published and contextualized through excerpts from Hellenistic literature and inscriptions Helpful ancillary features include maps appendices with background on Hellenistic artists and translations of key documents a full glossary a timeline brief biographies of key figures suggestions for further reading and bibliographical references

Designing for Luxury on the Bay of Naples Mantha Zarmakoupi, 2014 This study explores Roman luxury villa lifestyle and architecture to shed light on the villas design as a dynamic process related to cultural social and environmental factors Through an analysis of five villas from around the bay of Naples it shows how the Romans developed a sophisticated interplay between architecture and landscape

Collecting and Provenance Jane Milosch, Nick Pearce, 2019-10-28 The study of provenance the history of the creation and ownership of an artefact work of art or specimen provides insights into the history of taste and collecting illuminating the social economic and historic trends in which an object was created and collected It is as much a history of people as it is of objects and its study often reveals intricate networks of relationships patterns of activity and motivations This book promotes the study of the history of collecting and collections in all their variety through the lens of provenance and explores the subject as a cross disciplinary activity Perhaps for the first time in a publication it draws on expertise ranging from art history and anthropology to natural history and law looking at periods from antiquity through the 18th century and the Holocaust era to the present and materials from Europe and the Americas to China and the Pacific The issues raised are wide ranging touching on aspects of authenticity cultural meaning and material transformation and economic and commercial drivers as well as collector and object biography The book fills a gap in the study of collecting and provenance taking the subject holistically and from multiple standpoints better to reflect the widening interest in provenance from a range of disciplinary perspectives This book will be a service to the field from established scholars and museum professionals to students of collecting history cultural heritage and museum studies

Housing the New Romans

Katharine T. von Stackelberg, Elizabeth Macaulay-Lewis, 2017 In the last twenty years reception studies have significantly enhanced our understanding of the ways in which Classics has shaped modern Western culture but very little attention has been directed toward the reception of classical architecture *Housing the New Romans Architectural Reception and Classical Style in the Modern World* addresses this gap by investigating ways in which appropriation and allusion facilitated the reception of Classical Greece and Rome through the requisition and redeployment of classicizing tropes to create neo Antique sites of dwelling in the 19th and early 20th centuries The volume across nine essays will cover both European and American iterations of place making including Sir John Soanes house in London the Hotel de Beauharnais in Paris and the Getty Villa in California By focusing on structures and places that are oriented towards private life houses hotels clubs tombs and gardens the volume directs the critical gaze towards diverse and complex sites of curatorial self fashioning The goal of the volume is to provide a multiplicity of interpretative frameworks e.g. object agency enchantment hyperreality memory infrastructure that may be applied to the study of architectural reception This critical approach makes *Housing the New Romans* the first work of its kind in the emerging field of architectural and landscape reception studies and in the hitherto textually dominated field of classical reception
