Sekem A Sustainable Community In The Egyptian Desert:

Sekem Ibrahim Abouleish, 2005 The Egyptian desert can be a hostile place Yet in 1977 Dr Ibrahim Abouleish founded a new agricultural and social settlement on seventy hectares of desert land in Belbes 60 km north east of Cairo The Sekem initiative was born Dr Abouleish's goals were to build a new type of community His vision was for a farm which grew biodynamic crops and plants out of the harsh desert sand Where the workers and residents were given holistic primary health care Where their children were well educated in the sciences A place which could sell its wares and be self sufficient and self sustaining A place where Islamic religion and Western technology could come together in harmony Nearly thirty years later and Sekem has gone from strength to strength In 1981 it shipped its first medicinal herbs to the USA by 2004 it oversaw a network of over 800 farms across Egypt and the Sudan producing high quality organic crops herbs fruits and vegetables Its mobile health units work with local rural populations and it has brought about real social change This is the story of Sekem the original vision the challenges and hard work and the eventual successes in Ibrahim Abouleish's own words Stunningly illustrated with colour photographs throughout **The Sekem Effect** HELMY. ARLT ABOULEISH (CHRISTINE.), Christine Arlt, 2025-05-29

When Dr Ibrahim Abouleish founded Sekem in 1977 his visionary aim was to create a new kind of sustainable community in the Egyptian desert where high quality biodynamic crops were grown where workers and residents received holistic healthcare and their children received a meaningful education In the years since Sekem has gone from strength to strength building an impressive network of farms across Egypt and Sudan and working with local populations to bring about real social change In this inspiring book Helmy Abouleish son of Dr Abouleish and Chief Executive of Sekem alongside Christine Arlt describes the next stage in the development of this innovative community Through a series of pioneering projects they set out their vision for an integrated transformation of Egyptian society in the coming decades in areas relating to ecology economics culture and social transformation Among them the provision of holistic education that recognises the potential of each person the promotion of sustainable agriculture and renewable energy to help Egypt become climate neutral the development of a recycling economy based on responsible consumption and a sustainable lifestyle a celebration of diversity that ensures equal opportunities for all Through its practical efforts Sekem and its community demonstrates how people the world over can feel empowered to shape their own society and develop confidence in the future

Urban Narratives: Exploring Identity, Heritage, and Sustainable Development in Cities Mohd Fairuz Shahidan, Gasim Hayder Ahmed Salih, Alessio Cardaci, Israa Hanafi Mahmoud, 2024-03-19 This book engages readers in an enlightening exploration of cities identities sustainability and urban development Delving into the intricate interplay between art architecture and the urban landscape it offers a compelling analysis of the factors that shape cities and their distinct personalities The volume uncovers captivating stories of cities as they navigate the delicate balance between heritage conservation and modernity It highlights innovative strategies employed to preserve historical sites while adapting to the

demands of a rapidly changing world Full of insightful discussions on the impact of cultural lifestyles the fusion of architectural styles and the challenges and triumphs of sustainable urban development it draws upon a diverse range of perspectives and research inviting architects urban planners and scholars to delve into the intricate nuances of cities identities in the process With its informative and engaging narrative this book provides a fresh perspective on cities identities and offers practical insights into shaping vibrant livable urban landscapes

Profits and Sustainability Geoffrey Jones, 2017-04-14 Are profits and sustainability compatible This book brings unique perspectives to this key debate by exploring the history of green entrepreneurship since the nineteenth century and its spread globally in industries including renewable energy organic food natural beauty ecotourism recycling architecture and finance The book uses the lens of the extraordinary and often eccentric men and women who defied convention and imagined that business could help save the planet rather than consume it The social and religious beliefs that drove many of these individuals are explored as the book looks at how they overcame huge obstacles to execute their strategies The green entrepreneurs seen here are shown to have created new markets and industries and driven innovations in sustainable practices even at times when most consumers and governments marginalized the entire subject The struggles of early pioneers appear to have been rewarded by the growth of environmental awareness among consumers business leaders and others in recent years but the Earth's environmental health continues to deteriorate If profits and sustainability have proved challenging to reconcile the book argues that one reason was how they were both defined

Integral Renewal Ronnie Lessem, Alexander Schieffer, 2016-03-09 In 2010 Ronnie Lessem and Alexander Schieffer published their seminal work on Integral Research and Innovation whereby they identified the four R's: relational and renewal, reason and realization, based research paths that altogether encompass the major qualitative research methods and methodologies Within each path they identified a trajectory from origination to transformation via foundation and emancipation However these paths underlying the research process conventionally termed method were disconnected from the integral economic and enterprise content conventionally termed literature with which they were concerned In this book Integral Renewal they seek to remedy such in two major respects As transformative masters and PhD programs are focused on the Global South where the vast majority of the world's population is based as well as those developmental agencies focused on such the great majority of the people with whom the authors deal select the relational research path and the path of renewal over and above the paths of reason and realization The focus of this book will be on these two paths of integral research now interconnected with integral enterprise and economics Uniquely the authors pursue research and innovation in a systematic way In that respect while their prior Integral Research book still provides the research foundation for the four

southern and eastern northern and western paths this book will focus on the former two relational southern and renewal eastern from the combined perspectives of research process and economic and enterprise content Integral Development Alexander Schieffer, Ronnie Lessem, 2016-05-23 Alexander Schieffer and Ronnie Lessem introduce a groundbreaking development framework and process to address the most burning issues that humanity faces While conventional top down outside in development has reached a cul de sac a new integral form of development is emerging around the world Integral Development uniquely articulates this emergent approach and invites us to fully participate in this process The integral approach has been researched and framed over decades of in depth experience in transformative development education and practice all over the world It uniquely combines four mutually reinforcing perspectives nature and community culture and spirituality science systems and technology and enterprise and economics Conventional development theory and practice has prioritized the latter two perspectives neglecting the former two This has caused massive imbalances in today s world The four interconnected perspectives allow for a transformative and integrated engagement with core development issues in a way that is locally relevant and globally resonant Throughout the practical impact of Integral Development is brought to life through highly innovative cases from around the globe drawing on the authors first hand experience This makes the book a living demonstration of the power of this pioneering approach Integral Development shows how individual organizational and societal developments need to be interconnected to release a society s full potential It shifts the responsibility for large scale development from often distant experts and organizations to each individual community enterprise and institution within the society It is essential reading and a call to action for everyone concerned with the current state of local and global development Ecology and Farming ,2003 The Business of Sustainable Development in Africa Ralph Hamann, Stu Woolman, Courtenay Sprague, 2008 This book is about enhancing the contribution of business to sustainable development in sub Saharan Africa with an emphasis on both challenges and opportunities Sub Saharan Africa is the only region in the world where the proportion of extremely poor people increased during the final decades of the previous century The overarching imperative to support Africa s poor in their quest for better livelihoods human rights and environmental integrity is a huge challenge and the business community has an important role to play The purpose of this book is to contribute to a better understanding of this role and its implications for decision makers in business as well as to some extent government and civil society Publisher s description □□□□□□□□□□ □□□□, 2008-03 The Publishers Weekly ,2006

galvanized my efforts in exploring and have continued to guide me in the 15 years of my retoolment The form of my daily triple entry in the spiritual diary at Sekem evolved from the initial inspiration of Edward FitzGerald's rendering of quatrains by Sufi poet Omar Khayyam Here's the best known of these A Book of Verses underneath the Bough A Jug of Wine a Loaf of Bread and Thou Beside me singing in the Wilderness Oh Wilderness were Paradise enow By following my pilgrim journey you'll see how I got from there to entry 90 A vast and mighty wind passed through My hair and eyes and mind I knew It was a moment only though Undimmed the flare unmuted blew The summons You that made me grow And want me to the world to show A tone a word what shiver shook The body soul and loved it so O blood tone of our ocean brook And pounding heart and lightning look If at this moment I should die There's none will say that I mistook What might all sighing justify The life lines that before you lie Inhale again the heaven blue Blest every breath west heading cry **"The Farthest Place"** Joseph Viscomi, 2010 Egypt's Desert Dreams David E. Sims, 2014 Desert Egypt history *Sustainable Agriculture in Egypt* Mohamed A. Faris, Mahmood Hasan Khan, 1993 Egypt's agricultural development has been constrained by among other factors the need to conserve scarce natural resources the pressures of rapid urbanisation the onslaught of the desert and not least important technological limitations and restrictive economic structures This book addresses the issues crucial to achieving and maintaining sustainable agriculture in Egypt Management and Development of Agricultural and Natural Resources in Egypt's Desert Ahmed A. Elkhoully, Abdelazim Negm, 2021-06-01 This book reviews the economic potential of various natural resources found in the Egyptian deserts that could help fill the food gap in Egypt e.g. the date palm olives and domestic animals Bearing in mind that the entire country is subject to arid or hyperarid climatic conditions only a small portion 3% of total area is agriculturally productive in comparison the dominant deserts These aspects combined with a growing population ca 100 million citizens and water resources scarcity have produced severe adverse effects on natural resource utilization This book presents innovative methods for addressing desert soil's key problems soil erosion salinity pollution decreased fertility minerals and weed and pest control Its goal is to help authorities reclaim the desert and optimally utilize the minerals and the available natural resources to support the sustainability agenda 2030 Besides it offers researchers guidance on remaining gaps and future research directions Lastly and importantly it provides essential information on investment opportunities in desert cultivation such as the fields of food fodder and medicinal plants
