was dominant in the formation of the South as a region Craven sees as crucial the middle period of the seventeenth century Out of the political and social unrest which characterized these years emerged the points of view which gave shape to the American and the Southern tradition **Empire, Religion and Revolution in Early Virginia, 1607-1786** J.

transatlantic chain of supply and consumption It considers changing fashion in England the growing demand for fur at a time when the Russian fur trade was in decline examines native North Americans and their trading and other exchanges with colonists and explores the nature of colonial society including the commercial ambitions of a varied range of investors As such it outlines the intense rivalry which existed between different colonies and colonial interests Although the book argues that fur never supplanted tobacco as the region s principal export noting that the trade declined as new more profitable sources of supply were opened up nevertheless the case of the Chesapeake fur trade provides an excellent example of how different elements in a new transatlantic enterprise fitted together and had a profound impact on each other peake fur trade provides an excellent example of how different elements in a new transatlantic enterprise fitted together and had a profound impact on each other peake fur trade provides an excellent example of how different elements in a new transatlantic enterprise fitted together and had a profound impact on each other **A Law Librarian's Introduction to Virginia State Publications** ,1981 **History News** ,1957 National Union Catalog ,1956 Includes entries for maps and atlases *Paperbound Books in Print* ,1971-07
