The Art of Public Speaking J.D. Rockefeller,2015-12-01 Public speaking has become an important aspect of almost every job these days You may have to make a presentation in front of your colleagues or your clients You may have to teach important aspects of a subject to a student audience Or you just may have to make a speech on a social occasion Whatever the occasion and the scenario the fact remains we all have to master the art of public speaking It is quite possible that you are a novice who just wants to make a good impression on the audience while making your first presentation or speech It is also possible that you are so scared of standing up in front of an audience facing them and then make a presentation On the other hand it is also possible that you have given a public speech in the past but failed miserably at least you think so

Whatever the situation the fact is that you need some excellent guidance on how you can actually prepare for a presentation and make a good impression on your audience It doesn't matter whether your audience is a small group of trainees or a very important client This is where this guide can help you out The guide will help you understand the important aspects of public speaking things you should consider while preparing your speech or presentation what you can use to make an indelible impression on the audience and if you have a fear of going up on a stage how you can overcome this phobia So let's get started and become a master public speaker *The Public*, 1902
