Managing Transitions The Chinese Communist Party Unites Front Work Corporatism And Hegemony:

Managing Transitions Gerry Groot, 2004-02-24 *Managing Transitions* examines the history and roles of China's minor parties and groups (MPGs) in the Chinese Communist Party's (CCP) united front between the 1930s and 1990s using Antonio Gramsci's principles for the winning and maintaining of hegemony. Gramsci advocated a war of position: the building of political alliances to isolate existing state powers and win consent for revolutionary rule and transform society. Economic reform is now creating new socio-economic groups and the CCP is adjusting the united front and the MPGs to co-opt their representatives and deliberately forestall the evolution of an autonomous civil society and middle class which could challenge CCP rule. This has resulted in a new and expanding role for the united front: the MPGs and organisations representing the new interest groups.

The Communist Party of China's United Front Work in the Gulf Mohammed Al-Sudairy, 2018-03-01 The report examines the United Front activities undertaken by the Communist Party of China towards Saudi Overseas Chinese in the Kingdom of Saudi Arabia, estimated to be anywhere between 150,000 and 180,000. It introduces the concept of the United Front as it relates to Chinese politics and foreign relations, examining both its historical evolution and contemporary applications. The report then explores the ways in which United Front activities have been carried out in the Saudi context and specifically with respect to the Sinophone Muslim Hui and Turkestanian Uyghur, Uzbek and Kazakh clusters constituting the Saudi Overseas Chinese community. Finally, it considers in connection to ongoing global debates on the issue of the United Front whether these United Front activities can be seen as a potential political problem for Sino-Saudi and perhaps even Sino-Gulf relations overall.

China's New United Front Work in Hong Kong Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong. Mainland Chinese penetrative politics can be seen in the activities of local pro-Beijing political parties, clans and neighborhood associations, labor unions, women and media organizations, district federations and some religious groups. However, united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post-materialistic and uphold their core values of human rights, the rule of law and transparency. China's new united front work in Hong Kong has been influenced by its domestic turn toward hard authoritarianism, making Beijing see Hong Kong's democratic activists and radicals as political enemies. Hong Kong's one country two systems is drifting toward one country two mixed systems with some degree of convergence. Yet Taiwan and some foreign countries have seen China's united front work as politically destabilizing and penetrative. This book will be of use to scholars, journalists and observers in other countries seeking to reckon with Chinese influence.

volume This work stands out for its long term and multiscale approach offering complex and nuanced insights eschewing any Party grand narrative and unravelling underlying trends and logics composed of adaption but also contradictions resistance and sometimes setbacks that may be overlooked when focusing on the short term Rather than putting forward an overall argument about the nature of the Party the many perspectives presented in this volume highlight the complex internal dynamics of the Party the diversity of its roles in relation to the state as well as in its interaction with society beyond the state Our historical approach stresses impermanence beyond the apparent permanence of the Party s organisation and ideology while also bringing to light the recycling of past practices and strategies Looking at the Party s evolution over time shows how its founding structures and objectives have had a long lasting impact as well as how they have been tweaked and rearranged to adapt to the new economic and social environment the Party contributed to creating *Managing Transitions* Gerry Groot,1997 Examines the history and roles of China s minor parties and groups MPGs in the Chinese Communist Party s united front between the 1930s and 1990s using Antonio Gramsci s principals for the winning and maintaining of hegemony

China's Party Congress Guoguang Wu,2015-09-18 Nominally the highest decision making body in the Chinese Communist Party the Party Congress is responsible for determining party policy and the selection of China s leaders Guoguang Wu provides the first analysis of how the Party Congress operates to elect Party leadership and decide Party policy and explores why such a formal performance of congress meetings delegate discussions and non democratic elections is significant for authoritarian politics more broadly Taking institutional inconsistency as the central research question this study presents a new theory of mutual contextualization to reveal how informal politics and formal institutions interact with each other Wu argues that despite the prevalence of informal politics behind the scenes authoritarian politics seeks legitimization through a combination of political manipulation and the ritual mobilization of formal institutions This ambitious book is essential reading for all those interested in understanding contemporary China and an innovative theoretical contribution to the study of comparative politics

Constitutional Asymmetry in Multinational Federalism Patricia Popelier, Maja Sahadžić, 2019-02-18 This edited volume examines the link between

constitutional asymmetry and multinationalism in multi tiered systems through a comprehensive and rigorous comparative analysis covering countries in Europe Africa and Asia Constitutional asymmetry means that the component units of a federation do not have equal relationships with each other and with the federal authority In traditional federal theories this is considered an anomaly The degree of symmetry and asymmetry is seen as an indicator of the degree of harmony or conflict within each system Therefore symmetrisation processes tend to be encouraged to secure the stability of the political system However scholars have linked asymmetry with multinational federalism presenting federalism and asymmetry as forms of ethnical conflict management This book offers insights into the different types of constitutional asymmetry the factors that stimulate symmetrisation and asymmetrisation processes and the ways in which constitutional asymmetry is linked with multinationalism
