

# PRINCIPLES AND METHODS OF TEACHING ACCOUNTING

## Introduction

Understanding teaching starts from developing a viable concept of teaching that goes beyond analysing teaching methodology and describing various activities that go into the process. Traditionally, it has been taken to mean everything that a teacher does in the classroom. Lately, however, there has been accepted new notions about teaching that include a thorough understanding of what teaching is and what implications it gives on the act of teaching itself. For that matter, educators, in particular, realize the need for investigating the facets of teaching with the end in view of improving it.
