Metropolis of Metaphorical Intimations Paul Etienne Lincoln, 2003 *From Floor to Sky* Hester Westley, Peter Kardia, Malcolm Le Grice, 2010-02-12 A fully illustrated retrospective of British sculpture over the past 30 years

Re-Inventing the Postcolonial (in the) Metropolis Cecile Sandten, Annika Bauer, 2016-09-27 The notion of the postcolonial metropolis has gained prominence in the last two decades both within and beyond postcolonial studies Disciplines such as sociology and urban studies however have tended to focus on the economic inequalities class disparities and other structural and formative aspects of the postcolonial metropolises that are specific to Western conceptions of the city at large It is only recently that the depiction of postcolonial metropolises has been addressed in the writings of Suketu Mehta Chris Abani Amit Chaudhuri Salman Rushdie Aravind Adiga Helon Habila Sefi Atta and Zakes Mda among others Most of these works probe the urban specifics and physical and cultural topographies of postcolonial cities while highlighting their agential capacity to defy appropriate and abrogate the superimposition of theories of Western modernity and urbanism These ASNEL Papers are all concerned with the idea of the postcolonial in the metropolis from various disciplinary viewpoints as drawn from a great range of cityscapes spread out over five continents The essays explore on the one hand ideas of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation and on the other the possibility of transforming reinventing and reconfiguring the postcolonial condition in and through literary texts and visual narratives In this context the volume covers a broad spectrum of theoretical and thematic approaches to postcolonial and metropolitan topographies and their depictions in writings from Australia and New Zealand South Africa South Asia and greater Asia as well as the UK addressing issues such as modernity and market economies but also caste class and social and linguistic aspects At the same time they reflect on the postcolonial metropolis and postcolonialism in the metropolis by concentrating on an urban imaginary which turns on notions of spatial subdivision and inequality political repression social discrimination economic exploitation and cultural alienation as the continuing postcolonial condition **German**

Hudson, 2019-08-21 Methods of visualising modernity and capitalism have been central to classical social science Those methods of seeing specifically in the work of Marx were attempts to capture visually the fragmenting edifice of capital in its death throes and were part of a project to hasten its demise yet capitalism persisted and perpetuated itself in new forms such that its demise now looks less likely than it did 150 years ago This book argues for a new way of understanding Marx and a new way of approaching both capitalist modernity and Marx's Capital by rethinking the nature of vision Through studies of visualisation in relation to machines and the monstrous memory mirrors and optics and the invisible Visualising the Empire of Capital offers a new way of thinking about what capital is and its future A new reading of and against Marx this volume

argues for new forms of sensual utopia while initiating antagonism to the empire of capital itself As such it will appeal to social theorists social anthropologists and sociologists with interests in critical theory visual culture and aesthetics

Sensory Experience and the Metropolis on the Jacobean Stage (1603-1625) Hristomir A. Stanev, 2016-04-01 At the turn of the seventeenth century Hristomir Stanev argues ideas about the senses became part of a dramatic and literary tradition in England concerned with the impact of metropolitan culture Drawing upon an archive of early modern dramatic and prose writings and on recent interdisciplinary studies of sensory perception Stanev here investigates representations of the five senses in Jacobean plays in relationship to metropolitan environments He traces the significance of under examined concerns about urban life that emerge in micro histories of performance and engage the in voluntary and sometimes pre rational participation of the five senses With a dominant focus on sensation he argues further for drama s particular place in expanding the field of social perception around otherwise less tractable urban phenomena such as suburban formation environmental and noise pollution epidemic disease and the impact of built in city space The study focuses on ideas about the senses on stage but also to the extent possible explores surviving accounts of the sensory nature of playhouses The chapters progress from the lower order of the senses taste and smell to the higher hearing and vision before considering the anomalous sense of touch in Platonic terms The plays considered include five city comedies a romance and two historical tragedies playwrights whose work is covered include Shakespeare Jonson Webster Fletcher Dekker and Middleton Ultimately Stanev highlights the instrumental role of sensory flux and instability in recognizing the uneasy manner in which the London writers and perhaps many of their contemporaries approached the rapidly evolving metropolitan environment during the reign of King James I

Atlantic Republic Paul Giles,2006-11-23 Atlantic Republic traces the legacy of the United States both as a place and as an idea in the work of English writers from 1776 to the present day Seeing the disputes of the Reformation as a precursor to this transatlantic divide it argues that America has operated since the Revolution as a focal point for various traditions of dissent within English culture By ranging over writers from Richard Price and Susanna Rowson in the 1790s to Angela Carter and Salman Rushdie at the turn of the twenty first century the book argues that America haunts the English literary tradition as a parallel space where ideology and aesthetics are configured differently Consequently it suggests many of the key episodes in British history parliamentary reform in the 1830s the imperial designs of the Victorian era the twentieth century conflict with fascism the advance of globalization since 1980 have been shaped by implicit dialogues with American cultural models Rather than simply reinforcing the benign myth of a special relationship Paul Giles considers how various English

writers over the past 200 years have engaged with America for various complicated reasons its promise of political republicanism Byron Mary Shelley its emphasis on religious disestablishment Clough Gissing its prospect of pastoral regeneration Ruxton Lawrence its vision of scientific futurism Huxley Ballard The book also analyses the complex cultural relations between Britain and the United States around the time of the Second World War suggesting that writers such as Wodehouse Isherwood and Auden understood the United States and Germany to offer alternative versions of the kind of technological modernity that appeared equally hostile to traditional forms of English culture The book ends with a consideration of ways in which the canon of English literature might appear in a different light if seen from a transnational rather than a familiar national perspective

The Atlantic Enlightenment Francis D. Cogliano, 2017-03-02 Transatlantic studies especially during the enlightenment period is of increasing critical interest amongst scholars But was there an Atlantic Enlightenment This interdisciplinary collection harnesses the work of some of the most prominent figures in the fields of literature intellectual cultural and social history geography and political science to examine the emergence of the Atlantic as one of the key conceptual paradigms of eighteenth century studies In this spirit the contributors offer new insights into the conditions that generated a major transatlantic genre of writing addressing questions of race political economy and the transmission of Enlightenment ideas in literary political historical and religious contexts Whether examining John Witherspoon s evolution from Calvinist theologian to Revolutionary theorist or Adam Smith s reception in the antebellum United States the essays remind us that the transatlantic traffic in ideas moved from west to east from east to west and in patterns that both complicate and enrich what we thought we knew about the vectors of transmission in this pivotal period
