Metropolitan Museum of Art (New York, N.Y.), Charles S. Moffett, 1985 A Global History of Pre-Modern Warfare Kaushik Roy, 2021-09-14 This book examines the military histories of the regions beyond Western Europe in the pre modern era Existing works on global military history mainly focus on the western part of Eurasia after 1500 CE As regards the ancient period such works concentrate exclusively on Greece and Rome So global military history is actually the triumphal story of the West from Classical Greece onwards This volume focuses not only on the eastern part of Eurasia but also on South America Africa and Australasia and seeks to explain the history and varied trajectories of warfare in non Western regions in the pre modern era Further it evaluates whether warfare in non Western regions should be considered primitive or inferior when compared with Western warfare The book notes that Western Europe became militarily significant only in the early modern era and argues that the military divergence that occurred during the early modern era is not unique it had also occurred in the Bronze Age the Classical era and in the medieval period This was due to the dynamism and innovativeness of non Western militaries and the interconnectedness that existed in parts of the Eurasian landmass Further those polities which were able to construct a balanced military force by synthesising diverse elements were not only able to survive but also became capable of projecting power across continents This book will be of much interest to students of military history strategic studies and world history Annual Egyptological Bibliography, Volume 27, 2023-09-25 **Catalog of Copyright**

draws on his three great passions philosophy psychology and art to present an illuminating theory of the very experience of art He shows how to unlock the meaning of a painting by retrieving almost reenacting the creative activity that produced it In order to fully appreciate a work of art Wollheim argues critics must bring a much richer conception of human psychology than they have in the past This classic book points the way to discovering what is most profound and subtle about paintings by major artists such as Titian Bellini and de Kooning *Impressionism* Anne Distel, Michel Hoog, Charles S. Moffett, Metropolitan Museum of Art (New York, N.Y.), 1974 Masterpieces of European Painting, 1800-1920, in the Metropolitan Museum of Art Metropolitan Museum of Art (New York, N.Y.), Kathryn Calley Galitz, 2007 *Bulletin of Bibliography & Magazine Notes*, 1974 **Egyptian Art in the Age of the Pyramids** Metropolitan Museum of Art (New York, N.Y.), 1999 The Egyptian Old Kingdom c 2650 2150 BC was an era of extraordinary artistic achievement the period that gave us the Sphinx and the pyramids as well as a rich legacy of private tombs wall paintings reliefs statuary jewelry and decorative arts This book the companion volume to a major traveling exhibition organized by New York's Metropolitan Museum of Art and the Louvre in Paris showcases the most impressive assemblage of Egyptian art and artifacts since the Tutankhamun exhibition of the late 1970s Scholarly essays and 650 illustrations bring to life a remarkable panoply of Old Kingdom objects temple and tomb reliefs striking gold jewelry handsome stone vessels monumental statues stelae and exquisite statuettes Together text and images create a stunning tribute to the world of the Pharaohs Publisher's description

**A Social History of Museums** Kenneth Hudson,1975-06-18 *History of civilizations of Central Asia* Adle, Chahryar,Baipakov, Karl M.,Habib, Irfan,UNESCO,2003-12-31 The period treated in this volume is highlighted by the slow retreat of nomadism and the progressive increase of sedentary polities owing to a fundamental change in military technology Furthermore this period certainly saw a growing contrast in the pace of economic and cultural progress between Central Asia and Europe The internal growth of the European economies and the influx of silver from the New World gave Atlantic Europe an increasingly important position in world trade and caused a major shift in inland Asian trade Thus 1850 marks the end of the total sway of pre modern culture as the extension of colonial dominance was accompanied by the influx of modern ideas

History and Material Culture Karen Harvey,2013-02-01 Sources are the raw material of history but where the written word has traditionally been seen as the principal source today historians are increasingly recognizing the value of sources beyond text In History and Material Culture Karen Harvey embarks upon a discussion about material culture considering objects often those found surrounding us in day to day life as sources which can help historians develop new interpretations and new knowledge about the past Across ten chapters different historians look at a variety of material sources from around the globe and across centuries to assess how such sources can be used to study history While the sources are discussed from interdisciplinary perspectives each contributor examines how material culture can be approached from an historical viewpoint and each chapter addresses its theme or approach in a way accessible to readers without expertise in the area In her introduction Karen Harvey discusses some of the key issues raised when historians use material culture and suggests some basic steps for those new to these kinds of sources Opening up the discipline of history to new approaches and introducing those working in other disciplines to historical approaches this book is the ideal introduction to the opportunities and challenges of researching material culture

The China Collectors Karl E. Meyer,Shareen Blair Brysac,2025-06-25 Thanks to Salem sea captains Gilded Age millionaires curators on horseback and missionaries gone native North American museums now possess the greatest collections of Chinese art outside of East Asia itself How did it happen The China Collectors is the first full account of a century long treasure hunt in China from the Opium Wars and the Boxer Rebellion to Mao Zedong s 1949 ascent The principal gatherers are mostly little known and defy invention They included foreign devils who braved desert sandstorms bandits and local warlords in acquiring significant

works Adventurous curators like Langdon Warner a forebear of Indiana Jones argued that the caves of Dunhuang were already threatened by vandals thereby justifying the removal of frescoes and sculptures Other Americans include George Kates an alumnus of Harvard Oxford and Hollywood who fell in love with Ming furniture The Chinese were divided between dealers who profited from the artworks removal and scholars who sought to protect their country's patrimony Duanfang the greatest Chinese collector of his era was beheaded in a coup and his splendid bronzes now adorn major museums Others in this rich tapestry include Charles Lang Freer an enlightened Detroit entrepreneur two generations of Rockefellers and Avery Brundage the imperious Olympian and Arthur Sackler the grand acquirer No less important are two museum directors Cleveland's Sherman Lee and Kansas City's Laurence Sickman who challenged the East Coast's hegemony Shareen Blair Brysac and Karl E Meyer even handedly consider whether ancient treasures were looted or salvaged and whether it was morally acceptable to spirit hitherto inaccessible objects westward where they could be studied and preserved by trained museum personnel And how should the US and Canada and their museums respond now that China has the means and will to reclaim its missing patrimony
