"The Uses of Excess in Visual and Material Culture, 1600-2010 " Julia Skelly, 2017-07-05 Directing unprecedented attention to how the idea of excess has been used by both producers and consumers of visual and material culture this collection examines the discursive construction of excess in relation to art material goods and people in various global contexts The contributors illuminate how excess has been perceived quantified and constructed revealing in the process how beliefs about excess have changed over time and how they have remained consistent The collection as a whole underscores the fact that the concept of excess must always be considered critically whether in scholarship or in lived experience Although the idea of excess has often been used to shame and degrade many of the essays in this collection demonstrate how it has also been used as a strategy for self fashioning transgression and empowerment particularly by women and queer subjects This volume examines a range of material including diamonds ceramics paintings dollhouses caricatures interior design and theatrical performances Each case study sheds new light on how excess was used in a specific cultural context including canonical sites of study such as the Netherlands in the eighteenth century Victorian Britain and Paris in the 1920s and under studied contexts such as Canada and Sweden

The Caesar of Paris Susan Jaques, 2018-12-04 Napoleon is one of history's most fascinating figures But his complex relationship with Rome both with antiquity and his contemporary conflicts with the Pope and Holy See have undergone little examination In The Caesar of Paris Susan Jaques reveals how Napoleon's dueling fascination and rivalry informed his effort to turn Paris into the new Rome Europe's cultural capital through architectural and artistic commissions around the city His initiatives and his aggressive pursuit of antiquities and classical treasures from Italy gave Paris much of the classical beauty we know and adore today Napoleon had a tradition of appropriating from past military greats to legitimize his regime Alexander the Great during his invasion of Egypt Charlemagne during his coronation as emperor even Frederick the Great when he occupied Berlin But it was ancient Rome and the Caesars that held the most artistic and political influence and would remain his lodestars Whether it was the Arc de

Triomphe the Venus de Medici in the Louvre or the gorgeous works of Antonio Canova Susan Jaques brings Napoleon to life as never before

The Lithic Garden Mailan S. Doquang, 2018-01-11 The Lithic Garden offers innovative perspectives on the role of ornament in medieval church design Focusing on the foliate friezes articulating iconic French monuments such as Amiens Cathedral it demonstrates that church builders strategically used organic motifs to integrate the interior and exterior of their structures thus reinforcing the connections and distinctions between the entirety of the sacred edifice and the profane world beyond its boundaries With this exquisitely illustrated monograph Mailan S Doquang argues that contrary to widespread belief monumental flora was not just an extravagant embellishment or secondary byproduct but a semantically charged critical design component that inflected the stratified spaces of churches in myriad ways By situating the proliferation of foliate friezes within the context of the Crusades The Lithic Garden provides insights into the networks of exchange between France Byzantium and the Levant contributing to the global turn in art and architectural History
