Metternich The Passionate Diplomat:

Metternich, the Passionate Diplomat Barbara Cartland, 1974 *Metternich* Wolfram Siemann, 2019-11-01 Wolfram Siemann tells a new story of Clemens von Metternich the Austrian at the center of nineteenth century European diplomacy Known as a conservative and an uncompromising practitioner of realpolitik in fact Metternich accommodated new ideas of liberalism and nationalism insofar as they served the goal of peace And he promoted reform at home Metternich Alan Palmer, 2014-06-12 A glib assessment of Metternich might not be a favourable one he was not without his ridiculous qualities and yet he survived more than survived in fact with the Age of Metternich lasting for more than a generation and giving Europe a measure of peace albeit repressive that was much needed after the Napoleonic convulsions Alan Palmer describes well Metternich's extraordinary longevity Clement von Metternich held continuous office at the head of Europe's affairs for a longer period of time than any other statesman in modern history he became foreign minister of the Austrian Empire in the autumn of 1809 and he did not resign until the spring of 1848 For thirty three of these thirty nine years his statecraft and philosophy of government determined the political pattern of the continent The Age of Metternich though often impatiently dismissed by historians as a mere interlude lasted for twice as long as the Age of Napoleon which preceded it and for half as long again as the Age of Bismarck which followed in the closing decades of the century Metternich was a statesman to his fingertips practising the skills of diplomacy with greater fluency than any contemporary Talleyrand from whom he had learnt many of the refinement of the game How would he fare today Probably quite well as he was again in Alan Palmer's words an early champion of federalism and a good European As a work of history it cannot be faulted A J P Taylor Observer Well written well researched lucid and witty Philip Ziegler The Times Russia and Eastern Europe, 1789-1985 Raymond Pearson, 1989 **Women Writers of Great Britain and Europe** Katharina M. Europe on the Path to Self-Destruction Jack L. Schwartzwald, 2022-07-27 Between the years 1815 and 1945 Europe achieved unrivaled global dominance only to see it shattered by two world wars This frenetic rise and fall was attended by immense societal change In 1815 Europe remained largely agricultural and dependent upon horsepower By 1945 the power of the atom had been unleashed Two industrial revolutions occurred in the interim the first founded upon coal iron and steam the second upon oil steel electricity and internal combustion The implications for humanity were profound This concise yet comprehensive study is divided into three sections In section one the map of Europe emerges in its modern visage as unrestrained nationalist fervor gives rise to an assemblage of new nation states In section two the continent attains global hegemony as massive industrialization fuels a mad scramble for colonial markets and raw materials In section three a cauldron of national ethnic and class hatreds spawn the rise of totalitarianism and the overthrow of European hegemony in two calamitous world wars By tracing the events and undercurrents of this vital period in European history this book offers trenchant insights for the lay reader and the student of history alike
