Mexican Contemporary World Design Paperback:

Mexican Contemporary Herbert J. M. Ypma, 1997 Modern Mexico is a fantastically fertile breeding ground for contemporary architecture and design The nation is an exotic sensual mix of cultural influences The mysterious monolith architecture of **Contemporary Mexican Design and Architecture** Khristaan Villela, Ellen Bradbury, Logan Wagner, 2002 Representative homes built by 12 architects working in Mexico are profiled with text and numerous color photographs Modernism as well as the natural and human environment of Mexico influences all the architects profiled Categorized under the headings colorists personal visions and functionalists the profilees include Jorge Robles Agustin Hernandez Abraham Zambludovsky Isaac Broid Carlos Santos Maldonado and J B Johnson Also included is an introductory chapter that discusses the history of Mexican design from the Aztecs to the Modernists Annotation copyrighted by Book News Inc Portland OR *Year Book ... of the American Society of Bookplate Collectors and Designers*, 1923 *Year Book of the American Society of Bookplate Collectors and Designers* American Society of Bookplate Collectors and Designers, 1923 *Designing Worlds* Kjetil Fallan, Grace Lees-Maffei, 2016-06-01 From consumer products to architecture to advertising to digital technology design is an undeniably global phenomenon Yet despite their professed transnational perspective historical studies of design have all too often succumbed to a bias toward Western industrialized nations This diverse but rigorously curated collection recalibrates our understanding of design history reassessing regional and national cultures while situating them within an international context Here contributors from five continents offer nuanced studies that range from South Africa to the Czech Republic all the while sensitive to the complexities of local variation and the role of nation states in identity construction Local Histories/Global Designs Walter D. Mignolo, 2000-01-17 This book is an extended argument on the coloniality of power by one of the most innovative scholars of Latin American studies In a shrinking world where sharp dichotomies such as East West and developing developed blur and shift Walter Mignolo points to the inadequacy of current practice in the social sciences and area studies He introduces the crucial notion of colonial difference into study of the modern colonial world He also traces the emergence of new forms of knowledge which he calls border thinking Further he expands the horizons of those debates already under way in postcolonial studies of Asia and Africa by dwelling in the genealogy of thoughts of South Central America the Caribbean and Latino as in the United States His concept of border gnosis or what is known from the perspective of an empire's borderlands counters the tendency of occidental perspectives to dominate and thus limit understanding The book is divided into three parts the first chapter deals with epistemology and postcoloniality the next three chapters deal with the geopolitics of knowledge the last three deal with the languages and cultures of scholarship Here the author reintroduces the analysis of civilization from the perspective of globalization and argues that rather than one civilizing process dominated by the West the continually emerging subaltern voices break down the dichotomies characteristic of any cultural imperialism By underscoring the fractures between globalization and

mundialization Mignolo shows the locations of emerging border epistemologies and of post occidental reason In a new preface that discusses Local Histories Global Designs as a dialogue with Hegel s Philosophy of History Mignolo connects his argument with the unfolding of history in the first decade of the twenty first century *Local Histories/global Designs* Walter Mignolo,2012-08-26 Local Histories Global Designs is an extended argument about the colonality of power In a shrinking world where sharp dichotomies such as East West and developing developed blur and shift Walter Mignolo points to the inadequacy of current practices in the social sciences and area studies **Ancient Mexican Designs** Marty Noble,2004-09-01 This intriguing collection of designs adapted from Mayan Aztec and Mesoamerican works includes powerful images of gods kings warriors mythical creatures and a variety of abstractions Engrossing illustrations for coloring book enthusiasts of all ages the designs will add an exotic pre Columbian touch to a host of art and craft projects 30 illustrations **Mexican Indian Folk Designs** Irmgard Weitlaner-Johnson,2012-10-25 This fascinating book is the product of intensive scholarly research its exacting illustrations based on choice examples of Mexican Indian textiles in many different museums and private collections Incorporating abstract and geometric forms as well as highly stylized images of flowers plants animals birds and humans the patterns represent more than 20 major Mexican Indian cultures Among the designs are a two faced feathered serpent from the Huichol culture an all over pattern dominated by horizontal zigzags woven by the Otom and a flower and leaf design from the Tepehua The Huasteco people are represented by a bold motif featuring prancing animals with bushy tails a Nahuatl design depicts a lion with a flower in his mouth while an elegant curvilinear Mazatec motif features flowers vines and birds Other peoples whose art is represented include the Tarahumara Tepecano Mestizo Zapotec Mixteco and Cuicatec In the bold startling designs originated by these cultures are primal links to the imagery of other cultures and traditions centuries old and worldwide Artists designers and craftspeople will value this modestly priced collection as a source of striking and unusual royalty free designs for inspiration and practical use anyone interested in Mexican Indian culture will find it an important reference as well **Creolization and Transatlantic Blackness** Charmaine A. Nelson,2024-11-12 Departing from more conscribed definitions this book argues for an expansion of the concept of Creolization in terms of duration temporality population and importantly in regional scope which also impact climate and the practices of slavery that are typically included and excluded from consideration Eschewing the normative focus on language and music the authors instead center art and visual and material cultures as both outcomes and practices in their explorations to consider the ways that cultural production in the period of slavery and its aftermath was irrevocably impacted by the collision of races and cultures in the Americas The chapters probe how creolization unfolded for differently constituted individuals and populations as well as how it came to be articulated both in the historical moments of its enactment and its retroactive cultural representations and production In so doing they seek to both expand the terrain literally and figuratively of the definition of creolization and to turn towards an examination of its relevance for art and visual

and material cultures of the Transatlantic world The chapters in this book were originally published in African and Black Diaspora An International Journal
