An Anthology of the Literature of the Mexican Revolution (1910-1920) John Michael Corley, 1996 **Texas and the Mexican Revolution** Don M. Coerver, Linda Biesele Hall, 1984 During the decade 1910 1920 the southern border of the United States was in constant turmoil as a result of the revolution taking place in Mexico at that time Residents of Texas watched with concern as the civil strife in the country to the south engendered violence that spilled across the Rio Grande into their own state This book studies the interaction between Texas and the United States as each attempted to deal with Mexico and the border situation as well as the relationship of both state and nation with the various factions active in the Mexican Revolution Publisher's description *The Mexican Revolution* Alan Knight, 1990 **Mexico, the End of the Revolution** Donald C. Hodges, Ross Gandy, 2001-10-30 This study reveals how the social pact formalized during the armed stage of the Mexican Revolution 1910 20 and implemented during the second stage 1920 40 was upset during the third or arrested stage 1940 70 when the bureaucrat professionals at the helm opted for intensive economic development by taking the capitalist road Although momentarily revived during yet a fourth stage of revolution 1970 82 this social pact was subsequently betrayed from within by the official party of the Revolution and undermined from without by the operation of economic forces behind the scenes In this first book on the complete history of the Mexican Revolution Hodges and Gandy reveal that along with the end of its social pact Mexico passed out of its former nationalist and capitalist orbit to enter the new professional societies and global order fathered by the transnationals From 1920 to 1970 Mexico's bureaucrat professionals hung onto political power while native capitalists continued to flourish In response Mexico's workers and peasants staged strikes against the nationalized sector and fomented guerrilla wars Concessions were then made to this group until beginning in 1982 the social pact was again eroded at the expense not only of the popular sectors but also of the capitalists The economic surplus was redistributed away from owners and into the pockets of professionals That was the

Revolution's last gasp before it was officially put to rest in 2000 with the official party's defeat at the polls. Hodges and Gandy challenge the current belief that Mexico's economic system is still capitalist by presenting statistical evidence that shows how the chief beneficiaries of the economy are no longer the providers of capital but instead the providers of professional services.
