Mexico And Guatemala:

Contraband Corridor Rebecca Berke Galembo, 2017-12-26 The Mexico Guatemala border has emerged as a geopolitical hotspot of illicit flows of both goods and people Contraband Corridor seeks to understand the border from the perspective of its long term inhabitants including petty smugglers of corn clothing and coffee Challenging assumptions regarding security trade and illegality Rebecca Berke Galembo details how these residents engage in and justify extralegal practices in the context of heightened border security restricted economic opportunities and exclusionary trade policies Rather than assuming that extralegal activities necessarily threaten the state and formal economy Galembo's ethnography illustrates the complex ways that the formal informal legal and illegal economies intertwine Smuggling basic commodities across the border provides a means for borderland peasants to make a living while neoliberal economic policies decimate agricultural livelihoods Yet smuggling also exacerbates prevailing inequalities obstructs the possibility of more substantive political and economic change and provides low risk economic benefits to businesses state agents and other illicit actors often at the expense of border residents Galembo argues that securitized neoliberalism values certain economic activities and actors while excluding and criminalizing others even when the informal and illicit economy is increasingly one of the poor's only remaining options Contraband Corridor contends that security neoliberalism and illegality are interdependent in complex ways yet how they unfold depends on negotiations between diverse border actors
